COMMISSION DECISION

of 14 September 1979

excluding from admission free of Common Customs Tariff duties the scientific apparatus described as 'PAR lock-in amplifier, model 126 with preamplifier, model 117'

(79/813/EEC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to Council Regulation (EEC) No 1798/75 of 10 July 1975 on the importation free of Common Customs Tariff duties of educational, scientific and cultural materials (1),

Having regard to Commission Regulation (EEC) No 3195/75 of 2 December 1975 laying down provisions for the implementation of Regulation (EEC) No 1798/75 (2), and in particular Articles 4 and 5 thereof,

Whereas, by letter dated 27 March 1979, the German Government requested the Commission to invoke the procedure laid down in Articles 4 and 5 of Regulation (EEC) No 3195/75 in order to determine whether or not the apparatus described as 'PAR lock-in amplifier, model 126 with preamplifier, model 117' used for research in the field of radiation of ion lasers, and in particular for the study of the stabilization as wavelength standard, should be considered to be a scientific apparatus and, where the reply is in the affirmative, whether apparatus of equivalent scientific value is currently being manufactured in the Community;

Whereas, in accordance with the provisions of Article 4 (5) of Regulation (EEC) No 3195/75, a group of experts composed of representatives of all the Member States met on 19 June 1979 within the Committee on Duty-Free Arrangements to examine this particular case;

Whereas this examination showed that the apparatus in question is an amplifier together with a preamplifier;

Whereas in view of its objective technical characteristics such as the precision of the signal-filtering system and the selectivity of the frequencies used, and the use to which it is put, this apparatus is specially suited to pure scientific research; whereas it must therefore be considered to be a scientific apparatus;

Whereas, however, on the basis of information received from Member States, apparatus of scientific value equivalent to the said apparatus, capable of being used for the same purposes, is currently being manufactured in the Community; whereas this applies, in particular, to the apparatus '9503' together with preamplifier '5011' manufactured by Brookdeal Electronics Ltd, Doncaster House, Doncaster Road, Bracknell, Berks., United Kingdom, and to the apparatus 'TE 9700' together with preamplifier 'TE 9822' manufactured by Tekelec Airtronic, 6, rue L. Pasteur, 92100 Boulogne, France,

HAS ADOPTED THIS DECISION:

Article 1

1. The apparatus described as 'PAR lock-in amplifier, model 126 with preamplifier, model 117' is considered to be a scientific apparatus.

2. The conditions referred to in Article 3 (1) (b) of Council Regulation (EEC) No 1798/75 of 10 July 1975 for admission free of Common Customs Tariff duties of the scientific apparatus described in paragraph 1 are not fulfilled.

Article 2

This Decision is addressed to the Member States.

Done at Brussels, 14 September 1979.
