COMMISSION DECISION

of 24 November 1983

establishing that the apparatus described as 'BIOS — Nuclear Stethoscope' may not be imported free of Common Customs Tariff duties

(83/591/EEC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to Council Regulation (EEC) No 1798/75 of 10 July 1975 on the importation free of Common Customs Tariff duties of educational, scientific and cultural materials [1], as last amended by Regulation (EEC) No 608/82 [2],

Having regard to Commission Regulation (EEC) No 2784/79 of 12 December 1979 laying down provisions for the implementation of Regulation (EEC) No 1798/75 [3], and in particular Article 7 thereof,

Whereas, by letter dated 17 May 1983, Italy requested the Commission to invoke the procedure provided for in Article 7 of Regulation (EEC) No 2784/79 in order to determine whether or not the apparatus described as 'BIOS — Nuclear Stethoscope', ordered on 3 March 1982 and intended to be used for the quantification of selected, significant parameters and to define normality limits for each one, should be considered to be a scientific apparatus and, where the reply is in the affirmative, whether apparatus of equivalent scientific value is currently being manufactured in the Community ;

Whereas, in accordance with the provisions of Article 7 (5) of Regulation (EEC) No 2784/79, a group of experts composed of representatives of all the Member States met on 14 November 1983 within the framework of the Committee on Duty-Free Arrangements to examine the matter ;

Whereas this examination showed that the apparatus in question is a stethoscope ; whereas it does not have the requisite objective characteristics making it specifically suited to scientific research ; whereas, moreover, apparatus of the same kind are principally used for non-scientific activities ; whereas its use in the case in question could not alone confer upon it the character of a scientific apparatus ; whereas it therefore cannot be regarded as a scientific apparatus ; whereas the duty-free admission of the apparatus in question is therefore not justified,

HAS ADOPTED THIS DECISION :

Article 1

The apparatus described as 'BIOS — Nuclear Stethoscope', which is the subject of an application by Italy of 17 May 1983, may not be imported free of Common Customs Tariff duties.

Article 2

This Decision is addressed to the Member States.

Done at Brussels, 24 November 1983.

For the Commission

Karl-Heinz NARJES

Member of the Commission
