is authorised by the Minister, the charge agreed shall be modified accordingly, an additional charge equal to $16\frac{2}{3}$ per cent. of the amount of the charge in operation under the Agreement immediately before the coming into operation of these Regulations subject to the application of the Fractions Rules as follows:—

(i) In the case of charges on a "Per ton" basis—Fractions Rule A shall apply.

(ii) In the case of charges on a "Per Package", "Per Consignment" or "Per Gallon" basis—Fractions Rule B shall apply, except that, where the charge in operation is expressed in terms including decimals of one penny, the additional charge shall be the actual amount calculated by reference to the charge in operation and no Fractions Rule shall apply.

EXPLANATORY NOTE

(This Note is not part of the Regulations, but is intended to indicate their general purport.)

These Regulations authorise the British Transport Commission to make in connection with the conveyance of merchandise on their railways, additional charges equal to $16\frac{2}{3}$ per cent. of the charges for the time being in operation, except in the case of small parcels by merchandise train. In that case, the level of the charges in operation before the coming into operation of these Regulations was below the general level of other charges. Under these Regulations the levels will now be approximately the same, that is to say, approximately 80 per cent. above the charges authorised by the Acts.
