COMMISSION DECISION

of 10 August 1979

allowing the scientific apparatus described as 'VII-700 Sound Spectrograph' admitted free of Common Customs Tariff duties

(79/747/EEC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to Council Regulation (EEC) No 1798/75 of 10 July 1975 on the importation free of Common Customs Tariff duties of educational, scientific and cultural materials (1),

Having regard to Commission Regulation (EEC) No 3195/75 of 2 December 1975 laying down provisions for the implementation of Regulation (EEC) No 1798/75 (2), and in particular Articles 4 and 5 thereof,

Whereas, by letter dated 7 February 1979, the United Kingdom Government requested the Commission to invoke the procedure laid down in Articles 4 and 5 of Regulation (EEC) No 3195/75 in order to determine whether or not the apparatus described as 'VII-700 Sound Spectrograph', used for research on phonetics and teaching in the scientific analyses of speech, should be considered to be a scientific apparatus and, where the reply is in the affirmative, whether apparatus of equivalent scientific value is currently being manufactured in the Community ;

Whereas, in accordance with the provisions of Article 4 (5) of Regulation (EEC) No 3195/75, a group of experts composed of representatives of all the Member States met on 29 May 1979 within the Committee on Duty-Free Arrangements to examine this particular case ;

Whereas this examination showed that the apparatus in question is a speech spectrograph ;

Whereas its objective technical characteristics which permit spectrographic analyses by means of simple procedures as well as use made of it make it an apparatus specially suited for scientific research ; whereas it must therefore be regarded as a scientific apparatus ;

Whereas, on the basis of information received from Member States, apparatus of equivalent scientific value capable of use for the same purpose is not currently manufactured in the Community ; whereas, therefore, duty-free admission of this apparatus is justified,

HAS ADOPTED THIS DECISION :

Article 1

1. The apparatus described as 'VII-700 Sound Spectrograph' must be regarded as a scientific apparatus.

2. The conditions referred to in Article 3 (1) (b) of Council Regulation (EEC) No 1798/75 of 10 July 1975 for admission free of Common Customs Tariff duties of the apparatus described in paragraph 1 are fulfilled.

Article 2

This Decision is addressed to the Member States.

Done at Brussels, 10 August 1979.
