SIXTH COUNCIL DECISION

of 15 July 1980

on the equivalence of seed produced in third countries

(80/818/EEC)

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to Council Directive 66/400/EEC of 14 June 1966 on the marketing of beet seed (1), as last amended by Directive 78/692/EEC (2), and in particular Article 16 (1) (b) thereof,

Having regard to Council Directive 66/401/EEC of 14 June 1966 on the marketing of fodder plant seed (3), as last amended by Directive 79/692/EEC (4), and in particular Article 16 (1) (b) thereof,

Having regard to Council Directive 66/402/EEC of 14 June 1966 on the marketing of cereal seed (5), as last amended by Directive 79/692/EEC, and in particular Article 16 (1) (b) thereof,

Having regard to Council Directive 69/208/EEC of 30 June 1969 on the marketing of seed of oil and fibre plants (6), as last amended by Directive 80/304/EEC (7), and in particular Article 15 (1) (b) thereof,

Having regard to the proposal from the Commission,

Whereas there are rules on seed control in Austria, Australia, Canada, Switzerland, Czechoslovakia, Cyprus, the German Democratic Republic, Spain, Greece, Hungary, Israel, Norway, New Zealand, Portugal, Poland, Romania, Chile, Sweden, Finland, Turkey, the United States of America, Yugoslavia and South Africa;

Whereas an examination of these rules and the manner in which they are applied has shown that the conditions governing seed harvested and controlled in these countries afford the same assurances as regards the seed's characteristics, identity, examination, marking and control, as do the conditions applicable to seed harvested and controlled within the Community;

Whereas Decision 76/539/EEC (8), as last amended by Decision 80/367/EEC (9), which established equivalences for seed produced in the abovementioned countries, expires on 30 June 1980; whereas a new Decision is therefore necessary;

Whereas this Decision does not preclude Community findings being revoked or extension of the period of their validity being refused, where the conditions on which they are based are not or cease to be satisfied; whereas, to this end, further practical information on seed produced in the abovementioned countries should be obtained by growing and checking samples of such seed in Community comparative trials;

Whereas it has become apparent that certain technical and administrative provisions in the Annex are often subject to changes;

Whereas, to simplify the procedure for amending the Annex, changes should be referred to the procedure of the Standing Committee on Seeds and Propagating Material for Agriculture, Horticulture and Forestry,

Whereas this Decision does not affect the Protocol on German internal trade and connected problems,

HAS ADOPTED THIS DECISION:

Article 1

1. It is hereby declared that seed harvested in the countries listed in Part I of the Annex to this Decision and officially controlled by the services listed

(1) OJ No 125, 11. 7. 1966, p. 2290/66.
(2) OJ No L 236, 26. 8. 1978, p. 13.
(3) OJ No 125, 11. 7. 1966, p. 2298/66.
(4) OJ No L 205, 13. 8. 1979, p. 1.
(5) OJ No 125, 11. 7. 1966, p. 2309/66.
(6) OJ No L 169, 10. 7. 1969, p. 3.
(7) OJ No L 68, 14. 3. 1980, p. 33.
(8) OJ No L 162, 23. 6. 1976, p. 10.
(9) OJ No L 90, 3. 4. 1980, p. 39.

therein, in respect of each producer country, and belonging to the species and categories specified therein, is equivalent to seed of the corresponding categories harvested within the Community and complying with Directives 66/400/EEC, 66/401/EEC, 66/402/EEC and 69/208/EEC, in so far as the conditions set out in Part II of the Annex to this Decision are fulfilled.

2. Seed which has not been officially certified by a service of the producer country are also equivalent within the meaning of paragraph 1 in so far as the following conditions are fulfilled:

— the seed has been officially certified by a service referred to in the Annex for the species concerned and which belong to the country where the seeds of the previous generation were officially certified as seeds of a category equivalent to basic seed, or, where appropriate, to certified seed of the first generation, and

— the seed has been harvested either in a country referred to in one of the Council Decisions concerning the equivalence of field inspections of seed harvests carried out in third countries, or in the Community, and been subjected in those countries to the prescribed field inspection.

Article 2

Technical and administrative amendments to be made to the Annex, with the exception of those concerning columns 2 and 4 of the table in Part I of the Annex, shall be adopted in accordance with the procedure laid down in Article 21 of Directives 66/400/EEC, 66/401/EEC and 66/402/EEC and in Article 20 of Directive 69/208/EEC.

Article 3

This Decision shall apply from 1 July 1980 to 30 June 1983.

Article 4

This Decision is addressed to the Member States.

Done at Brussels, 15 July 1980.

For the Council

The President

J. SANTER

ANNEX

PART I

SCOPE

1. LEGEND

1.1. The third countries are listed in column 2 of the table referred to in point 2 in the order of the abbreviations of the international code used for motor vehicles:

A = Austria

AUS = Australia

CDN = Canada

CH = Switzerland

CS = Czechoslovakia

CY = Cyprus

DDR = German Democratic Republic

E = Spain

GR = Greece

H = Hungary

IL = Israel

N = Norway

NZ = New Zealand

P = Portugal

PL = Poland

R = Romania

RCH = Chile

S = Sweden

SF = Finland

TR = Turkey

USA = United States of America

YU = Yugoslavia

ZA = South Africa

1.2. The references 66/400, 66/401, 66/402 and 69/208 in column 4 of the table indicate the following Directives:

— 66/400: Council Directive 66/400/EEC of 14 June 1966 on the marketing of beet seed,

— 66/401: Council Directive 66/401/EEC of 14 June 1966 on the marketing of fodder plant seed,

— 66/402: Council Directive 66/402/EEC of 14 June 1966 on the marketing of cereal seed,

— 69/208: Council Directive 69/208/EEC of 30 June 1969 on the marketing of seed of oil and fibre plants.

1.3. The categories of seed are indicated in columns 5 and 6 of the table referred to in point 2, in accordance with the following criteria:

— column 5 contains the official designations provided for in the Organization for Economic Cooperation and Development (OECD) schemes for the varietal certification of seed moving in international trade in the two prescribed languages or, where appropriate, the official designations laid down by the national legislation of the country concerned,

— in column 6 are entered the corresponding Community categories, using the following codes:

B = Basic seed;

CZ/1 = Certified seed of the first generation after basic seed:

— Directive 66/400/EEC: Certified seed,

— Directive 66/401/EEC: Certified seed, first generation,

— Directive 66/402/EEC: Secale cereale, Zea mays: Certified seed,

— Directive 66/402/EEC, other species: Certified seed, first generation,

— Directive 69/208/EEC, Arachis hypogaea, Cannabis sativa (monoecious), Glycine max,Linum usitatissimum: Certified seed, first generation,

— Directive 69/208/EEC, other species including Cannabis sativa (dioecious): Certified seed;

CZ/2 = Certified seed of the second generation after basic seed:

— Directive 66/401/EEC,

— Directive 66/402/EEC, species other than Secale cereale, Zea Mays,

— Directive 69/208/EEC, Arachis hypogaea, Cannabis sativa (monoecious), Glycine max,Linum usitatissimum;

CZ/3 = Certified seed, of the third generation after basic seed:

— Directive 69/208/EEC, Linum usitatissimum (1);

COM = Commercial seed:

— Directive 66/401/EEC, where appropriate.

1.4. The entries in column 7 of the table referred to in point 2 refer to the conditions described in Part II, point 3, of this Annex.

(1) Accepted only up to 30 June 1982.

PART II

CONDITIONS

1. Basic seed and certified seed shall be officially certified and its packages officially sealed and marked in accordance with the OECD schemes for the varietal certification of seed moving in international trade, as follows:

   — sugar beet seed and fodder beet seed, in the case of seed referred to in Directive 66/400/EEC,

   — herbage and oil seed, in the case of seed referred to in Directives 66/401/EEC and 69/208/EEC,

   — cereal seed, in the case of seed referred to in Directive 66/402/EEC, where species other than Zea mays are concerned,

   — maize seed, in the case of Zea mays seed referred to in Directive 66/402/EEC.

   The quality of the seed shall meet the requirements of Community rules.

1.1. In the case of certified seed of the first generation, the basic seed, and, in the case of certified seed of the second generation, the certified seed of the preceding generation shall have been officially controlled or certified in a third country which has been granted equivalence in the same way for the same species or within the Community.

1.2. Field inspection shall be carried out by the services of the producer country or by any legal person, whether governed by public or by private law of that country, acting under the responsibility of such services, provided that such person derives no private gain from the result of the inspection.

1.3. The conditions other than those relating to varietal identity and varietal purity which the seed shall satisfy are laid down in:

   — Directive 66/401/EEC, Annex II,

   — Directive 66/402/EEC, Annex II,

   — Directive 69/208/EEC, Annex II.

   In respect of beet the conditions shall be those laid down by the OECD scheme.

   For the purpose of checking that the abovementioned conditions have been satisfied, samples shall be taken officially in accordance with appropriate methods and their weights shall conform to the weight stipulated under the method mentioned below, taking into account those specified by:

   — Directive 66/400/EEC, Annex II, second indent,

   — Directive 66/401/EEC, Annex III, columns 3 and 4,

   — Directive 66/402/EEC, Annex III, columns 3 and 4,

   — Directive 69/208/EEC, Annex III, columns 3 and 4.

   The above examinations shall be undertaken according to a scientific method for seed testing officially recognized.

1.4. The official lable shall give the following additional information:

   — a statement that the seed complies with EEC rules and standards (not applicable in respect of beet seed),

   — a statement on the seed testing method utilized,

   — date of official sealing,

— in the case of hybrids of Zea mays, category 'Certified seed': type of hybrid,

— country of production,

— declared net or gross weight or declared number of pure seeds or in the case of beet seed clusters,

— where weight is indicated and granulated pesticides, pelleting substances or other solid additives are used, the nature of the additive and also the approximate ratio between the weight of pure seed and the total weight.

This information may also appear on another official label which, in addition, shall give the name of the service and of the country.

1.5. An official notice placed inside the package shall give at least the reference number of the lot, the species and the variety; in addition, in the case of beet seed, it shall be stated, where appropriate, whether the seed is monogerm or precision seed.

This notice is not necessary if the minimum information is printed indelibly on the package or an adhesive label or a label of non-tear material is used.

1.6. Any chemical treatment of the seed and the active substance shall be noted either on the official label or on a special label as well as on the container or inside it.

1.7. All information required for official labels, for official notices and for packages shall be given in at least one of the official languages of the European Communities.

2. Commercial seed shall be officially controlled and its containers officially sealed and marked in accordance with national provisions. The quality of the seed shall meet the requirements of Community rules.

This category applies exclusively to lupins rich in alkaloids.

2.1. The conditions which seed must satisfy shall be those laid down in Annex II to Directive 66/401/EEC.

For the purpose of checking that the abovementioned conditions have been satisfied, samples shall be taken officially in accordance with appropriate methods, and their weights shall conform to the weight stipulated under the method mentioned below, taking into account those specified by Directive 66/401/EEC, Annex III, columns 3 and 4. The above examinations shall be undertaken according to a scientific method for seed testing officially recognized.

2.2. The official label shall include the following information:

— control service and country,

— a statement that the seed complies with EEC rules and standards,

— a statement on the seed testing method utilized,

— the words 'commercial seeds (not certified as to variety)',

— reference number of the lot,

— date of official sealing,

— species; and a statement to specify that the lupins are bitter,

— region of production

— declared net or gross weight or declared number of pure seeds,

— where weight is indicated and granulated pesticides, pelleting substances or other solid additives are used, the nature of the additive and also the approximate ratio between the weight of pure seed and the total weight.

The colour of the label shall be brown.

2.3. An official notice placed inside the package shall include the information provided for in the fourth, fifth and seventh indents of point 2.2 above.

This notice is not necessary if the minimum information is printed indelibly on the package or if an adhesive label or a label of non-tear material is used.

2.4. Any chemical treatment of the seed and the active substance shall be noted either on the official label or on a special label as well as on the container or inside it.

2.5. All information required for official labels, for official notices and for packages shall be given in at least one of the official languages of the European Communities.

3. **Conditions applicable where reference is made to them in column 7 of the table referred to in Part I, point 2**

(a) The seed of the preceding generation shall have been officially controlled within the Community in accordance with the provisions applicable to the certification of basic seed.

(b) In place of the condition laid down in point 1.1, in the case of certified seed of the first generation, the basic seed and, in the case of certified seed of the second generation, the certified seed of the preceding generation shall have been officially certified in the Community.

Where this condition is applicable, the official label shall also give a statement that the basic seed or, in the case of certified seed of the second generation, the certified seed of the preceding generation has been certified in the Community.

(c) The seed shall have been produced on a holding directly supervised by the State.

(d) Hybrid varieties only.

(e) The condition laid down in point 1 of the fourth indent above is not applicable. The seed shall be officially certified and its container sealed in accordance with national provisions. The quality of the seed shall meet the requirements of Community rules. The conditions referred to in points 1.1, 1.2, 1.3, 1.5, 1.6 and 1.7 for maize seed shall also apply.

The official label shall include the following information:

— certification service and country,

— a statement that the seed complies with EEC rules and standards,

— a statement on the seed testing method utilized,

— reference number of the lot,

— date of official sealing,

— species,

— variety,

— in the case of hybrids:

  — for seed of the category 'basic seed': inbred line on hybrid,

  — for seed of the category 'certified seed': type of hybrid and, where basic seed has not been certified within the Community, a statement that the basic seed has been officially examined,

— category (basic seed or certified seed),

— country of production,

— declared net or gross weight or declared number of pure seeds,

— where weight is indicated and granulated pesticides, pelleting substances, or other solid additives are used, the nature of the additive and also the approximate ratio between the weight of pure seeds and the total weight.

The colour of the label shall be:

— white for basic seed,

— blue for certified seed.
