1. These regulations shall come into operation on the third day of August, nineteen hundred and fifty-seven, and may be cited as the Coal-Mining (Subsidence) (Notice of Works) Regulations, 1957.

3. Subject to the provisions of regulations four and five hereof a notice given to the Board for the purposes of subsection (3) of section two of the Act shall be so given not less than fourteen days, or if the Board so request when giving notice of their election under subsection (2) of section two of the Act, not less than twenty-eight days, before any remedial works or any such merged or re-development works as are mentioned in subsection (3) of section one of the Act the particulars of which are set out in such notice are begun.

4.—(1) In any case where—

(2) The execution of remedial works in accordance with paragraph (1) of this regulation shall not be deemed to have been so required in any case if, or to the extent that, the execution of emergency works would have enabled the damaged property to continue to be used for its respective purpose.
