EXPLANATORY NOTE

(This Note is not part of the Regulations, but is intended to indicate their general purport.)

By the Agricultural Holdings Act, (Variation of Fourth Schedule) Order, 1951(**a**), there was added to Part II of the Fourth Schedule to the Agricultural Holdings Act, 1948, the acclimatisation, hefting or settlement of hill sheep on hill land, thereby conferring on tenants of agricultural holdings a statutory right to compensation therefor in appropriate cases. The present Regulations, made with the advice of the Committee appointed under section 79 of the Act, prescribe the method of calculating the value of such matters. These Regulations take effect by way of further amendment to the Schedule to the original Regulations—the Agriculture (Calculation of Value for Compensation) Regulations, 1948(**b**), previously amended by the Agriculture (Calculation of Value for Compensation) Amendment Regulations, 1950(**c**).

EXPLANATORY NOTE

(This Note is no part of the Regulations, but is intended to indicate their general purport.)

These Regulations revoke the revised tables of unit values for manures and feedingstuffs which were inserted in the Agriculture (Calculation of

Value for Compensation) Regulations, 1948 (S.I. 1948/185) by the Amendment Regulations of 1950 (S.I. 1950/2029), and substitute new tables of unit values which are somewhat higher, so as to take account of the change in prices of manures.

The following minor amendments to the Regulations of 1948 are also made by these Regulations:—

(1) A provision is inserted to ensure that the residual value of basic slag, as calculated under the Regulations, does not exceed two-thirds, one-third or one-sixth of the cost of the basic slag, including its delivery and spreading, after one crop, two crops or three crops respectively have been taken from the land;

(2) It is provided that the value of shoddy and similar bulky organic manure shall not, after the appropriate addition in respect of residual mechanical value, exceed the cost of the manure, including its delivery and spreading;

(3) Bean-straw is omitted from Table 3, where it was formerly included as a feedingstuff, and is to be inserted in the Regulations alongside bracken, moss litter, peat and other similar materials.

These Regulations are made by the Minister of Agriculture and Fisheries on the advice of the Committee on Agricultural Valuation appointed under section 79 of the Agricultural Holdings Act, 1948.
