COMMISSION

COMMISSION DECISION
of 17 December 1974
derogating from High Authority recommendation No 1/64 concerning an increase in the protective duty on iron and steel products at the external frontiers of the Community
(sixty-fifth derogation)

(75/21/ECSC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Coal and Steel Community, and in particular Articles 2 to 5, 8, 71 and 74 thereof;

Having regard to High Authority recommendation No 1/64 [1] of 15 January 1964 to the Governments of the Member States concerning an increase in the protective duty on iron and steel products at the external frontiers of the Community, and in particular Article 3 thereof;

Having regard to the agreement reached on 2 December 1974 by the representatives of the Member States meeting within the Council on tariff measures to be taken for the first six months of 1975;

Whereas, for years past, the representatives of the Governments of the Member States meeting within the Council have unanimously agreed on six-monthly derogations from the harmonized Community customs duties for steel;

Whereas these derogations take the form either of a reduction or temporary suspension of certain customs duties or of the granting of tariff quotas at reduced or suspended rates of duty; whereas the last tariff measures of this kind were taken by the representatives of the Governments of the Member States on 2 December 1974 in respect of the first six months of 1975;

Whereas such measures are justified by the fact that the products in question are not manufactured, or are manufactured in insufficient quantities, in the Community and that their importation on preferential terms is not injurious to iron and steel undertakings in the Community which produce directly competing products;

Whereas these reasons and circumstances, on which the six-monthly tariff measures taken by the Member States are based, also allow, given present conditions on the common market in steel, of their application within the framework of recommendation No 1/64 of 15 January 1964; whereas neither this suspension of duties nor these tariff quotas are likely to jeopardize the objectives of recommendation No 1/64 concerning an increase in the protective duty at the external frontiers of the Community and whereas, furthermore, such tariff measures help to maintain existing trade flows between the Member States and third countries;

Whereas there are special cases in the commercial policy field justifying the authorization of derogations pursuant to Article 3 of recommendation No 1/64;

Whereas provision should be made to ensure that the quotas granted will be used solely to supply the needs of industries in the importing countries and that re-exportation in the unaltered state to other Member States of imported iron and steel products will be prevented;

Whereas the Governments of the Member States have been consulted on the tariff quotas set out below,

HAS ADOPTED THIS DECISION:

Article 1

The Governments of the Member States are hereby authorized to derogate from the obligations arising under Article 1 of High Authority recommendation No 1/64 of 15 January 1964 to the extent necessary to introduce, in respect of imports from third countries of the iron and steel products set out below, suspension of duties or tariff quotas up to the quantities and at the levels indicated in respect of each of those products:

ex 73.15 A V b) 1	Special wire rod (of high carbon steel, not further worked than hot-rolled, between 4·5 and 13 mm in diameter) for manufacture of springs and 'piano wire' containing in weight : — 0·60 to 1·05 % of carbon — not more than 0·05 % of sulphur and phosphorus taken together — 0·15 to 0·30 % silicon — not more than 0·10 % of all other elements (with the exception of manganese and chromium) taken togehter (Germany and Benelux are authorized to import — within their quotas — special wire rod of alloy steels, between 4·5 and 13 mm in diameter, for valve springs, with the following characteristics : (a) chrome-vanadium products : 0·40 to 0·65 % C ; 0·15 to 0·30 % Si ; 0·60 to 0·90 % Mn ; 0·15 to 1·10 % Cr ; 0·15 to 0·30 % Va ; not more than 0·30 % Mo ; P and S content of less than 0·035 % each ; (b) chrome-silicon products : 0·50 to 0·60 % C ; 1·35 to 1·60 % Si ; 0·60 to 0·80 % Mn ; 0·55 to 0·80 Cr ; P and S content of less than 0·035 % each)	Germany (FR) Benelux France	8 500 1 350 1 200	0 0 0
ex 73.15 B VII a) 1	'Electrical' sheets and plates of alloy steel, grain-oriented, highly permeable, with a watt-loss of 1·23 watt or less per kg for a thickness of 0·30 mm, or of 1·26 watt or less per kg for a thickness of 0·35 mm, measured at 17 000 gauss and 50 Hz	Germany (FR)	750	0
ex 73.16 A II b)	Used rails for re-rolling	France	33 000	0

Article 2

1. Member States accorded quotas under Article 1 of this Decision shall ensure, in liaison with the Commission, that such quotas are apportioned among third countries on a non-discriminatory basis.

2. They shall take all necessary steps to preclude the possibility of iron and steel products imported under the said tariff quotas being re-exported to other Member States in the same state as that in which they were imported.

Article 3

1. This Decision is addressed to the Member States.

2. It shall remain in force until 30 June 1975.

Done at Brussels, 17 December 1974.

For the Commission

The President

François-Xavier ORTOLI
