(78/536/EEC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community, and in particular the first paragraph of Article 115 thereof,

Having regard to the application under the first paragraph of Article 115 of the Treaty, made on 29 May 1978 by the French Government to the Commission of the European Communities, for authorization not to apply Community treatment to certain setts, flags and paving, hearth and wall tiles, falling within subheadings 69.07 ex A and B ex II and 69.08 ex A and B ex II of the Common Customs Tariff, originating in South Korea and in free circulation in the other Member States,

Whereas in France the importation of the products in question originating in South Korea is prohibited ;

Whereas disparities in the commercial policy measures applied in connection with these products by the Member States are giving rise to deflection of trade, thus preventing the execution of those commercial policy measures which are in force because of the difficult economic situation in the sector concerned ;

Whereas, according to the application submitted, there are serious difficulties in the industrial sector concerned, involving a considerable drop in production and employment and a progressive decline in its market share ;

Whereas further indirect imports, in addition to those already effected, would be likely to aggravate these difficulties ;

Whereas it is not possible to set in motion rapidly the machinery for bringing about the necessary cooperation from the other Member States ;

Whereas authorization should accordingly be given for the application of protective measures under the first paragraph of Article 115, subject to the conditions specified in the Commission Decision of 12 May 1971 [1] and in particular Article 1 thereof ;

Whereas, however, the request for a licence which gave rise to the application in question does not need to be covered by such an authorization in view of the small amount involved,

HAS ADOPTED THIS DECISION :
