COUNCIL DECISION

of 3 December 1982

recognizing certain parts of the territory of the Federal Republic of Germany as being either officially swine fever free or swine fever free

(82/838/EEC)

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to Council Directive 64/432/EEC of 26 June 1964 on animal health problems affecting intra-Community trade in bovine animals and swine [1], as last amended by Directive 82/161/EEC [2], and in particular Article 4c (1) (c) thereof,

Having regard to Council Directive 72/461/EEC of 12 December 1972 on health problems affecting intra-Community trade in fresh meat [3], as last amended by Directive 81/476/EEC [4], and in particular Article 13a (2) thereof,

Whereas Decision 82/351/EEC [5], as amended by Decision 82/825/EEC [6], has already recognized certain parts of the territory of the Federal Republic of Germany as being officially swine fever free; whereas consequently the same parts fulfil the requirements for being recognized as officially swine fever free for the purpose of intra-Community trade;

Whereas concerning certain other parts of the territory of the Federal Republic of Germany, swine fever has not been detected for more than one year; whereas vaccination against this disease may be authorized and the presence of vaccinated pigs is permitted; whereas, consequently, these parts of the territory fulfil the requirements for being recognized as swine fever free for the purposes of intra-Community trade in fresh meat,

HAS ADOPTED THIS DECISION:

This Decision is addressed to the Member States.

Done at Brussels, 3 December 1982.

For the Council

The President
