COMMISSION DECISION

of 25 January 1980

establishing that the conditions required for the admission free of Common Customs Tariff duties of the scientific appartus described as 'Spectraphonics-Speech Spectrographic Display Unit, model SSD 11', are fulfilled

(80/206/EEC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to Council Regulation (EEC) No 1798/75 of 10 July 1975 on the importation free of Common Customs Tariff duties of educational, scientific and cultural materials (1), as amended by Regulation (EEC) No 1027/79 (2),

Having regard to Commission Regulation (EEC) No 2784/79 of 12 December 1979 laying down provisions for the implementation of Regulation (EEC) No 1798/75 (3), and in particular Article 7 thereof,

Whereas, by letter dated 24 July 1979, the Government of the United Kingdom requested the Commission to invoke the procedure at present laid down in Article 7 of Regulation (EEC) No 2784/79 in order to determine whether or not the apparatus described as 'Spectraphonics-Speech Spectrographic Display Unit, model SSD 11', to be used for scientific research in the phonetic and linguistic field, should be considered to be a scientific apparatus and, where the reply is in the affirmative, whether apparatus of equivalent scientific value is currently being manufactured in the Community ;

Whereas, in accordance with the provisions of Article 7 (5) of Regulation (EEC) No 2784/79, a group of experts composed of representatives of all the Member States met on 4 December 1979 within the Committee on Duty-Free Arrangements to examine this particular case ;

Whereas this examination showed that the apparatus in question is a single channel videograph ; whereas its objective technical characteristics such as the arrangement of the acoustic characteristics of a language and the use to which it is put make it specially suited to scientific research ; whereas apparatus of the same kind are principally used for the realization of scientific activities ; whereas it must therefore be considered to be a scientific apparatus ;

Whereas, on the basis of information received from Member States, apparatus of equivalent scientific value capable of use for the same purpose is not currently manufactured in the Community ; whereas, therefore, duty-free admission of this apparatus is justified,

HAS ADOPTED THIS DECISION :

Article 1

1. The apparatus described as 'Spectraphonics-Speech Spectrographic Display Unit, model SSD 11', is considered to be a scientific apparatus.

2. The conditions required for the admission free of Common Customs Tariff duties of the scientific apparatus described in paragraph 1 are fulfilled.

Article 2

This Decision is addressed to the Member States.

Done at Brussels, 25 January 1980.
