1. In this Order a "designated building" shall mean a building of any one or more of the descriptions following, that is to say:—

(*a*) a building used or intended to be used wholly for the purpose of or in connection with the carrying out by way of trade or business of any process or processes consisting of the making of any article, the altering, repairing, ornamenting, finishing, cleaning, washing, packing or canning, or adapting for sale, or breaking up or demolition of any article, or (without prejudice to the generality of the preceding words) the getting, dressing or preparation for sale of minerals, or the extraction or preparation for sale of oil or brine;

Provided (i) that if the first mentioned work is wholly carried out on a designated building the preceding provisions of this Article shall be read and take effect as if for the sum of One hundred pounds there were substituted the sum of Five hundred pounds, and (ii) that all buildings forming part of a single property shall, for the purposes of this proviso other than that of determining whether the building is a designated building, be deemed to be a single building.

(2) In this Order, the expression "a property" means, in relation to any work carried out at any time—

(*a*) any property the full value of which was ascertained for the purposes of an assessment under Schedule A in force at that time; or

(*b*) any property which, not being or forming part of a property to which sub-paragraph (*a*) of this paragraph applies, was at that time the subject of a valuation shown in the Valuation List for the time being in force under the Rating and Valuation Acts, 1925 to 1940, or the Rating and Valuation (Metropolis) Acts, 1869 to 1940, as the case may be; or

EXPLANATORY NOTE

(This Note is not part of the Order, but is intended to indicate its general purport.)

1. This Order supersedes the Control of Building Operations (No. 14) Order and renews the financial limits within which building and civil engineering work may be undertaken without authorisation or licence.

2. The requirement that local authorities and certain public utility undertakings must obtain an authorisation from a Government Department for certain operations will continue to apply only to operations the total cost of which amounts to more than £500.

3. There is no change in the limits of cost permitted for unlicensed work. During the period 1st July, 1950, to 30th June, 1951, work may be done on any property without a building licence if the cost of the work, together with the cost of any previous work carried out on the property without a licence in the period, does not exceed £100 or, in the case of "designated buildings", which may be described generally as industrial buildings and farm buildings other than dwelling houses, £500.
