(79/652/EEC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to Council Regulation (EEC) No 355/77 of 15 February 1977 on common measures to improve the conditions under which agricultural products are processed and marketed [1], and in particular Article 5 thereof,

Whereas, pursuant to Article 4 of Regulation (EEC) No 355/77, the Danish Government on 25 August 1978 forwarded the programme for the seed sector in Denmark and on 23 February 1979 and 14 May 1979 supplied additional information ;

Whereas the said programme relates to the rationalization, automation, improvement and expansion of facilities for the treatment of seed, particularly grass seed, horticultural seed and oilseed (rape), with the aim of adapting the marketing of those products to market requirements as to quantity, quality and form of presentation ;

Whereas the programme contains, in sufficient detail, the information referred to in Article 3 of Regulation (EEC) No 355/77, showing that the objectives laid down in Article 1 of that Regulation can be achieved in respect of seed production in Denmark ; whereas the scheduled timetable for implementation of the programme does not exceed the limit laid down in Article 3 (1) (g) of that Regulation ;

Whereas the measures provided for in this Decision are in accordance with the opinion of the Standing Committee on Agricultural Structure,

HAS ADOPTED THIS DECISION :
