COMMISSION

COMMISSION DECISION
adopting the list of products in respect of which Portugal may maintain exemption from customs duties on import

(Only the Portuguese text is authentic)

(86/178/EEC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Act of Accession of Spain and Portugal, and in particular Protocol No 16 thereto,

Whereas the provisions of Article 197 of the Act of Accession concerning the alignment of the Portuguese customs tariff duties on those of the Common Customs Tariff and the ECSC unified tariff, and also the provisions of Article 190 of the Act of Accession concerning the progressive abolition of customs duties between the Community as constituted on 31 December 1985 and Portugal, do not prevent the maintenance, in respect of the six firms indicated below, of measures exempting imports of capital goods from customs duties until the expiry of the agreements concluded between the firms concerned and the Portuguese Government:

— ISOPOR — Companhia Portuguesa de Isocianetos, Lda,

— RENAULT Portuguesa — Sociedade Comercial e Industrial, Lda,

— DEA Portuguesa — Sociedade de Equipamentos Automoveis, Lda,

— SOMINCOR — Sociedade Mineira Neves-Corvo, Lda,

— TEXAS Instruments,

— FUNFRAP — Sociedade de Fundiçao Franco-Portuguesa, SARL;

Whereas Protocol No 16 to the Act of Accession provides that the said date of expiry and the respective total amounts of investment in capital equipment for the firms concerned shall be as follows:

Company	Date of expiry of contract	Total amount of investment in capital equipment
ISOPOR — Companhia Portuguesa de Isocianetos, Lda	25 July 1990	USD 37 000 000
RENAULT Portuguesa — Sociedade Comercial et Industrial, Lda	13 February 1990	Esc 9 000 million (1978)
DEA Portuguesa — Sociedade de Equipamentos Automoveis, Lda	28 July 1991	FF 35 000 000
SOMINCOR — Sociedade Mineira Neves-Corvo, Lda	31 December 1989	Esc 13 000 million
TEXAS Instruments	31 December 1993	USD 30 000 000
FUNFRAP — Sociedade de Fundiçao Franco-Portuguesa, SARL	30 November 1993	Esc 2 300 million

Whereas Portugal has supplied all the information necessary for this purpose;

Whereas the Commission is to adopt as from accession the list of imported products which are to be exempt from customs duties,

HAS ADOPTED THIS DECISION:

Article 1

The list of products imported into Portugal which are exempt from customs duties pursuant to Protocol No 16 to the Act of Accession shall be as set out in the Annex hereto.

Article 2

This Decision is addressed to the Portuguese Republic.

Done at Brussels, 28 February 1986.

For the Commission
COCKFIELD
Vice-President

ANNEX

LIST OF PRODUCTS IMPORTED INTO PORTUGAL WHICH ARE EXEMPT FROM CUSTOMS DUTIES PURSUANT TO PROTOCOL NO 16 TO THE ACT OF ACCESSION

Page

1. Isopor 4
2. Renault Portuguesa 7
3. DEA Portuguesa 11
4. Somincor 16
5. Texas Instruments 32
6. Funfrap 34

1. ISOPOR

CCT heading number	Description
73.11	Angles, shapes and sections, of iron or steel, hot-rolled, forged, extruded, cold-formed or cold-finished; sheet piling of iron or steel, whether or not drilled, punched or made from assembled elements: A. Angles, shapes and sections
73.18	Tubes and pipes and blanks therefor, of iron (other than of cast iron) or steel, excluding high-pressure hydro-electric conduits: B. Other: I. Straight and of uniform wall-thickness, unworked, seamless, of circular cross-section, solely for the manufacture of tubes and pipes with other cross-sections and wall-thicknesses ex III. Other: — Tubes answering to the description in subheading B II but of a length of more than 4,50 m — Seamless or welded tubes, of circular cross-section, more than 406,4 mm in external diameter — Seamless or welded tubes, of circular cross-section, not more than 406,4 mm in external diameter
84.11	Air pumps, vacuum pumps and air or gas compressors (including motor and turbo pumps and compressors, and free-piston generators for gas turbines); fans, blowers and the like: A. Pumps and compressors: II. Other: ex b) Other pumps and compressors: — Vacuum pumps — Compressors for refrigerating equipment — Other pumps and compressors: — Other than those mounted on chassis, for towing: — Reciprocating piston pumps and compressors — Rotary displacement pumps and compressors — Other than turbo-compressors

CCT heading number	Description
84.17	Machinery, plant and similar laboratory equipment, whether or not electrically heated, for the treatment of materials by a process involving a change of temperature such as heating, cooking, roasting, distilling, rectifying, sterilizing, pasteurizing, steaming, drying, evaporating, vapourizing, condensing or cooling, not being machinery or plant of a kind used for domestic purposes; instantaneous or storage water heaters, non-electrical: F. Other: ex II. Other: — Machinery, plant and similar laboratory equipment other than stoves, ranges and similar appliances for catering, dryers, machinery for liquefying air or gases and cooling towers and similar plant for direct cooling (without a separating wall) by means of recirculated water: — For the chemical industry
84.59	Machines and mechanical appliances, having individual functions, not falling within any other heading of this Chapter: E. Other: ex II. Other: — Machines and mechanical appliances: — Machines and mechanical appliances other than mobile hydraulic powered mine roof supports: — Other than those for processing tea and coffee, for the animal or vegetable fats and oil industries or for the tobacco industry: — Other than those for the food, drink or vinegar manufacturing industries, for the rubber and artificial plastic materials industries, for treating wood or metals or for building and public works
84.61	Taps, cocks, valves and similar appliances, for pipes, boiler shells, tanks, vats and the like, including pressure reducing valves and thermostatically controlled valves: A. Pressure reducing valves ex B. Other: — Other than valves for the control of hydraulic or pneumatic power transmission and valves for pneumatic tyres and inner tubes: — Other than taps, cocks and valves for sinks, wash basins, bidets, water cisterns, baths and similar fixtures and central heating radiator valves

CCT heading number	Description
85.19	Electrical apparatus for making and breaking electrical circuits, for the protection of electrical circuits, or for making connections to or in electrical circuits (for example, switches, relays, fuses, lightning arresters, surge suppressors, plugs, lampholders and junction boxes); resistors, fixed or variable (including potentiometers), other than heating resistors, printed circuits, switchboards (other than telephone switchboards) and control panels: ex D. Switchboards and control panels: — Bare (not fitted with apparatus and instruments) — Other: — Other than for telecommunication and instrument applications: — For industrial applications

2. RENAULT

CCT heading number	Description
84.11	Air pumps, vacuum pumps and air or gas compressors (including motor and turbo pumps and compressors, and free-piston generators for gas turbines); fans, blowers and the like: A. Pumps and compressors: II. Other: b) Other pumps and compressors: — Air pumps
84.15	Refrigerators and refrigerating equipment (electrical and other): C. Other: ex II. Other: — Refrigerating equipment, excluding parts
84.17	Machinery, plant and similar laboratory equipment, whether or not electrically heated, for the treatment of materials by a process involving a change of temperature such as heating, cooking, roasting, distilling, rectifying, sterilizing, pasteurizing, steaming, drying, evaporating, vapourizing, condensing or cooling, not being machinery or plant of a kind used for domestic purposes; instantaneous or storage water heaters, non-electrical: F. Other: ex II. Other: — Heating appliances, exlcuding parts
84.18	Centrifuges; filtering and purifying machinery and apparatus (other than filter tunnels, milk strainers and the like), for liquids or gases: C. Other: II. Other: a) Centrifuges: ex 2. Other: — Centrifuges, excluding parts

CCT heading number	Description
ex 84.20	Weighing machinery (excluding balances of a sensitivity of 5 cg or better) including weight-operated counting and checking machines; weighing machine weights of all kinds: — Weighing machines, excluding parts and accessories
84.22	Lifting, handling, loading or unloading machinery, telphers and conveyors (for example, lifts, hoists, winches, cranes, transporter cranes, jacks, pulley tackle, belt conveyors and teleferics), not being machinery falling within heading No 84.23: B. Other: ex II. Self-propelled cranes on wheels, not capable of running on rails: — Excluding parts ex IV. Other: — Excluding parts
ex 84.43	Converters, ladles, ingot moulds and casting machines, of a kind used in metallurgy and in metal foundries: — Converters of a kind used in steelworks, excluding parts
84.45	Machine-tools for working metal or metal carbides, not being machines falling within heading No 84.49 or 84.50: B. Machine-tools operating by electro-erosion or other electrical processes; ultrasonic machine-tools C. Other machine-tools
ex 84.60	Moulding boxes for metal foundry; moulds of a type used for metal (other than ingot moulds), for metal carbides, for glass, for mineral materials (for example, ceramic pastes, concrete or cement) or for rubber or artificial plastic materials: — Moulds of a type used for metal
84.61	Taps, cocks, valves and similar appliances, for pipes, boiler shells, tanks, vats and the like, including pressure reducing valves and thermostatically controlled valves: ex B. Other: — Taps, cocks and valves

CCT heading number	Description
85.01	Electrical goods of the following descriptions: generators, motors, converters (rotary or static), transformers, rectifiers and rectifying apparatus, inductors: B. Other machines and apparatus: I. Generators, motors, (whether or not equipped with speed reducing, changing or step-up gear) and rotary converters: a) Synchronous motors of an output of not more than 18 watts ex b) Other: — Motors
85.11	Industrial and laboratory electric furnaces, ovens and induction and dielectric heating equipment; electric or laser-operated welding, brazing, soldering or cutting machines and apparatus: A. Furnaces, ovens, induction and dielectric heating equipment: ex II. Other: — Electric furnaces and ovens, excluding parts
85.19	Electrical apparatus for making and breaking electrical circuits, for the protection of electrical circuits, or for making connections to or in electrical circuits (for example, switches, relays, fuses, lightning arresters, surge suppressors, plugs, lampholders and junction boxes); resistors, fixed or variable (including potentiometers), other than heating resistors; printed circuits; switchboards (other than telephone switchboards) and control panels: A. Electrical apparatus for making and breaking electrical circuits, for the protection of electrical circuits or for making connections to or in electrical circuits: — Make-and-break switches, excluding parts
85.22	Electrical appliances and apparatus, having individual functions, not falling within any other heading of this Chapter: C. Other: II. Other appliances and apparatus
ex 90.22	Machines and appliances for testing mechanically the hardness, strength, compressibility, elasticity and the like properties of industrial materials (for example, metals, wood, textiles, paper or plastics): — Excluding parts

CCT heading number	Description
ex 90.25	Instruments and apparatus for physical or chemical analysis (such as polarimeters, refractometers, spectrometers, gas analysis apparatus); instruments and apparatus for measuring or checking viscosity, porosity, expansion, surface tension or the like (such as viscometers, porosimeters, expansion meters); instruments and apparatus for measuring or checking quantities of heat, light or sound (such as photometers [including exposure meters], calorimeters); microtomes: — Excluding parts

3. DEA PORTUGUESA

CCT heading number	Description
ex 82.04	Hand tools, including glaziers' diamonds, not falling within any other heading of this Chapter; blow lamps, anvils; vices and clamps, other than accessories for, and parts of, machine tools; portable forges; grinding wheels with frameworks (hand or pedal operated): — Vices, clamps and the like
84.10	Pumps (including motor pumps and turbo pumps) for liquids, whether or not fitted with measuring devices; liquid elevators of bucket, chain, screw, band and similar kinds: B. Other pumps: II. Other: ex a) Pumps: — Other than hand pumps, pumps for internal combustion engines and dosing and proportioning pumps: — pumps
84.17	Machinery, plant and similar laboratory equipment, whether or not electrically heated, for the treatment of materials by a process involving a change of temperature such as heating, cooking, roasting, distilling, rectifying, sterilizing, pasteurizing, steaming, drying, evaporating, vapourizing, condensing or cooling, not being machinery or plant of a kind used for domestic purposes; instantaneous or storage water heaters, non-electrical: F. Other: ex II. Other, excluding: — Stoves, ranges and similar appliances for catering — Dryers — Machinery for liquefying air or gases — Machinery and plant for the dairy industry, the edible fats and oils industry, the sugar industry, the chocolate and confectionery industries, for processing other products of the food, drink and tobacco industries, for the chemical industry, the rubber and artificial plastic industries and for public works, building and the like — Parts

CCT heading number	Description
ex 84.20	Weighing machinery (excluding balances of a sensitivity of 5 cg or better) including weight-operated counting and checking machines; weighing machine weights of all kinds: — Weighing machines of a capacity of more than 30 kg, excluding: — Personal scales — Kitchen scales — Continuous totalizing weighing machines of the belt conveyor type — Dosers, sack filling weighers and other machines discharging pre-determined weights of material — Check weighers and automatic control machines operating by reference to a pre-determined weight — Machines for weighing and labelling pre-packaged goods — Weighing machinery with non-automatic balancing — Shop scales
84.21	Mechanical appliances (whether or not hand operated) for projecting, dispersing or spraying liquids or powders; fire extinguishers (charged or not); spray guns and similar appliances; steam or sand blasting machines and similar jet projecting machines: ex B. Other: — Other appliances for projecting, dispersing or spraying liquids or powders, excluding mechanical appliances for projecting insecticides, fungicides, weed-killers and the like and watering appliances for horticultural, agricultural and similar uses
84.22	Lifting, handling, loading or unloading machinery, telphers and conveyors (for example, lifts, hoists, winches, cranes, transporter cranes, jacks, pulley tackle, belt conveyors and teleferics), not being machinery falling within heading No 84.23: B. Other: ex IV. Other: — Lifting tables and lifting platforms; maintenance cradles — Stripper cranes, furnace charging and other steel-works cranes — Roller conveyors, non-pneumatic — Other machines and apparatus, excluding: — Pulley tackle and hoists, other than skip hoists — Winches and capstans

CCT heading number	Description
84.22 *(cont'd)*	— Jacks — Ship's derricks; cranes other than cable cranes; mobile lifting frames, other than those mentioned above — Elevators and conveyors with continuous movement, for goods — Loaders specially designed for underground use — Loaders specially designed for use in agriculture — Other mechanical loaders for bulk material — Lifts, skip hoists and mine-cage hoists — Escalators and moving pavements — Telepherics, chair-lifts, ski draglines; traction mechanisms for funiculars; cable cranes — Railway wagon handling equipment, locomotive or wagon traversers, wagon pushers and similar railway equipment — Stacking machines, not self-propelled — Feeding equipment (excluding cranes) for blast and other industrial furnaces; forging manipulators
84.45	Machine-tools for working metal or metal carbides, not being machines falling within heading Nos 84.49 or 84.50: C. Other machine-tools: VI. Sharpening, trimming, grinding, honing and lapping, polishing or finishing machines and similar machines operating by means of grinding wheels, abrasives or polishing products: a) Fitted with a micrometric adjusting system within the meaning of Additional Note 2 to this Chapter: ex 1. Automated by coded information — Grinding machines IX. Presses, other than those falling within subheadings 84.45 C X and C XI: ex b) Other: — Other than hydraulic, excluding those for making rivets, bolts and screws

CCT heading number	Description
84.59	Machines and mechanical appliances, having individual functions, not falling within any other heading of this Chapter: E. Other: ex II. Other: — Machines and mechanical appliances: — Machines and mechanical appliances other than mobile hydraulic powered mine roof supports: — Other than those for processing tea and coffee, for the animal or vegetable fats and oil industries or for the tobacco industry: — For treating metals: — Other than presses — Other than those for the food, drink or vinegar manufacturing industries for the rubber and artificial plastic materials industries, for treating wood or for building and public works
85.11	Industrial and laboratory electric furnaces, ovens and induction and dielectric heating equipment; electric or laser-operated welding, brazing, soldering or cutting machines and apparatus: A. Furnaces, ovens, induction and dielectric heating equipment: ex II. Other: — Induction and dielectric heating equipment other than microwave ovens for catering ex B. Electric or laser-operated welding, brazing, soldering or cutting machines and apparatus: — Machines and apparatus for welding or cutting metals, other than fully or partly automatic welding systems, excluding machines and apparatus for metal arc-welding or plasma ore-welding or cutting and for resistance welding
86.08	Containers specially designed and equipped for carriage by one or more modes of transport: B. Other

CCT heading number	Description
87.14	Other vehicles (including trailers), not mechanically propelled, and parts thereof: C. Other vehicles: II. Other
90.16	Drawing, marking-out and mathematical calculating instruments, drafting machines, pantographs, drawing sets, slide rules, disc calculators and the like; measuring or checking instruments, appliances and machines, not falling within any other heading of this Chapter (for example, micrometers, callipers, gauges, measuring rods, balancing machines); profile projectors: ex B. Measuring or checking instruments, appliances and machines; profile projectors: — Instruments, appliances and machines other than optical: — Test benches — Linear measuring instruments
ex 90.25	Instruments and apparatus for physical or chemical analysis (such as polarimeters, refractometers, spectrometers, gas analysis apparatus); instruments and apparatus for measuring or checking viscosity, porosity, expansion, surface tension or the like (such as viscometers, porosimeters, expansion meters); instruments and apparatus for measuring or checking quantities of heat, light or sound (such as photometers [including exposure meters], calorimeters); microtomes: — Other than gas or smoke analysis apparatus, microtomes and viscometers, porosimeters and expansion meters: — Optical
90.28	Electrical measuring, checking, analysing or automatically controlling instruments and apparatus: A. Electronic instruments and apparatus: ex II. Other: — Instruments and apparatus for testing equipment and materials

4. SOMINCOR

Heading number of the Common Customs Tariff	Description
40.09	Piping and tubing, of unhardened vulcanised rubber: B. Other
40.10	Transmission, conveyor or elevator belts or belting, of vulcanised rubber
40.11	Rubber tyres, tyre cases, interchangeable tyre treads, inner tubes and tyre flaps, for wheels of all kinds: A. Solid or cushion tyres and interchangeable tyre treads B. Other: ex II. Other: — Inner tubes: — Other than of the kind used on bicycles, with or without auxiliary motor, motorcycles or motor scooters, motor cars, vans, trucks, lorries or buses — Tyre cases and tubeless tyres: — New: — Other than of the kind used on bicycles, with or without auxiliary motor, motorcycles or motor scooters, motor cars or aircraft
40.13	Articles of apparel and clothing accessories (including gloves), for all purposes, of unhardened vulcanised rubber: ex A. Gloves, including mittens: — Other than household or surgical gloves B. Articles of apparel and clothing accessories
40.14	Other articles of unhardened vulcanised rubber: B. Other: ex II. Other: — other than floor coverings, mats and erasers
40.15	Hardened rubber (ebonite and vulcanite), in bulk, plates, sheets, strip, rods, profile shapes or tubes; scrap, waste and powder, of hardened rubber:

Heading number of the Common Customs Tariff	Description
40.15 *(continued)*	A. In bulk or blocks, in plates, sheets or strip, in rods, profile shapes or tubes
40.16	Articles of hardened rubber (ebonite and vulcanite): B. Other
42.03	Articles of apparel and clothing accessories, of leather or of composition leather: B. Gloves, including mittens and mitts: I. Protective, for all trades ex C. Other clothing accessories: — other than belts and girdles
42.04	Articles of leather or of composition leather of a kind used in machinery or mechanical appliances or for other industrial purposes: A. Conveyor or transmission belts or belting ex B. Other: — other than articles for the textile industry
42.05	Other articles of leather or of composition leather
73.10	Bars and rods (including wire rod), of iron or steel, hot-rolled, forged, extruded, cold-formed or cold-finished, (including precision-made); hollow mining drill steel: A. Not further worked than hot-rolled or extruded: III. Hollow mining drill steel (*ECSC*)
73.11	Angles, shapes and sections, of iron or steel, hot-rolled, forged, extruded, cold-formed or cold-finished; sheet piling of iron or steel, whether or not drilled, punched or made from assembled elements: A. Angles, shapes and sections: I. Not further worked than hot-rolled or extruded (*ECSC*) II. Not further worked than forged III. Not further worked than cold-formed or cold-finished B. Sheet piling (*ECSC*)

Heading number of the Common Customs Tariff	Description
73.12	Hoop and strip, of iron or steel, hot-rolled or cold rolled: ex A. Not further worked than hot-rolled (*ECSC*): — other than 'electrical' B. Not further worked than cold-rolled: ex II. Other: — other than 'electrical'
73.13	Sheets and plates, of iron or steel, hot-rolled or cold-rolled: B. Other sheets and plates: I. Not further worked than hot-rolled II. Not further worked than cold-rolled
73.15	Alloy steel and high carbon steel in the forms mentioned in heading Nos 73.06 to 73.14: A. High carbon steel: V. Bars and rods (including wire rod) and hollow mining drill steel; angles, shapes and sections: a) Not further worked than forged b) Not further worked than hot-rolled or extruded c) Not further worked than cold-formed or cold-finished d) Clad or surface-worked (for example, polished, coated) VI. Hoop and strip VII. Sheets and plates VIII. Wire, whether or not coated, but not insulated B. Alloy steel: V. Bars and rods (including wire rod) and hollow mining drill steel; angles, shapes and sections VI. Hoop and strip: ex a) Not further worked than hot-rolled (*ECSC*): — Other than 'electrical'

Heading number of the Common Customs Tariff	Description
73.15 *(continued)*	ex b) Not further worked than cold-rolled: — Other than 'electrical' c) Clad, coated or otherwise surface-treated d) Otherwise shaped or worked (for example, perforated, chamfered, lap-jointed) VII. Sheets and plates: b) Other sheets and plates: 1. Not further worked than hot-rolled (*ECSC*) 2. Not further worked than cold-rolled, of a thickness of: ex aa) 3 mm or more: — Stainless or heat-resisting VIII. Wire, whether or not coated, but not insulated
73.16	Railway and tramway track construction material of iron or steel, the following: rails, check-rails, switch blades, crossings (or frogs), crossing pieces, point rods, rack rails, sleepers, fish-plates, chairs, chair wedges, sole plates (base plates), rail clips, bedplates, ties and other material specialized for joining or fixing rails: A. Rails: II. Other: a) New (*ECSC*) D. Fish-plates and sole plates: E. Other
73.17	Tubes and pipes, of cast iron
73.18	Tubes and pipes and blanks therefor, of iron (other than of cast iron) or steel, excluding high-pressure hydro-electric conduits: B. Other: I. Straight and of uniform wall-thickness, unworked, seamless, of circular cross-section, solely for the manufacture of tubes and pipes with other cross-sections and wall-thicknesses

Heading number of the Common Customs Tariff	Description
73.18 *(continued)*	II. Straight and of uniform wall-thickness, other than those falling in B I above, of a maximum length of 4,50 m, of alloy steel containing by weight not less than 0,90% but not more than 1,15% of carbon, not less than 0,50% but not more than 2% of chromium and not more than 0,50% of molybdenum ex III. Other: — Seamless or welded tubes, of circular cross-section, more than 406,4 mm in external diameter — Seamless or welded tubes, of circular cross-section not more than 406,4 mm in external diameter: — Other than high pressure petroleum and gas line pipes and threaded or threadable tubes (gas pipe) — Tubes answering to the description in subheading B II but of a length of more than 4,5 m and electric conduit tubes
73.19	High-pressure hydro-electric conduits of steel, whether or not reinforced
73.20	Tube and pipe fittings (for example, joints, elbows, unions and flanges), of iron or steel
ex 73.21	Structures and parts of structures (for example, hangars and other buildings, bridges and bridge-sections, lock-gates, towers, lattice masts, roofs, roofing frame-works, door and window frames, shutters, balustrades, pillars and columns), of iron or steel; plates, strip, rods, angles, shapes, sections, tubes and the like, prepared for use in structures, of iron or steel: — Excluding weirs, sluices, lock-gates, landing-stages, fixed locks and other maritime and waterway structures
73.25	Stranded wire, cables, cordage, ropes, plaited bands, slings and the like, of iron or steel wire, but excluding insulated electric cables: B. Other
73.26	Barbed iron or steel wire; twisted hoop or single flat wire, barbed or not, and loosely twisted double wire, of kinds used for fencing, of iron or steel
73.27	Gauze, cloth, grill, netting, fencing, reinforcing fabric and similar materials, of iron or steel wire; expanded metal, of iron or steel

Heading number of the Common Customs Tariff	Description
ex 73.29	Chain and parts thereof, of iron or steel: — Articulated link chain other than for cycles and motorcycles, excluding parts — Other chain, excluding skid chain and parts
73.31	Nails, tacks, staples, hook-nails, corrugated nails, spiked cramps, studs, spikes and drawing pins, of iron or steel, whether or not with heads of other materials, but not including such articles with heads of copper: ex B. Other: — Nails, tacks, staples and similar fastenings other than drawing pins, nails, tacks, studs and spikes of all kinds, for footwear, decorative studs, staples for stapling pliers, machines or guns other than office-type and articles cold-pressed from wire
ex 73.35	Springs and leaves for springs, of iron or steel: — Excluding upholstery and mattress wire springs
73.37	Boilers (excluding boilers of heading No 84.01) and radiators, for central heating, not electrically heated, and parts thereof, of iron or steel; air heaters and hot air distributors (including those which can also distribute cool or conditioned air), not electrically heated, incorporating a motor-driven fan or blower, and parts thereof, of iron or steel
73.40	Other articles of iron or steel: ex A. Of cast iron: — Excluding articles for sewage, water, etc., systems ex B. Other: — Excluding snuff boxes, cigarette cases, cosmetic and powder boxes and cases, and similar pocket articles, spools, caps, bobbins and similar holders for spinning and weaving
82.05	Interchangeable tools for hand tools, for machine tools or for power-operated hand tools (for example, for pressing, stamping, drilling, tapping, threading, boring, broaching, milling, cutting, turning, dressing, morticing or screw driving), including dies for wire drawing, extrusion dies for metal, and rock drilling bits with a working part of:

Heading number of the Common Customs Tariff	Description
82.05 *(continued)*	ex A. Base metal — Rock drilling and earth boring tools
84.06	Internal combustion piston engines: C. Other engines: II. Compression ignition engines: b) Other: ex 2. Other: — Engines other than for propelling vehicles of Chapter 87 and for rail traction
84.10	Pumps (including motor pumps and turbo pumps) for liquids, whether or not fitted with measuring devices; liquid elevators of bucket, chain screw, band and similar kinds: B. Other pumps: II. Other: ex a) Pumps: — Hand pumps — Pumps for internal combustion engines — Pumps other than dosing and proportioning pumps: — Centrifugal pumps, excluding those with a discharge outlet diameter of 15 mm or less: — Submersible pumps — Other centrifugal radial flow pumps, excluding glandless impeller pumps for heating systems, channel impeller pumps and side channel pumps — Pumps other than rotary or reciprocating displacement pumps
84.11	Air pumps, vacuum pumps and air or gas compressors (including motor and turbo pumps and compressors, and free-piston generators for gas turbines); fans, blowers and the like: A. Pumps and compressors: II. Other: ex b) Other pumps and compressors: — Excluding compressors for refrigerating equipment c) Parts

Heading number of the Common Customs Tariff	Description
84.12	Air-conditioning machines, self-contained, comprising a motor-driven fan and elements for changing the temperature and humidity of air: B. Other
84.14	Industrial and laboratory furnaces and ovens, not being electric furnaces falling within heading No 85.11: B. Other: — Ovens other than bakery ovens, including biscuit ovens, and parts
84.18	Centrifuges; filtering and purifying machinery and apparatus (other than filter tunnels, milk strainers and the like), for liquids or gases: C. Other: II. Other: ex b) Machinery and apparatus (other than centrifuges) for filtering or purifying liquids or gases: — Machinery and apparatus for filtering or purifying liquids, air or other gases: — For use with engines — Parts of machinery and apparatus for filtering or purifying air and other gases and liquids other than water
ex 84.20	Weighing machinery (excluding balances of a sensitivity of 5 cg or better) including weight-operated counting and checking machines; weighing machine weights of all kinds: — Weighing machinery other than personal scales, kitchen scales, continuous totalizing weighing machines of the belt conveyor type, dosers, sack filling weighers and other machines discharging predetermined weights of material, check weighers and automatic control machines operating by reference to a pre-determined weight and machines for weighing and labelling pre-packaged goods: — Other than weighbridges with a capacity in excess of 5 000 kg: — Other than those with non-automatic balancing: — Other weighing machines, of a capacity of 30 kg or less
84.22	Lifting, handling, loading or unloading machinery, telphers and conveyors (for example, lifts, hoists, winches, cranes, transporter cranes, jacks, pulley tackle, belt conveyors and teleferics), not being machinery falling within heading No 84.23:

Heading number of the Common Customs Tariff	Description
84.22 *(continued)*	B. Other ex IV. Other: — Winches and capstans: — Pit-head winding gear — Winches specially designed for use underground in mines — Conveyors specially designed for underground use, non-pneumatic — Loaders specially designed for underground use — Skip hoists and mine-cage hoists — Parts, excluding lifting grabs and unit load grips for machinery and appliances designed for use in mines and other underground use
84.23	Excavating, levelling, tamping, boring and extracting machinery, stationary or mobile, for earth, minerals or ores (for example mechanical shovels, coal-cutters, excavators, scrapers, levellers and bulldozers); pile-drivers; snow-ploughs, not self-propelled (including snow-plough attachments): A. Excavating, levelling, tamping, boring and extracting machinery for earth, minerals or ores: I. Self-propelled, track-laying or wheeled, not capable of running on rails: II. Other: ex a) Boring and sinking machinery: — Excluding parts ex b) Other: — Other than road rollers designed to be pushed or towed and parts
84.45	Machine-tools for working metal or metal carbides, not being machines falling within heading Nos 84.49 or 84.50: B. Machine-tools operating by electro-erosion or other electrical processes; ultrasonic machine tools

Heading number of the Common Customs Tariff	Description
84.45 *(continued)*	C. Other machine-tools: I. Lathes IV. Shaping machines, sawing machines and cutting-off machines, broaching machines and slotting machines V. Milling machines and drilling machines VI. Sharpening, trimming, grinding, honing and lapping, polishing or finishing machines and similar machines operating by means of grinding wheels, abrasives or polishing products
ex 84.48	Accessories and parts suitable for use solely or principally with the machines falling within headings Nos 84.45 to 84.47, including work and tool holders, self-operating dieheads, dividing heads and other appliances for machine-tools; tool holders for any type of tool or machine-tool for working in the hand: — Tool holders and work holders — Arbors, collets and sleeves — Others: — Tool Holders — Work holders: — Jigs and fixtures for specific applications; sets of standard jig and fixture components
84.49	Tools for working in the hand, pneumatic or with self-contained non-electric motor: — Pneumatic tools: — Other than concrete vibrators — Tools with self-contained non-electric motor: — Other than chain saws
84.50	Gas-operated welding, brazing, cutting and surface tempering appliances
84.53	Automatic data processing machines and units thereof: magnetic or optical readers, machines for transcribing data onto data media in coded form and machines for processing such data, not elsewhere specified or included:

Heading number of the Common Customs Tariff	Description
84.53 *(continued)*	B. Others
ex 84.56	Machinery for sorting, screening, separating, washing, crushing, grinding or mixing earth, stone, ores or other mineral substances, in solid (including powder and paste) form; machinery for agglomerating, moulding or shaping solid mineral fuels, ceramic paste, unhardened cements, plastering materials or other mineral products in powder or paste form; machines for forming foundry moulds of sand — Excluding concrete and mortar mixers and parts
84.61	Taps, cocks, valves and similar appliances, for pipes, boiler shells, tanks, vats and the like, including pressure reducing valves and thermostatically controlled valves: A. Pressure-reducing valves ex B. Other — Other than valves for the control of hydraulic or pneumatic power transmission and valves for pneumatic tyres and inner tubes: — Other than taps, cocks and valves for sinks, wash basins, bidets, water cisterns, baths and similar fixtures, central-heating radiator valves and butterfly valves
84.62	Ball roller or needle roller bearings
84.63	Transmission shafts, cranks, bearing housings, plain shaft bearings, gears and gearing (including friction gears and gear-boxes and other variable speed gears), flywheels, pulleys and pulley blocks, clutches and shaft couplings; B. Other
85.01	Electrical goods of the following descriptions: generators, motors, converters (rotary or static), transformers, rectifiers and rectifying apparatus, inductors: B. Other machines and apparatus
85.04	Electric accumulators: B. Other: I. Lead-acid accumulators II. Other accumulators

Heading number of the Common Customs Tariff	Description
ex 85.05	Tools for working in the hand, with self-contained electric motor: — Tools other than for working textiles: — Other than those capable of operation without an external source of power
85.10	Portable electric battery and magneto lamps, other than lamps falling within heading No 85.09
85.11	Industrial and laboratory electric furnaces, ovens and induction and dielectric heating equipment; electric or laser-operated welding, brazing, soldering or cutting machines and apparatus: A. Furnaces, ovens, induction and dielectric heating equipment: ex II. Other: — Resistance heating furnaces other than bakery and biscuit ovens — Furnaces other than induction and dielectric furnaces
85.13	Electrical line telephonic and telegraphic apparatus (including such apparatus for carrier-current line systems): ex A. Apparatus for carrier-current line systems: — Excluding parts ex B. Other: — Telephonic apparatus — Other than telephone sets — Telegraphic apparatus
85.15	Radiotelegraphic and radiotelephonic transmission and reception apparatus; radio-broadcasting and television transmission and reception apparatus (including receivers incorporating sound recorders or reproducers) and television cameras; radio navigational aid apparatus, radar apparatus and radio remote control apparatus: A. Radiotelegraphic and radiotelephonic transmission and reception apparatus; radio-broadcasting and television transmission and reception apparatus (including receivers incorporating sound recorders or reproducers) and television cameras:

Heading number of the Common Customs Tariff	Description
85.15 *(continued)*	III. Receivers, whether or not incorporating sound recorders or reproducers: b) Other: 1. Pocket receivers for calling or paging ex 2. Other: — Radio-broadcast receivers, with built-in loudspeakers, excluding clock radios and receivers of a kind used in motor vehicles — Other receivers: — Without built-in amplifier — With built-in amplifier — Other than those combined with sound recording or reproducing apparatus IV. Television cameras
85.17	Electric sound or visual signalling apparatus (such as bells, sirens, indicator panels, burglar and fire alarms), other than those of heading No 85.09 or 85.16 B. Other
85.19	Electrical apparatus for making and breaking electrical circuits, for the protection of electrical circuits, or for making connections to or in electrical circuits (for example, switches, relays, fuses, lightning arresters, surge suppressors, plugs, lampholders and junction boxes); resistors, fixed or variable (including potentiometers), other than heating resistors; printed circuits; swichtboards (other than telephone switchboards) and control panels
85.23	Insulated (including enamelled or anodised) electric wire, cable, bars, strip and the like (including co-axial cable), whether or not fitted with connectors: B. Other: — Other than winding wire
85.25	Insulators of any material
87.02	Motor vehicles for the transport of persons, goods or materials (including sports motor vehicles, other than those of heading No 87.09):

Heading number of the Common Customs Tariff	Description
87.02 *(continued)*	A. For the transport of persons, including vehicles designed for the transport of both passengers and goods: I. With either a spark ignition or a compression ignition engine a) Motor coaches and buses: ex 1. With either a spark ignition engine of a cylinder of 2 800 cm^3 or more or a compression ignition engine of a cylinder capacity of 2 500 cm^3 or more — New ex 2. Other: — New ex b) Other: — New II. With other engines B. For the transport of goods or materials: II. Other: a) With either a spark ignition or a compression ignition engine: 1. Motor lorries with either a spark ignition engine of a cylinder capacity of 2 800 cm^3 or more or a compression ignition engine of a cylinder capacity of 2 500 cm^3 or more: aa) Dumpers of a cylinder capacity: bb) Other: — New 2. Other: aa) Dumpers ex bb) Other: — New b) With other engines
87.03	Special purpose motor lorries and vans (such as breakdown lorries, fire-engines, fire-escapes, road sweeper lorries, snow-ploughs, spraying lorries, crane lorries, searchlight lorries, mobile workshops and mobile radiological units), but not including the motor vehicles of heading No 87.02
87.07	Works trucks, mechanically propelled, of the types used in factories, warehouses, dock areas or airports for short-distance transport or handling of goods (for example, platform trucks, fork-lift trucks and straddle carriers); tractors of the type used on railway station platforms; parts of the foregoing vehicles:

Heading number of the Common Customs Tariff	Description
87.07 *(continued)*	B. Straddle carriers C. Other trucks; tractors
87.14	Other vehicles (including trailers), not mechanically propelled, and parts thereof: B. Trailers and semi-trailers: ex II. Other: — For the transport of goods, excluding self-loading or self-unloading, for agricultural use C. Other vehicles: II. Other
ex 90.04	Spectacles, pince-nez, lorgnettes, goggles and the like, corrective, protective or other: — Excluding sunglasses
90.11	Microscopes and diffraction apparatus, electron and proton
ex 90.12	Compound optical microscopes, whether or not provided with means for photographing or projecting the image: — Optical microscopes
90.14	Surveying (including photogrammetrical surveying), hydrographic, navigational, meteorological, hydrological and geophysical instruments; compasses; rangefinders: B. Other: ex III. Other: — Excluding navigational instruments
ex 90.15	Balances of a sensitivity of 5 cg or better, with or without their weights: — Excluding parts and accessories

Heading number of the Common Customs Tariff	Description
90.16	Drawing, marking-out and mathematical calculating instruments, drafting machines, pantographs, drawing sets, slide rules, disc calculators and the like; measuring or checking instruments, appliances and machines, not falling within any other heading of this Chapter (for example, micrometers, callipers, gauges, measuring rods, balancing machines); profile projectors: ex B. Measuring or checking instruments, appliances and machines; profile projectors: — Optical instruments, appliances and machines — Parts and accessories
ex 90.22	Machines and appliances for testing mechanically the hardness, strength, compressibility, elasticity and the like properties of industrial materials (for example, metals, wood, textiles, paper or plastics): — Excluding machines and appliances for testing textiles, paper or paperboard, and parts and accessories
ex 90.25	Instruments and apparatus for physical or chemical analysis (such as polarimeters, refractometers, spectrometers, gas analysis apparatus); instruments and apparatus for measuring or checking viscosity, porosity, expansion, surface tension or the like (such as viscometers, porosimeters, expansion meters); instruments and apparatus for measuring or checking quantities of heat, light or sound (such as photometers [including exposure meters], calorimeters); microtomes: — Excluding parts and accessories
90.28	Electrical measuring, checking, analysing or automatically controlling instruments and apparatus: A. Electronic instruments and apparatus: II. Other: ex b) Other: — Excluding instruments and apparatus for balancing mechanical parts and for marine, river, aeronautical or space navigation B. Other: II. Other

5. TEXAS INSTRUMENTS

CCT heading number	Description
84.59	Machines and mechanical appliances, having individual functions, not falling within any other heading of this Chapter: E. Other: ex II. Other: — Machines and mechanical appliances: — Machines and mechanical appliances other than mobile hydraulic powered mine roof supports: — Other than those for processing tea and coffee, for the animal or vegetable fats and oil industries or for the tobacco industry: — for the rubber and artifical plastic materials industries
85.01	Electrical goods of the following descriptions: generators, motors, converters (rotary or static), transformers, rectifiers and rectifying apparatus, inductors: B. Other machines and apparatus: I. Generators, motors, (whether or not equipped with speed-reducing, changing or step-up gear) and rotary converters: ex b) Other: — Other than those specially designed for welding, without welding equipment, and motors and other generators, the performance of which is not expressed in kW or kVA (tachometer generators, rotary phase advancers, magnetic amplifiers, etc.): — AC motors other than generating sets, traction motors and other universal (AC/DC) motors: — Other than of an output of not more than 0,05 kW: — Single-phase motors
85.11	Industrial and laboratory electric furnaces, ovens and induction and dielectric heating equipment; electric or laser-operated welding, brazing, soldering or cutting machines and apparatus: ex B. Electric or laser-operated welding, brazing, soldering or cutting machines and apparatus: — Excluding parts

CCT heading number	Description
90.28	Electrical measuring, checking, analysing or automatically controlling instruments and apparatus: A. Electronic instruments and apparatus: II. Other: ex a) Telecommunications (cross-talk meters, gain measuring instruments, nepermeters, distortion factor meters, psophometers and the like); For measuring or detecting ionizing radiations; Other measuring apparatus with self-balancing recording device; Other apparatus for measuring electrical quantities: — Apparatus for measuring electrical quantities other than telecommunications (cross-talk meters, gain-measuring instruments, nepermeters, distortion factor meters, psophometers and the like) or for measuring or detecting ionizing radiations ex b) Other: — Instruments and apparatus for testing equipment and materials — Regulators and control units — Instruments and apparatus for balancing mechanical parts — Instruments and apparatus other than marine, river, aeronautical or space navigational or meteorological hydrological and geophysical instruments and apparatus: — Instruments and apparatus using optical radiations (ultraviolet, visible, infra-red): — Instruments and apparatus for physical or chemical analyses — Other than exposure meters and surveying and hydrographic instruments — Other

6. FUNFRAP

CCT heading number	Description
73.40	Other articles of iron or steel: ex B. Other: — Articles of iron or steel other than snuff boxes, cigarette cases, cosmetic and powder boxes and cases, and similar pocket articles, reservoir, tanks and other containers covered by heading No 73.22, of a capacity not exceeding 300 litres, ladders and steps, conveyor and transition belt fasteners, swivels and swivel hooks for all purposes, pallets and similar platforms for handling goods, small cages and aviaries, wire waste-paper baskets, spools, caps, bobbins and similar holders for spinning and weaving, ball and other solid shapes, for use in grinding and crushing mills, non-calibrated steel balls (see Note 4 to Chapter 84) reels for cables, piping and the like, non-mechanical ventilators, guttering, tile hangers and like articles used in the building industry: — Of cast steel: — Worked — Of open-die forged iron or steel: — Worked
84.12	Air-conditioning machines, self-contained, comprising a motor-driven fan and elements for changing the temperature and humidity of air: ex B. Other: — Air-conditioning machines
ex 84.13	Furnace burners for liquid fuel (atomisers), for pulverised solid fuel or for gas; mechanical stokers, mechanical grates, mechanical ash dischargers and similar appliances: — Furnace burners for liquid fuel (atomisers), excluding parts
84.14	Industrial and laboratory furnaces and ovens, non-electric: ex B. Other: — Other than bakery ovens, including biscuit ovens, and parts
ex 84.20	Weighing machinery (excluding balances of a sensitivity of 5 cg or better) including weight-operated counting and checking machines; weighing-machine weights of all kinds:

CCT heading number	Description
ex. 84.20 *(continued)*	— Weighing machinery other than personal scales, kitchen scales, continuous totalizing weighing machines of the belt conveyor type, dosers, sack filling weighers and other machines discharging predetermined weights of material, check weighers and automatic control machines operating by reference to a pre-determined weight and machines for weighing and labelling pre-packaged goods: — Other than weighbridges with a capacity in excess of 5 000 kg: — Other than those with non-automatic balancing — Weighing machinery other than shop scales
84.22	Lifting, handling, loading or unloading machinery, telphers and conveyors (for example, lifts, hoists, winches, cranes, transporter cranes, jacks, pulley tackle, belt conveyors and teleferics), not being machinery falling within heading No 84.23: B. Other: II. Self-propelled cranes on wheels, not capable of running on rails: — Excluding parts III. Rolling-mill machinery: roller tables for feeding and removing products; tilters and manipulators for ingots, balls, bars and slabs: — Excluding parts IV. Other — Lifting tables and lifting platforms; maintenance cradles — Pulley tackle and hoists, other than skip hoists — Ship's derricks; cranes other than cable cranes, mobile lifting frames, excluding hydraulic cranes designed to be mounted on lorries — Elevators and conveyors with continuous movement for goods: — Pneumatic: — Other than those specially designed for use in agriculture: — For bulk materials — Non-pneumatic: — Other than conveyors specially designed for underground use

CCT heading number	Description
84.22 *(continued)*	— Feeding equipment (excluding cranes) for blast and other industrial furnaces; forging manipulators — Machinery other than winches and capstans, jacks, loaders specially designed for underground use or for use in agriculture, mechanical loaders for bulk material, lifts, skip hoists and mine-cage hoists, escalators and moving pavements, teleferics, chair-lifts, ski draglines; traction mechanisms for funiculars; cable cranes, railway wagon-handling equipment, locomotive or wagon traversers, wagon pushers and similar railway equipment, stacking machines, not self-propelled, and parts
ex 84.43	Converters, ladles, ingot moulds and casting machines, of a kind used in metallurgy and in metal foundries: — Excluding parts
84.45	Machine-tools for working metal or metal carbides, not being machines falling within heading No 84.49 or 84.50: C. Other machine-tools: VI. Sharpening, trimming, grinding, honing and lapping, polishing or finishing machines and similar machines operating by means of grinding wheels, abrasives or polishing products XII. Other
ex 84.47	Machine-tools for working wood, cork, bone, ebonite (vulcanite), hard artificial plastic materials or other hard carving materials, other than machines falling within heading No 84.49: — Other than machines designed to perform several different operations: — Bending and assembling machines, including presses
ex 84.56	Machinery for sorting, screening, separating, washing, crushing, grinding or mixing earth, stone, ores or other mineral substances, in solid (including powder and paste) form; machinery for agglomerating, moulding or shaping solid mineral fuels, ceramic paste, unhardened cements, platering materials or other mineral products in powder or paste form; machines for forming foundry moulds of sand: — Excluding concrete and mortar mixers and parts
84.59	Machines and mechanical appliances, having individual functions, not falling within any other heading of the Chapter:

CCT heading number	Description
84.59 *(continued)*	E. Other: ex II. Other: — Machines and mechanical appliances; — Machines and mechanical appliances other than mobile hydraulic-powered mine-roof supports: — Other than those for processing tea and coffee, for the animal or vegetable fats and oil industries or for the toabacco industry: — For treating metals: — Other than presses — Other than those for the food, drink or vinegar manufacturing industries, for the rubber and artificial plastic materials industries, for treating wood or for building and public works
85.11	Industrial and laboratory electric furnaces, ovens and induction and dielectric heating equipment, electric or laser-operated welding, brazing, soldering or cutting machines and apparatus: A. Furnaces, ovens, induction and dielectric heating equipment: ex II. Other: — Other than induction and dielectric heating equipment: — Furnaces other than resistance heating furnaces and induction and dielectric furnaces B. Electric or laser-operated welding, brazing, soldering or cutting machines and apparatus: — Machines and apparatus for welding or cutting metals
87.07	Works, trucks, mechanically propelled, of the types used in factories, warehouses, dock areas or airports for short-distance transport or handling of goods (for example, platform trucks, fork-lift trucks and straddle carriers); tractors of the type used on railway station platforms; parts of the foregoing vehicles: C. Other trucks; tractors: ex II. Other: — With electric motors

CCT heading number	Description
87.14	Other vehicles (including trailers), not mechanically propelled, and parts thereof: C. Other vehicles: II. Other
90.16	Drawing, marking-out and mathematical calculating instruments, drafting machines, pantographs, drawing sets, slide rules, disc calculators and the like; measuring or checking instruments, appliances and machines, not falling within any other heading of this Chapter (for example, micrometers, callipers, gauges, measuring rods, balancing machines); profile projectors: ex B. Measuring or checking instruments, appliances and machines; profile projectors: — Other instruments, appliances and machines: — Balancing machines — Test benches
90.23	Hydrometers and similar instruments; thermometers, pyrometers, barometers, hygrometers, psychrometers, recording or not; any combination of these instruments: A. Thermometers: II. Other: ex a) Mercury- or other liquid-filled thermometers, for direct reading — Other than clinical thermometers b) Other B. Hygrometers and psychrometers C. Hydrometers and similar instruments, with or without thermometers; optical pyrometers
ex 90.25	Instruments and apparatus for physical or chemical analysis (such as polarimeters, refractometers, spectrometers, gas analysis apparatus); instruments and apparatus for measuring or checking viscosity, porosity, expansion, surface tension or the like (such as viscometers, porosimeters, expansion meters); instruments and apparatus for measuring or checking quantities of heat, light or sound (such as photometers (including exposure meters), calorimeters); microtomes: — Excluding parts and accessories

CCT heading number	Description
ex 90.26	Gas, liquid and electricity supply or production meters; calibrating meters therefor: — Gas meters
90.28	Electrical measuring, checking, analysing or automatically controlling instruments and apparatus: A. Electronic instruments and apparatus: II. Other: ex b) Other: — Instruments and apparatus for testing equipment and materials — Regulators and control units — Instruments and apparatus for balancing mechanical parts — Instruments and apparatus other than marine, river, aeronautical or space navigational or meterorological hydrological and geophysical instruments and apparatus: — Instruments and apparatus using optical radiations (ultraviolet, visible, infra-red): — Instruments and apparatus for physical or chemical analyses: — Other: — Other than for measuring geometric quantities B. Other: II. Other: — Measuring apparatus for the analysis of gases, liquids or solids — Measuring apparatus for heat and moisture and for process control — Apparatus for testing equipment or materials — Other than oscillographs, self-balancing potentiometers and measuring bridges and regulators and control units
