COMMISSION DECISION

of 22 November 1985

authorizing Greece to take certain safeguard measures under Article 108 (3) of the EEC Treaty

(Only the Greek text is authentic)

(85/594/EEC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community, and in particular Article 108 (3) thereof,

Whereas the Greek economy has experienced a marked deterioration in its balance of payments on current account, particularly since the beginning of 1985;

Whereas this situation has continued to worsen in recent months; whereas there has been growing pressure on the foreign exchange market; whereas, accordingly, and in order to guard against hoarding, the Bank of Greece, whilst accepting a marked reduction in the value of the drachma, has been obliged to draw on its official reserves to a significant extent;

Whereas the expenditure incurred through the accumulation of large foreign debts severely restricts payments outside Greece; whereas Greece is thus faced with an exceptional economic situation and the present trend in the balance of payments is unacceptable;

Whereas in a letter dated 16 October 1985, the Greek Government informed the Commission that it had adopted a programme of economic stabilization and had taken a series of measures designed to reduce the disequilibrium in its balance of payments and that in so doing it was relying on Article 109 (1) of the Treaty;

Whereas as part of these measures the Greek Government adopted a system requiring an interest-free six month deposit to be lodged in cash with the Bank of Greece; whereas this deposit represents 40 or 80 % of the cif value of goods depending on which list they are on; whereas this deposit system was adopted primarily to make an immediate impact on the balance of payments pending the results of other measures and to curb liquidity in order to support the attempt to control expansion in the money supply, which forms an integral part of the Greek economic recovery plan;

Whereas no discrimination in the financing of commercial operations to the detriment of products imported from the Community may be authorized pursuant to this Decision;

Whereas on 30 October 1985 the Commission, having examined the Greek economic situation in the light of Article 108 (1) of the Treaty and the measures already taken by Greece in accordance with Article 104 of the Treaty, addressed a recommendation to the Member State in question under Article 108 (1) of the Treaty;

Whereas, having consulted the Monetary Committee the Commission recommended to the Council that mutual assistance be provided; whereas by its Decision of 18 November 1985 the Council granted a loan under the Community loans mechanism designed to help Member States balance of payments;

Whereas, given the extent of the present difficulties in Greece and the urgency with which measures should be taken to remedy the situation, neither the measures recommended to Greece under Article 108 (1) nor the Community support granted appear adequate as they will not be fully effective in the short-term and will not be sufficient to guarantee the rapid recovery of the Greek balance of payments;

Whereas the Commission should therefore authorize the application of appropriate protective measures under Article 108 (3) of the Treaty;

Whereas, accordingly Greece should be authorized to require an interest-free cash deposit on the importation of certain goods;

Whereas the reduction of the Greek foreign debt necessitates the temporary extension beyond 31 December 1985 of restrictions on the free movement of capital in transactions made by Greek residents;

Whereas for the same reason and by way of derogation from Article 106 (1) of the Treaty, a restriction on the export of currency in connection with holiday expenses is also justified;

Whereas pursuant to Commission Decision C/85/1344 which was notified to the Greek Government on 13 August 1985 export aid provided for by Decision 1574/70 of the Greek Monetary Committee, as amended by Decision 350/82, should have been abolished on that date;

Whereas Decision 1574/70 of the Greek Monetary Committee provides for payments to companies after exports have been effected, on the basis of an added value calculated on exportation; whereas the estimated value of this aid is between 6.6 % and 26.4 % of the fob price of the exported product;

Whereas although maintenance of such aid might make it possible to avoid aggravating the disequilibrium in the balance of trade currently being experienced by Greece, it cannot provide a lasting solution to the problem of competitiveness faced by Greek products on the export markets; whereas, accordingly, the period during which such aid is permitted must be limited as part of the protective measures authorized in this Decision;

Whereas the economic situation in Greece should be kept under close review so that the measures authorized may be amended or repealed should the circumstances which justify them change;

Whereas the protective measures authorized under Article 1 should be reviewed periodically.

HAS DECIDED AS FOLLOWS:

Article 1

Greece is hereby authorized on a temporary basis to require upon importation of the goods listed in Annex 1 a certificate from a competent financial institution attesting to the fact that an interest-free six-month deposit has been lodged in cash with the Bank of Greece; the amount of the deposit shall not exceed:

— 40 % of the cif value of the goods included in List I or

— 80 % of the cif value of the goods included in List II.

Greece shall publish a list of the financial institutions referred to above.

Article 2

Greece shall ensure that the bank deposit certificates provided for in Article 1 are issued automatically and without delay.

Article 3

Greece shall take the measures necessary to ensure that the Bank of Greece releases deposits immediately and without any formalities upon expiry of the six-month period.

Article 4

Importation of the goods listed in Annex 1 shall be exempt from the requirement referred to in Article 1 if it is intended that the goods in question be re-exported; in this case a written undertaking in the form of a personal guarantee covering 100 % of the cif value of the imported goods may be required.

Greece shall take such measures as are necessary to ensure that this guarantee ceases to be required on the re-exportation of the goods concerned, provided that this takes place no later than one year after importation and that the customs documents show that the fob value upon exportation is at least 30 % more than the cif value upon importation.

The guarantee shall no longer be required where exportation proves impossible through unforseeable circumstances or cases of *force majeure*.

If export market conditions have changed so that the exportation envisaged is no longer economically feasible the period of one year shall be extended by six months on request.

Article 5

Greece shall ensure that there is no discrimination between domestic products and products imported from other Member States in the granting of internal credits for commercial transactions.

Moreover, Greece shall ensure that imports of products from other Member States can benefit without restriction from credits for commercial transactions granted by non-residents.

Article 6

1. Greece is hereby authorized, temporarily and within the limits laid down in Annex 2 to this Decision, to prohibit or to make subject to prior authorization the conclusion or execution of transactions and transfers relating to movement of capital liberalized at the time of this Decision under Articles 1 and 2 of Council Directive 60/501/EEC (1), as amended by Directive 63/21/EEC (2).

2. Greece is hereby authorized temporarily to extend beyond 31 December 1985 restrictions or transfers relating to the holiday expenses of Greek residents as following:

— from 1 January 1986 the annual tourist allowance per person shall not be less than 760 ECU,

— from 1 January 1987 this allowance shall be raised by at least 40 ECU per year.

3. Without prejudice to the terms of Article 9 (3) and (5) the authorizations contained in this Article shall be valid for a period of three years as from the date on which this Decision takes effect.

(1) OJ No 43, 12. 7. 1960, p. 919/60.
(2) OJ No 9, 22. 1. 1963, p. 62/63.

Article 7

Greece is hereby authorized until 31 December 1986 to grant the export aid referred to in Decision 1574/70 of the Greek Monetary Committee, as amended by Decision 350/82 authorizing payments to exporting firms on the basis of the value added on exportation.

These payments shall be no higher than 26,4 % of the fob price. The rates of aid for the various products shall not exceed the rates in force on 13 August 1985.

Article 8

Any difficulties arising in the application of the measures authorized shall be the subject of joint examination by Greece and the Commission.

Article 9

1. This Decision shall take effect on 29 November 1985.

2. The Commission shall check that the terms of this Decision are being observed and shall keep the developments in the economic situation in Greece under close review.

3. The Commission reserves the right to amend or repeal all or any part of this Decision, after consulting the Member State concerned, particularly if it finds that the circumstances which led to its adoption have changed or that its effects are more restrictive than they need be in order to achieve their objectives.

4. The Commission shall re-examine, together with the Greek authorities the protective measures referred to in Article 1 before 31 January 1986 and thereafter every three months should this be necessary.

5. If, before the date of expiry of the derogations permitted under Article 6, Greece claims that balance of payments difficulties persist or that there is a serious likelihood of their recurring, the Commission shall examine the overall economic situation in order to determine whether an extension of all or part of the protective measures in force is appropriate.

Article 10

This Decision is addressed to the Hellenic Republic.
