COMMISSION DECISION

of 28 July 1978

concerning animal health conditions and veterinary certification for imports of fresh meat from Uruguay

(78/695/EEC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to Council Directive 72/462/EEC of 12 December 1972 on health and veterinary inspection problems upon importation of bovine animals and swine and fresh meat from third countries (1), and in particular Articles 16 and 28 thereof,

Whereas although the situation in Uruguay regarding foot-and-mouth disease has recently improved the epizootiological situation in Uruguay concerning foot-and-mouth disease may constitute a danger for Community livestock because of trade with that country; whereas certain Member States have already adopted protective measures in this respect;

Whereas the necessary steps should therefore be taken at Community level to reduce the risk of introduction of disease by ensuring that imports from Uruguay of fresh meat fulfil conditions which will ensure the protection of Community livestock;

Whereas it is necessary to lay down health requirements for imports of fresh meat from Uruguay; whereas it is necessary to take account of the situation in Uruguay regarding foot-and-mouth disease and particularly the situation at present;

Whereas the measures adopted by Member States must be adapted to the particular health situation of each third country; whereas they must be modified in the light of any developments therein;

Whereas special conditions may be laid down for certain Member States because of their special animal health situations until common Community measures are adopted for the control and eradication of foot-and-mouth disease; whereas these conditions must be at least as strict as those which the same Member States apply in intra-Community trade;

Whereas specific measures of animal health protection should be adopted on a Community basis as provided for by the Directive;

Whereas the measures provided for in this Decision are in accordance with the opinion of the Standing Veterinary Committee,

HAS ADOPTED THIS DECISION:

Article 1

1. Member States shall authorize the importation of fresh meat from Uruguay as follows:

(a) deboned fresh meat of bovine animals, sheep and goats, excluding offals, from which have been removed the major accessible lymphatic glands, conforming to the guarantees laid down in the animal health certificate in accordance with Annex A and which must accompany the consignment;

(b) fresh meat of domestic solipeds, conforming to the guarantees laid down in the animal health certificate in accordance with Annex B and which must accompany the consignment;

(c) the following offals of bovine animals:

— completely trimmed hearts,

— completely trimmed livers,

— completely trimmed tongues without bone, cartilage or tonsils, conforming to the guarantees laid down in the animal health certificate in accordance with Annex C and which must accompany the consignment.

(1) OJ No L 302, 31. 12. 1972, p. 28.

2. Member States shall not authorize the import of categories of fresh meat from Uruguay other than those mentioned in paragraph 1.

Article 2

1. Until the adoption by the Council of Regulations concerning the control and eradication of foot-and-mouth disease within the Community and until 31 December 1982 at the latest, and while continuing to prohibit vaccination against foot-and-mouth disease:

(a) Denmark, Ireland and the United Kingdom in respect of Northern Ireland may, in respect of the deboned fresh meat of bovine animals, sheep and goats referred to under point (a) of Article 1 (1) and the offals referred to under point (c) thereof, continue to refuse to authorize such imports;

(b) the United Kingdom may, in respect of the deboned fresh meat of sheep and goats referred to under point (a) of Article 1 (1) and the offals referred to under point (c) thereof, continue to require additional conditions currently in force which must be at least as strict as those which apply in intra-Community trade.

2. The United Kingdom shall immediately inform the Commission of the additional conditions currently in force.

Article 3

This Decision shall not apply to imports of glands and organs authorized by the country of destination for pharmaceutical manufacturing purposes.

Article 4

This Decision shall be examined with a view to adaptation to Council Regulations concerning the control and eradication of foot-and-mouth disease within the Community, and in any case before 1 July 1982.

Article 5

This Decision shall enter into force on 1 October 1978. However, the certificates currently used, amended if necessary in accordance with the provisions of this Decision, may be used until 31 March 1979.

Article 6

This Decision is addressed to the Member States.

Done at Brussels, 28 July 1978.

For the Commission

Finn GUNDELACH

Vice-President

ANNEX A

ANIMAL HEALTH CERTIFICATE

for deboned fresh meat (1) of bovine animals, sheep and goats, excluding offals, intended for consignment to the European Economic Community

Country of destination .....

Reference to the public health certificate .....

Exporting country, Uruguay.

Ministry .....

Department .....

References .....
(Optional)

I. Identification of meat

Meat (2) of .....
(Animal species)

Nature of cuts (3) .....

Nature of packaging .....

Number of cuts or packages .....

Net weight .....

II. Origin of meat

Address(es) and veterinary approval number(s) of the approved slaughterhouse(s) .....

.....

Address(es) and veterinary approval number(s) of the approved cutting plant(s) .....

.....

III. Destination of meat

The meat will be sent from: .....
(Place of loading)

to: .....
(Country and place of loading)

by the following means of transport (4) .....

Name and address of consignor .....

Name and address of consignee .....

IV. Attestation of health

I, the undersigned, official veterinarian, certify that:

1. the deboned fresh meat described above is obtained from:

   — animals which have remained in the territory of Uruguay for at least three months before being slaughtered or since birth in the case of animals less than three months old,

— in the case of bovine animals this period has been spent in a region in which foot-and-mouth disease vaccination of bovine animals is regularly carried out and officially controlled,

— animals which come from holdings in which there has been no outbreak of foot-and-mouth disease in the previous 60 days, and around which within a radius of 25 km there has been no case of foot-and-mouth disease for 30 days,

— animals which have been transported direct from their holding of origin to the approved slaughterhouse concerned without passing through a market, without contact with animals which do not comply with the conditions required for export of their meat to the Community, and, if conveyed in a means of transport, the latter has been cleaned and disinfected before loading,

— animals which have passed the ante-mortem health inspection referred to in Chapter V of the Annex to Directive 72/462/EEC at the slaughterhouse during the 24 hours before slaughter and have in particular been subject to examination of the mouth and feet and showed no evidence of foot-and-mouth disease,

— in the case of fresh meat from sheep and goats, animals which have not come from a holding which for health reasons is subject to prohibition as a result of an outbreak of ovine or caprine brucellosis during the previous six weeks;

2. the deboned fresh meat is obtained from an establishment or establishments in which, after a case of foot-and-mouth disease has been diagnosed, further preparation of meat for export to the European Community has only been authorized after slaughter of all animals present, removal of all meat, and the total cleaning and disinfection of the establishments under the control of an official veterinarian;

3. the deboned fresh meat described above originates from carcases which have matured at a room temperature of more than + 2 °C for at least 24 hours before the bones were removed;

4. ..... [5].

---

[1] Fresh meat: means all parts fit for consumption from domestic bovine animals, sheep and goats which have not undergone any preserving process; however, chilled and frozen meat shall be considered as fresh meat.

[2] Only deboned fresh meat from bovine animals, sheep and goats from which the major accessible lymphatic glands have been removed is authorized for importation.

[3] Fresh meat is only authorized for importation when all bones have been removed.

[4] For railway wagons or lorries the registration number should be given, for aircraft the flight number and for ships the name.

[5] Additional conditions required by the United Kingdom.

ANNEX B

ANIMAL HEALTH CERTIFICATE

for fresh meat (1) of domestic solipeds intended for consignment to the European Economic Community

Country of destination .....

Reference to the public health certificate .....

Exporting country, Uruguay.

Ministry .....

Department .....

References .....
(Optional)

I. Identification of meat

Meat of domestic solipeds.

Nature of cuts .....

Nature of packaging .....

Number of cuts of packages .....

Net weight .....

II. Origin of meat

Address(es) and veterinary approval number(s) of the approved slaughterhouse(s) .....

.....

Address(es) and veterinary approval number(s) of the approved cutting plant(s) .....

.....

III. Destination of meat

The meat will be sent from: .....
(Place of loading)

to: .....
(Country and place of destination)

by the following means of transport (2) .....

Name and address of consignor .....

Name and address of consignee .....

IV. **Attestation of health**

I, the undersigned, official veterinarian, certify that the fresh meat described above is obtained from animals which have remained in the territory of Uruguay for at least three months before being slaughtered or since birth in the case of animals less than three months old.
