THIRD COMMISSION DECISION

of 9 January 1974

amending the Decision of 23 May 1973 authorizing the Member States to approve for marketing reproductive material of certain forestry species subjected to reduced requirements

(74/73/EEC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community;

Having regard to the Council Directive of 14 June 1966 [1] on the marketing of forest reproductive material, as last amended by the Act [2] annexed to the Treaty [3] on the Accession of new Member States to the European Economic Community and to the European Atomic Energy Community, signed in Brussels on 22 January 1972, and in particular Article 15 (1) thereof;

Having regard to the application submitted by the Kingdom of Denmark and the United Kingdom;

Whereas the production of reproductive material of certain forestry species at present shows a deficit in all Member States and so cannot supply the requirements of these countries for reproductive material of the said species;

Whereas third countries are not in a better position to supply sufficient quantities of reproductive material of the species concerned giving the same guarantees as reproductive material produced in the Community and corresponding to the provisions of the abovementioned Directive;

Whereas for this reason the Member States have already been authorized by the Commission Decision of 23 May 1973 [4], amended by the Decision of 18 July 1973 [5] and of 4 December 1973, to approve for marketing reproductive material of certain forestry species subjected to reduced requirements;

Whereas the Kingdom of Denmark and the United Kingdom were unable to communicate the extent of their needs for certain species within the required time;

Whereas the quantities of reproductive material communicated by the aforesaid Member States should, therefore, be included in the Decision of 23 May 1973;

Whereas the measures provided for in this Decision are in accordance with the Opinion of the Standing Committee on Seeds and Propagating Material for Agriculture, Horticulture and Forestry,

HAS ADOPTED THIS DECISION:

Article 1

The provisions, listed under the headings *Abies alba Mill., Larix decidua Mill., Picea abies Karst., Quercus borealis Michx., Quercus pedunculata Ehrh.* and *Quercus sessiliflora Sal.* in the Annex to the Commission Decision of 23 May 1973 authorizing the Member States to approve for marketing reproductive forestry material of certain forestry species subjected to reduced requirements, in respect of the following countries are completed as follows:
