STATUTORY INSTRUMENTS

1977 No. 1527

WATER, ENGLAND AND WALES

The Anglian Water Authority (Great Ouse Groundwater Development) Order 1977

Made - - - - *25th August* 1977

Coming into Operation *22nd September* 1977

The Secretary of State for the Environment, in exercise of powers conferred by section 67 of the Water Resources Act 1963(a), section 36 of the Compulsory Purchase Act 1965(b) and section 1 of the Water Resources Act 1971(c) and now vested in him(d) and of all other powers enabling him in that behalf, hereby orders as follows:—

Citation.

1.—(1) This order may be cited as the Anglian Water Authority (Great Ouse Groundwater Development) Order 1977.

(2) The Anglian Water Authority Act 1976, the Anglian Water Authority Orders 1974 to 1976 and this order may be cited together as the Anglian Water Authority Act and Orders 1974 to 1977.

Interpretation.

2.—(1) In this order, unless the context otherwise requires, expressions to which meanings are assigned by section 135 of the Water Resources Act 1963 have the same respective meanings, and—

"the Act of 1963" means the Water Resources Act 1963;

"the Authority" means the Anglian Water Authority;

"the authorised works" means Works Nos. 1 to 359 authorised by this order;

"the deposited plans" and "the deposited sections" respectively mean the plans and sections prepared in duplicate, signed by an Under Secretary in the Department of the Environment and marked "Plans and sections referred to in the Anglian Water Authority (Great Ouse Groundwater Development) Order 1977" of which one set is deposited and available for inspection at the offices of the Authority (Great Ouse River Division) and the other at the offices of the Secretary of State;

"improvement and maintenance work" includes the protection of banks, the removal and lopping of trees and bushes, dredging, the repair and replacement of culverts and gauging structures and the clearance of debris;

"telegraphic line" has the same meaning as in the Telegraph Act 1878(e);

"the Third Schedule" means the Third Schedule to the Water Act 1945(f).

(a) 1963 c. 38. (b) 1965 c. 56. (c) 1971 c. 34.
(d) S.I. 1970/1681 (1970 III, p. 5551). (e) 1878 c. 76. (f) 1945 c. 42.

(2) In this order a group of two letters and eight figures identifying or associated with any point represents the map co-ordinates of that point estimated to the nearest 10 metres on the grid of the national reference system used by the Ordnance Survey on its maps and plans.

(3) Unless the subject or context otherwise requires, any references in this order to a work identified by the number of such work shall be construed as a reference to the work of that number authorised by this order.

(4) Unless the context otherwise requires, references in this order to any enactment shall be construed as references to that enactment as amended by, or having effect by virtue of, any subsequent enactment, including this order.

(5) The Interpretation Act 1889(a) shall apply for the interpretation of this order as it applies for the interpretation of an Act of Parliament.

Incorporation of enactments.

3.—(1) (*a*) There shall be excepted from Part I of the Compulsory Purchase Act 1965, as applying in relation to this order, the provisions of section 27 and paragraph 3(3) of Schedule 3 to that Act.

(*b*) In its application to this order section 11 of the said Act of 1965 shall have effect as if in subsection (3) thereof for the words "not less than three nor more than fourteen days' notice" there were substituted the words "not less than seven days' notice in the case of the first entry and not less than twenty-four hours' notice in the case of a subsequent entry".

(2) For the purposes of this order the provisions of the Third Schedule set out in column (1) of Schedule 1 to this order shall apply to the Authority and to the authorised works and are hereby incorporated with this order. In their application to the Authority the said provisions shall have effect (*a*) as if for any reference therein to the undertakers there were substituted a reference to the Authority; and (*b*) subject to the modifications set out in column (2) of the said Schedule to this order.

Power to acquire lands.

4. Subject to the provisions of this order, the Authority may purchase compulsorily such of the lands within the limits of deviation and of lands to be acquired shown on the deposited plans as they may require for the construction, maintenance and operation of the authorised works or other purposes connected therewith, including (without prejudice to the generality of the foregoing) for the purpose of obtaining access thereto, obtaining materials for the construction thereof, depositing spoil or other material excavated during the construction thereof, or otherwise for the purposes of this order or other purposes connected therewith:

Provided that notwithstanding anything in this article or shown on the deposited plans the Authority shall not under the powers of this article acquire any part of the enclosure shown on the said plans as being numbered 76 in the Parish of Ickleton in the District of South Cambridgeshire.

Easements only to be acquired for underground works, etc.

5.—(1) Notwithstanding anything in article 4 (Power to acquire lands) of this order, the Authority shall not acquire compulsorily any land required only for the construction of any works to which this section applies (other than any works to be constructed on the surface of the ground forming part of, or connected with, any of those works) if the owners thereof are able and willing to grant or sell to the Authority such easements or rights in or over

(a) 1889 c. 63.

that land as may be sufficient for the purpose of constructing, using, maintaining, protecting, renewing or removing any such works as aforesaid at a price to be agreed or, failing agreement, to be determined by arbitration in accordance with the provisions of the Land Compensation Act 1961(a).

(2) The works to which this section applies are the access roads Works Nos. 161 to 197, the aqueducts Works Nos. 198 to 251 and 265, the aqueducts forming part of Works Nos. 325 to 332 and the laying of electric lines authorised by paragraph (3) of article 6 of this order.

Construction of works.

6.—(1) Subject to the provisions of this order, the Authority may, in the lines, situations and levels and within the limits of deviation shown on the deposited plans and sections within the Counties of Bedfordshire, Cambridgeshire, Essex, Hertfordshire, Norfolk and Suffolk—

(*a*) construct and maintain a borehole or boreholes for the abstraction of water as each of the works numbered in the first column of Schedule 2 to this order in the borough or district, parish and enclosures specified in the second, third and fourth columns of that Schedule as shown on the 1/2500 ordnance map sheets specified in the fifth column of the said Schedule;

(*b*) continue, maintain, improve and duplicate for the abstraction of water as each of the works numbered in the first column of Schedule 3 to this order the existing boreholes in the borough or district, parish and enclosures specified in the second, third and fourth columns of that Schedule as shown on the 1/2500 ordnance map sheets specified in the fifth column of the said Schedule;

(*c*) construct and maintain a borehole or boreholes for observation purposes as each of the works numbered in the first column of Schedule 4 to this order in the borough or district, parish and enclosures specified in the second, third and fourth columns of that Schedule as shown on the 1/2500 ordnance map sheets specified in the fifth column of the said Schedule;

(*d*) construct and maintain an access road as each of the works numbered in the first column of Schedule 5 to this order in the borough or district and parish or parishes specified in the second and third columns of that Schedule, between the points specified in the fourth and fifth columns of that Schedule, as shown on the 1/2500 ordnance map sheets specified in the sixth column of the said Schedule;

(*e*) construct and maintain an aqueduct or line or lines of pipes as each of the works numbered in the first column of Schedule 6 to this order in the borough or district and parish or parishes specified in the second and third columns of that Schedule, between the points specified in the fourth and fifth columns of that Schedule, as shown on the 1/2500 ordnance map sheets specified in the sixth column of the said Schedule;

(*f*) continue, maintain, improve and duplicate as each of the works numbered in the first column of Schedule 7 to this order the existing aqueduct or line or lines of pipes in the district and parish or parishes specified in the second and third columns of that Schedule, between the points specified in the fourth and fifth columns of that Schedule, as shown on the 1/2500 ordnance map sheets specified in the sixth column of the said Schedule;

(a) 1961 c. 33.

(*g*) construct and maintain an outfall as each of the works numbered in the first column of Schedule 8 to this order in the borough or district, parish and enclosures specified in the second, third and fifth columns of that Schedule, and at the point specified in the fourth column of that Schedule, as shown on the 1/2500 ordnance map sheets specified in the sixth column of the said Schedule;

(*h*) continue and maintain as each of the works numbered in the first column of Schedule 9 to this order the existing outfalls in the district, parish and enclosures specified in the second, third and fifth columns of that Schedule, and at the point specified in the fourth column of that Schedule, as shown on the 1/2500 ordnance map sheets specified in the sixth column of the said Schedule;

(*i*) construct and maintain an aqueduct or line or lines of pipes and an outfall as each of the works numbered in the first column of Schedule 10 to this order in the district and parish or parishes specified in the second and third columns of that Schedule, between the points specified in the fourth and fifth columns of that Schedule, as shown on the 1/2500 ordnance map sheets specified in the sixth column of the said Schedule;

(*j*) carry out improvement and maintenance work as each of the works numbered in the first column of Schedule 11 to this order in the borough or district and parish or parishes specified in the second and third columns of that Schedule on watercourses between the points specified in the fourth and fifth columns of that Schedule, as shown on the 1/2500 ordnance map sheets specified in the sixth column of the said Schedule;

(*k*) construct and maintain a stream gauging structure as each of the works numbered in the first column of Schedule 12 to this order in the borough or district, parish or parishes and enclosures specified in the second, third and fourth columns of that Schedule, as shown on the 1/2500 ordnance map sheets specified in the fifth column of the said Schedule;

(*l*) continue and maintain as each of the works specified in the first column of Schedule 13 to this order the existing stream gauging structures in the borough or district, parish or parishes and enclosures specified in the second, third and fourth columns of that Schedule as shown on the 1/2500 ordnance map sheets specified in the fifth column of the said Schedule.

(2) (*a*) The Authority may lay electric lines—

(i) in connection with and as part of the authorised works for the purpose of establishing telegraphic, telephonic or other electrical communication between any part of the authorised works or between different parts of the authorised works or between any part of the authorised works and their offices; and

(ii) for the purpose of transmitting electricity between any boreholes forming part of the authorised works and any electric line laid for that purpose may be laid in connection with and as part of those works.

(*b*) Subsections (3), (4) and (5) of section 5 of the Third Schedule shall extend and apply to any electric lines laid under this paragraph as if they were wires, posts, conductors and other apparatus laid under the said section 5:

Provided that the said subsection (3) as so applied shall have effect as if the words from "and shall be" to the end of the subsection were omitted.

(*c*) In this paragraph "electric line" has the same meaning as in the Electricity (Supply) Acts 1881 to 1936.

(3) The Authority may within the limits of deviation from time to time extend, enlarge, alter, replace or relay the works described in paragraphs (1) and (2) of this article.

General power to construct subsidiary works.

7.—(1) Subject to the provisions of this order and within the limits of deviation shown on the deposited plans, the Authority in connection with and for the purposes of the authorised works, may—

(*a*) make junctions and communications between any of those works and any watercourses and any existing streets, roads, droves, ways, fords, bridges, towing paths and footpaths;

(*b*) make, provide and maintain all necessary and convenient walls, banks, embankments, lagoons, piling, fences, gates, facilities for watering cattle and other animals, culverts, drains, intakes, syphons, channels, weirs, gauges, sluices, wharves, mattresses, pitching, roads, droves, bridges, towing paths and footpaths, and all such buildings, sheds, meter, valve and other chambers, mains, pipes, cables, radio masts and aerials, wires, pumps, meters, machinery, works and appliances as may be required;

(*c*) dispose of spoil or other materials;

(*d*) execute any works for the protection of any adjoining lands or buildings;

(*e*) remove, alter, divert or stop up any watercourse or local authority sewer, the Authority providing a proper substitute before interrupting the flow of sewage in any sewer or water in any watercourse;

(*f*) fell, lop or cut and remove any tree, bush, shrub or other vegetation; and

(*g*) alter any mains, pipes, wires and other works and apparatus for conveying or transmitting water, gas, electricity, petroleum (as defined in the Petroleum (Consolidation) Act 1928(a)) or other commodities and any telegraphic or telephonic lines, wires, works and apparatus.

(2) In the exercise of the powers conferred by this article, the Authority shall cause as little detriment and inconvenience to any person as circumstances admit.

(3) Within the limits of deviation shown on the deposited plans the Authority may raise, lower or otherwise alter the position of any steps, areas, cellars, windows, pipes, or spouts, belonging to any house or building and may remove all other obstructions, so that the same be done with as little delay or inconvenience to the inhabitants as circumstances admit.

Temporary stoppage of watercourses, highways, etc.

8.—(1) The Authority during and for the purposes of the execution of any of the authorised works or obtaining materials for the construction thereof may temporarily stop up, alter, divert or otherwise interfere with any watercourse or highway or any private right of way, and, in the case of any highway or right of way, may for any reasonable time divert the traffic therefrom and prevent all persons other than those bona fide going with or without animals to or from any land, house or building abutting on the highway or right of way from passing along and using the same.

(a) 1928 c. 32.

(2) The Authority shall provide reasonable access for foot passengers bona fide going with or without animals to or from any such land, house or building.

(3) (*a*) The powers of paragraph (1) of this Article shall not be exercised in relation to a highway without the consent of the highway authority, which consent shall not be unreasonably withheld but may be given subject to such reasonable conditions (other than a monetary payment) as the highway authority may require, and any question whether such consent is unreasonably withheld, or any conditions so imposed are unreasonable, shall be determined by the Secretary of State for the Environment.

(*b*) The powers of paragraph (1) of this article shall not be exercised in relation to any watercourse without providing a proper substitute before interrupting the passage of water in or through such watercourse, and the Authority shall make compensation for any damage caused to any person by the exercise of such powers in relation to any watercourse, the amount of such compensation being, in case of dispute, determined by arbitration.

(*c*) Not less than seven days before exercising the powers of paragraph (1) of this article so as to interrupt any service of stage carriages or express carriages the Authority shall consult the holders of the road service licence under which that service is authorised, and if such interruption cannot reasonably be avoided shall either—

(i) provide a proper temporary substitute way; or (if such provision is not reasonably practicable);

(ii) exercise the said powers at such times and in such manner as to cause the minimum of interruption to the service and inconvenience to the passengers using it.

(4) The exercise of the powers conferred by this article in relation to a highway shall not affect the powers of the Post Office under the Telegraph Acts as defined in section 21 of the Post Office Act 1969(a) to maintain, inspect, repair, renew or remove telegraphic lines or to open or break up that highway for any of those purposes.

Power to make discharges of water.

9.—(1) The Authority may make the discharges respectively particulars of which are set out in Schedule 14 to this order from the discharge points specified in column (2) of that Schedule into the watercourses specified in column (3) of that Schedule, being discharges of water by means of the works authorised by this order specified in column (1) of that Schedule and at a rate not exceeding that specified in column (4) of the said Schedule.

(2) Notwithstanding anything in paragraph (1) of this article the discharges thereby authorised may be made at any other point on the receiving watercourse mentioned opposite the same in column (3) of the said Schedule being a point within the limits of deviation of the work from which the discharge is made and mentioned in column (1) of the said Schedule.

For protection of statutory undertakers.

10. For the protection of the undertakers the following provisions shall unless otherwise agreed in writing between the Authority and the undertakers apply and have effect:—

(a) 1969 c. 48.

(1) In this article, unless the subject or context otherwise requires—

"adequate alternative apparatus" means alternative apparatus adequate to enable the undertakers to fulfil their statutory functions in a manner not less efficient than previously;

"apparatus" means—

(*a*) in the case of electricity undertakers, electric lines or works (as respectively defined in the Electric Lighting Act 1882(a)) belonging to or maintained by such undertakers; or

(*b*) in the case of gas or water undertakers, any apparatus belonging to such undertakers or for the maintenance of which they are responsible;

(not being in either case apparatus in respect of which the relations between the Authority and the undertakers are regulated by the provisions of Part II of the Public Utilities Street Works Act 1950(b)) and includes any works constructed for the lodging therein of apparatus;

"in" in a context referring to apparatus includes under, over, across, along or upon;

"operational land" means any land in which the undertakers hold an interest for the purposes of their undertaking;

"plan" includes a section and description;

"specified work" means any work or thing done under the powers conferred by this order.

"the undertakers" means the British Gas Corporation, the Central Electricity Generating Board, the Eastern Electricity Board, the Cambridge Water Company, the East Anglian Water Company and the Lee Valley Water Company or any of them, as the case may be.

(2) Notwithstanding anything in this order or shown on the deposited plans, the Authority shall not, under the powers of this order, acquire any apparatus or operational land otherwise than by agreement.

(3) The Authority shall not under the powers of paragraph (1)(*g*) of article 7 (General power to construct subsidiary works) of this order alter any apparatus except in accordance with the provisions of this article.

(4) If the Authority in the exercise of the powers of this order acquire any interest in any land in which any apparatus is placed, that apparatus shall not be removed nor shall any right of the undertakers to use, maintain, repair, alter, renew or inspect any apparatus in that land be extinguished until adequate alternative apparatus has been constructed and is in operation to the reasonable satisfaction of the undertakers.

(5) (*a*) If the Authority for the purpose of or in connection with the execution of any specified work require the removal of any apparatus, they shall give to the undertakers written notice of such requirement with a plan of the proposed work;

(*b*) If the Authority require the undertakers to remove any apparatus, or if in consequence of the execution of any specified work the undertakers shall reasonably require to remove any apparatus, the Authority shall,

(a) 1882 c. 56. (b) 1950 c. 39.

if practicable, afford to the undertakers the necessary facilities and rights for the construction of adequate alternative apparatus in other lands of the Authority and thereafter for the maintenance, repair, alteration, renewal and inspection of such apparatus:

Provided that if the alternative apparatus or any part thereof is to be constructed elsewhere than in other lands of the Authority and the Authority are unable to afford such facilities and rights as aforesaid in the lands in which the alternative apparatus or such part thereof is to be constructed, the undertakers shall, on receipt of a written notice to that effect from the Authority, forthwith use their best endeavours to obtain the necessary facilities and rights.

(6) (*a*) Any alternative apparatus to be constructed in lands of the Authority in pursuance of paragraph (5) of this article shall be constructed in such manner and in such line or situation as may be agreed between the undertakers and the Authority or, in default of agreement, settled by arbitration;

(*b*) The undertakers shall, after the manner of construction and the line and situation of any alternative apparatus have been agreed or settled by arbitration as aforesaid, and after the grant to the undertakers of any such facilities and rights as are referred to in paragraph (5) of this article, proceed with all reasonable dispatch to construct and bring into operation the alternative apparatus and thereafter to remove any apparatus required by the Authority to be removed under the provisions of this article, and in default, the Authority may remove the apparatus.

(7) Notwithstanding anything in paragraph (6) of this article, if the Authority give notice in writing to the undertakers that they desire themselves to execute any part of so much of the work necessary in connection with the construction of the alternative apparatus or the removal of the apparatus required to be removed as will be situate in any lands of the Authority, such work, in lieu of being executed by the undertakers, shall be executed by the Authority with all reasonable dispatch under the superintendence, if given, and to the reasonable satisfaction of the undertakers:

Provided that nothing in this paragraph shall authorise the Authority to execute the actual placing, erection, installation, bedding, packing, removal, connection or disconnection of any apparatus or any filling around the apparatus (where the apparatus is laid in a trench) within 12 inches above the apparatus.

(8) Where in accordance with the provisions of this article the Authority afford to the undertakers facilities and rights for the construction, maintenance, repair, alteration, renewal and inspection in lands of the Authority of adequate alternative apparatus in substitution for apparatus to be removed as aforesaid, those facilities and rights shall be granted upon such terms and conditions as may be agreed between the Authority and the undertakers or, in default of agreement, determined by arbitration:

Provided that—

(*a*) in determining such terms and conditions as aforesaid in respect of alternative apparatus to be constructed across or through a specified work the arbitrator shall

(i) give effect to all reasonable requirements of the authority for ensuring the safety and efficient operation of the specified

work and for securing any subsequent alterations or adaptations of the alternative apparatus which may be required to prevent interference with any such work; and

(ii) so far as it may be reasonable and practicable to do so in the circumstances of the particular case, give effect to any terms and conditions applicable to the apparatus constructed through the lands of the Authority for which the alternative apparatus is to be substituted;

(*b*) if the facilities and rights to be afforded by the Authority in respect of any alternative apparatus and the terms and conditions subject to which the same are to be granted are, in the opinion of the arbitrator, more or less favourable on the whole to the undertakers than the facilities, rights, terms and conditions applying to the apparatus to be removed, the arbitrator shall make such provision for the payment of compensation to or by the Authority by or to the undertakers in respect thereof as shall appear to him to be reasonable having regard to all the circumstances of the particular case.

(9) (*a*) Not less than twenty-eight days before commencing to execute any specified work which is near to or is likely to affect any apparatus, the removal of which has not been required by the Authority under paragraph (5) of this article, the Authority shall submit to the undertakers a plan of the work to be executed;

(*b*) Such work shall be executed only in accordance with the plan submitted as aforesaid and in accordance with such reasonable requirements as may be made by the undertakers for the alteration or otherwise for the protection of the apparatus, or for securing access thereto, and the undertakers shall be entitled by their officer to watch and inspect the execution of such work:

Provided that—

(i) if the undertakers within fourteen days after the submission to them of any such plan shall, in consequence of the work proposed by the Authority reasonably require the removal of any apparatus and give written notice to the Authority of such requirement the foregoing provisions of this article shall apply and have effect as if the removal of such apparatus had been required by the Authority under paragraph (5) thereof;

(ii) nothing in this sub-paragraph shall preclude the Authority from submitting at any time, or from time to time, but in no case less than twenty-eight days before commencing the execution of any such work, a new plan in lieu of the plan previously submitted and thereupon the provisions of this paragraph shall apply to and in respect of such new plan;

(*c*) The Authority shall not be required to comply with sub-paragraph (*a*) of this paragraph in a case of emergency but, in such a case, they shall give to the undertakers notice as soon as reasonably practicable and a plan of the work as soon as reasonably practicable thereafter and shall comply with sub-paragraph (*b*) of this paragraph so far as reasonably practicable in the circumstances.

(10) If in consequence of the exercise of the powers of this order the access to any apparatus is materially obstructed the Authority shall provide an alternative means of access to such apparatus.

(11) The Authority shall repay to the undertakers the reasonable costs, charges and expenses incurred by the undertakers in or in connection with—

(*a*) the removal and relaying or replacing, alteration or protection of any apparatus or the provision and construction of any new apparatus under any of the provisions of this article;

(*b*) the cutting off of any apparatus from any other apparatus; and

(*c*) any other work or thing rendered reasonably necessary in consequence of the exercise by the Authority of any of the powers of this order:

Provided that subsections (3) and (4) of section 23 of the Public Utilities Street Works Act 1950 (which imposes limitations on undertakers' rights to payment) shall so far as applicable extend and apply to any payment to be made by the Authority under this paragraph as if the Authority were the promoting authority and works hereinbefore in this paragraph mentioned were such undertakers' works as are referred to in the said subsection (3) and as if in that subsection for the words "specified as so necessary in a specification of the works settled under Part I of the Fourth Schedule to this Act or agreed so to be by the promoting authority" there were substituted the words "agreed or settled by arbitration under article 10 (For protection of statutory undertakers) of the Anglian Water Authority (Great Ouse Groundwater Development) Order 1977".

(12) If by reason or in consequence of the execution, user or failure of any specified work or any subsidence resulting from any such work any damage to any apparatus (other than apparatus the repair of which is not reasonably necessary in view of its intended removal for the purposes of such work) of the undertakers or any interruption in the supply of electricity, gas or water by the undertakers shall be caused, the Authority shall bear and pay the cost reasonably incurred by the undertakers in making good such damage or in restoring the supply of electricity, gas or water (as the case may be) and shall—

(*a*) make reasonable compensation to the undertakers for any loss sustained by them; and

(*b*) indemnify the undertakers against all claims, demands, proceedings, costs, damages and expenses which may be made or taken against or recovered from or incurred by the undertakers;

by reason or in consequence of any such damage or interruption:

Provided that—

(i) nothing in this paragraph shall impose any liability on the Authority with respect to any damage or interruption to the extent that such damage or interruption is attributable to the act, neglect or default of the undertakers or their contractors or workmen;

(ii) the undertakers shall give to the Authority reasonable notice of any claim or demand as aforesaid and no settlement or compromise thereof shall be made without the prior consent of the Authority.

(13) The temporary stopping up or diversion of any watercourse or highway or private right of way under the powers of article 8 (Temporary stoppage of watercourses, highways, etc.) of this order shall not prejudice or affect any right of the undertakers—

(*a*) to lay, erect, maintain, inspect, repair, alter, renew or remove any apparatus in the watercourse or highway, or private right of way; or

(*b*) for the purpose of such laying, erection, maintenance, inspection, repair, alteration, renewal or removal to enter upon or break open that watercourse or highway or private right of way.

(14) (*a*) Any difference which may arise between the Authority and the undertakers under this article shall be determined by arbitration;

(*b*) In settling any difference under this article the arbitrator may, if he thinks fit, require the Authority to execute any temporary or other works so as to avoid, so far as may be reasonably possible, interference with the use of any apparatus.

SCHEDULE 1.

PROVISIONS OF THIRD SCHEDULE APPLIED.

Provisions applied (1)	Modification (2)
Section 2 (Permissible limits of deviation)	For the words "the plans submitted to the Minister" there shall be substituted the words "the deposited plans and sections".
Section 8 (Persons under disability may grant easements, &c.)	—
Section 91 (Mode of reference to arbitration)	—
Section 94 (Copies of special Act to be kept by undertakers in their office, and deposited with certain officers)	—

SCHEDULE 2.
