Twenty-eight days at the least before commencing to lay in any street any electric line which is intended for supplying energy to any particular consumer and not for the purposes of general supply the Undertakers shall serve upon the local authority and upon the owner or occupier of all premises abutting on so much of the street as lies between the points of origin and termination of the electric line so to be laid a notice stating that the Undertakers intend to lay such electric line and setting forth the effect of this section and if within the said period any two or more of such owners or occupiers shall require in accordance with the provisions of this Order that a supply shall be given to their premises the necessary distributing main shall be laid by the Undertakers at the same time as the electric line intended for such particular consumer.

If Undertakers fail to lay down mains &c. Order may be revoked.

21. If the Undertakers make default in laying down any distributing mains in accordance with the provisions of this Order within the periods prescribed in that behalf respectively they shall be liable to a penalty not exceeding five pounds in respect of each such default for each day during which such default continues and if the Board of Trade are of opinion in any case that such default is wilful and unreasonably prolonged they may after considering any representations of the local authority either revoke this Order as to the whole or any part of the area of supply or if the Undertakers so desire suffer the same to remain in force as to such area or part thereof subject to such conditions as they may think fit to impose and any conditions so imposed shall be binding on and observed by the Undertakers and shall be of the like force and effect in every respect as though they were contained in this Order Provided that the Board of Trade shall

not revoke this Order as to part of the area of supply where the Undertakers make a representation that they desire to be relieved of their liabilities as respects the rest of the area of supply and in such case the Board of Trade shall not under this section revoke this Order otherwise than as to the whole of the area of supply.

Manner in which requisition is to be made.

22. Any requisition requiring the Undertakers to lay down distributing mains for the purposes of general supply throughout any street or part of a street may be made by six or more owners or occupiers of premises along such street or part of a street or where the local authority has the control and management of the public lamps in such street or part of a street by the local authority.

Where any such requisition is made by any such owners or occupiers as aforesaid the Undertakers (if they think fit) may within fourteen days after the service of the requisition upon them serve a notice on all the persons by whom the requisition is signed stating that they decline to be bound by such requisition unless such persons or some of them will bind themselves to take or will guarantee that there shall be taken a supply of energy for three years of such amount in the aggregate (to be specified by the Undertakers in such notice) as will at the rates of charge for the time being charged by the Undertakers for a supply of energy from distributing mains to ordinary consumers within the area of supply produce annually such reasonable sum as shall be specified by the Undertakers in such notice Provided that in such notice the Undertakers shall not without the authority of the Board of Trade specify any sum exceeding twenty per centum upon the expense of providing and laying down the required distributing mains and any other mains or additions to existing mains which may be necessary for the purpose of connecting such distributing mains with the nearest available source of supply.

Where such notice is served the requisition shall not be binding on the Undertakers unless within fourteen days after the service of such notice on all the persons signing the requisition has been effected or in case of difference the delivery of the arbitrator's award there be tendered to the Undertakers an agreement severally executed by such persons or some of them binding them to take or guaranteeing that there shall be taken for a period of three years at the least such specified amounts of energy respectively as will in the aggregate at the rates of charge above specified produce an annual sum amounting to the sum specified in the notice or determined by arbitration under this section nor unless sufficient security for the payment to the Undertakers of all moneys which may become due to them from such

persons under such agreement is offered to the Undertakers (if required by them by such notice as aforesaid) within the period limited for the tender of the agreement as aforesaid.

If the Undertakers consider that the requisition is unreasonable or that under the circumstances of the case the provisions of this section ought to be varied they may within fourteen days after the service of the requisition upon them appeal to the Board of Trade who after such inquiry if any as they shall think fit may by order either determine that the requisition is unreasonable and shall not be binding upon the Undertakers or may authorise the Undertakers by their notice to require a supply of energy to be taken for such longer period than three years and to specify such sum or percentage whether calculated as herein-before provided or otherwise as shall be fixed or directed by the Order and the terms of the above-mentioned agreement shall be varied accordingly.

In case of any such appeal to the Board of Trade any notice by the Undertakers under this section may be served by them within fourteen days after the decision of the Board of Trade.

25. The Undertakers shall upon being required to do so by the owner or occupier of any premises situate within fifty yards from any distributing main of the Undertakers in which they are for the time being required to maintain or are maintaining a supply of energy for the purposes of general supply to private consumers under this Order or any regulations and conditions subject to which they are authorised to supply energy under this Order give and continue to give a supply of energy for such premises in accordance with the provisions of this Order and of all such regulations and conditions as aforesaid and they shall furnish and lay any electric lines that may be necessary for the purpose of supplying the maximum power with which any such owner or occupier may be entitled to be supplied under this Order subject to the conditions following (that is to say):

the possession of such occupier and of so much of any such electric lines as it may be necessary to lay for a greater distance than sixty feet from any distributing main of the Undertakers although not on such property shall if the Undertakers so require be defrayed by such owner or occupier.

Every owner or occupier of premises requiring a supply of energy shall—

Serve a notice upon the Undertakers specifying the premises in respect of which such supply is required and the maximum power required to be supplied and the day (not being an earlier day than a reasonable time after the date of the service of such notice) upon which such supply is required to commence and

Enter into a written contract with the Undertakers (if required by them so to do) to continue to receive and pay for a supply of energy for a period of at least two years of such an amount that the payment to be made for the same at the rate of charge for the time being charged by the Undertakers for a supply of energy to ordinary consumers within the area of supply shall not be less than twenty pounds per centum per annum on the outlay incurred by the Undertakers in providing any electric lines required under this section to be provided by them for the purpose of such supply and give to the Undertakers (if required by them so to do) security for the payment to them of all moneys which may become due to them by such owner or occupier in respect of any electric lines to be furnished by the Undertakers and in respect of energy to be supplied by them.

Provided always that the Undertakers may after they have given a supply of energy for any premises by notice in writing require the owner or occupier of such premises within seven days after the date of the service of such notice to give to them security for the payment of all moneys which may become due to them in respect of such supply in case such owner or occupier has not already given such security or in case any security given has become invalid or is insufficient and in case any such owner or occupier fail to comply with the terms of such notice the Undertakers may if they think fit discontinue to supply energy for such premises so long as such failure continues.

Provided also that if the owner or occupier of any such premises as aforesaid uses any form of lamp or burner or uses the energy supplied to him by the Undertakers for any purposes or deals with it in any manner so as to unduly or improperly interfere with the efficient supply of energy to any other body or person by the Undertakers the Undertakers may if they think fit discontinue to supply energy to such premises so long as such user continues.

Provided also that the Undertakers shall not be compelled to give a supply of energy to any premises unless they are reasonably satisfied that the electric lines fittings and apparatus therein are in good order and condition and not calculated to affect injuriously the use of energy by the Undertakers or by other persons.

26. Price.

Methods of charging.

29. The Undertakers may charge for energy supplied by them to any ordinary consumer (otherwise than by agreement)—

(1.) By the actual amount of energy so supplied; or

(2.) By the electrical quantity contained in such supply; or

Provided that where the Undertakers charge by any method so approved by the Board of Trade any consumer who objects to that method may by one month's notice in writing require the Undertakers to charge him at their option by the actual amount of energy supplied to him or by the electrical quantity contained in such supply and thereafter the Undertakers shall not except with the consumer's consent charge him by any other method.

Provided also that before commencing to supply energy through any distributing main for the purposes of general supply the Undertakers shall give notice to the local authority by what method they propose to charge for energy supplied through such main and if the local authority become the Undertakers under this Order they shall give the like notice by public advertisement and where the Undertakers have given any such notice they shall not be entitled to change such method of charging except after one month's notice of such change has been given by them to the local authority and to every consumer of energy who is supplied by them from such main.
