COMMISSION DECISION

of 19 May 1983

amending for the second time Decision 82/827/EEC concerning certain measures of protection against classical swine fever

(83/261/EEC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to Council Directive 64/432/EEC of 26 June 1964 on animal health problems affecting intra-Community trade in bovine animals and swine [1], as last amended by Directive 82/893/EEC [2], and in particular Article 9 thereof,

Whereas, following the epizootic of classical swine fever which was declared in certain regions of the territory of the Netherlands, the Commission adopted Decision 82/827/EEC of 24 November 1982 [3] concerning certain measures of protection against classical swine fever;

Whereas since then the persistence of the disease and its extension outside of the zone led the Commission to modify for the first time through Decision 83/217/EEC of 21 April 1983 [4] the measures applying to the intra-Community trade in live pigs for breeding and fattening;

Whereas in the light of the evolution of the disease it is considered necessary to reinforce those measures for live pigs coming from certain parts of the territory of the Netherlands;

Whereas the measures provided for in this Decision are in accordance with the opinion of the Standing Veterinary Committee,

HAS ADOPTED THIS DECISION:
