COMMISSION DECISION

of 26 January 1984

establishing that the apparatus described as 'Dionex — Ion Chromatograph, model 2010' may be imported free of Common Customs Tariff duties

(84/63/EEC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to Council Regulation (EEC) No 1798/75 of 10 July 1975 on the importation free of Common Customs Tariff duties of educational, scientific and cultural materials [1], as last amended by Regulation (EEC) No 608/82 [2],

Having regard to Commission Regulation (EEC) No 2784/79 of 12 December 1979 laying down provisions for the implementation of Regulation (EEC) No 1798/75 [3], and in particular Article 7 thereof,

Whereas, by letter dated 26 July 1983, the United Kingdom has requested the Comission to invoke the procedure provided for in Article 7 of Regulation (EEC) No 2784/79 in order to determine whether or not the apparatus described as 'Dionex — Ion Chromatograph, model 2010', ordered on 7 December 1982 and intended to be used to study the level of anions such as sulphite and nitrate formed in plant tissue as a result of atmospheric pollution, should be considered to be a scientific apparatus and, where the reply is in the affirmative, whether apparatus of equivalent scientific value is currently being manufactured in the Community ;

Whereas, in accordance with the provisions of Article 7 (5) of Regulation (EEC) No 2784/79, a group of experts composed of representatives of all the Member States met on 15 November 1983 within the framework of the Committee on Duty-Free Arrangements to examine the matter ;

Whereas this examination showed that the apparatus in question is a chromatograph ; whereas its objective technical characteristics, such as the great sensibility, and the use to which it is put make it specially suited to scientific research ; whereas, moreover, apparatus of the same kind are principally used for scientific activities ; whereas it must therefore be considered to be a scientific apparatus ;

Whereas, on the basis of information received from Member States, apparatus of equivalent scientific value capable of use for the same purpose is not currently manufactured in the Community ; whereas, therefore, duty-free admission of this apparatus is justified,

HAS ADOPTED THIS DECISION :

Article 1

The apparatus described as 'Dionex — Ion Chromatograph, model 2010', which is the subject of an application by the United Kingdom of 26 July 1983, may be imported free of Common Customs Tariff duties.

Article 2

This Decision is addressed to the Member States.

Done at Brussels, 26 January 1984.

For the Commission

Karl-Heinz NARJES

Member of the Commission
