COMMISSION DECISION

of 21 February 1992

approving an amendment to the varietal conversion programme for hops submitted by the Kingdom of Spain pursuant to Council Regulation (EEC) No 2997/97

(Only the Spanish text is authentic)

(92/148/EEC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to Council Regulation (EEC) No 2997/87 of 22 September 1987 laying down, in respect of hops, the amount of aid to producers for the 1986 harvest and providing for special measures for certain regions of production (1), as last amended by Regulation (EEC) No 3837/90 (2), and in particular Article 2 (5) thereof,

Having regard to Council Regulation (EEC) No 3889/87 of 22 December 1987 laying down detailed rules for the application of the special measures for certain regions of hops production (3), as last amended by Regulation (EEC) No 345/91 (4), and in particular Article 3 thereof,

Whereas, pursuant to Article 2 (5) of Regulation (EEC) No 2997/87, on 9 December 1988 the Kingdom of Spain forwarded to the Commission a varietal conversion programme for hops; whereas the programme as amended on 3 July 1989 was approved by Commission Decision 89/479/EEC (5);

Whereas on 18 December 1991 the Kingdom of Spain forwarded further amendments to that programme to the Commission;

Whereas the programme as amended satisfies the objectives of the Regulation in question and contains the information required under Article 2 of Regulation (EEC) No 3889/87;

Whereas conversion to specific of the variety H 3 may be treated as varietal conversion within the meaning of Regulation (EEC) No 2997/87 on condition that the strain obtained by clonal selection gives rise to production of hops of the super-alpha type, as defined in Article 1 (3) of Regulation (EEC) No 3889/87, which may be used in brewing owing to the confirmed stability and homogeneity characteristics;

Whereas the financial contribution from the national budget foreseen in the programme complies with the ceiling in Article 2 (2) of Regulation (EEC) No 2997/87;

whereas the actual costs referred to in that Article may include factors for assessing the net loss of income following the implementation of the conversion plan; whereas, however, only factors relating to the net loss of income suffered from the date of adoption of Regulation (EEC) No 2997/87 may be included in the calculation of the actual costs; whereas the financial contribution from the Member State to the varietal conversion programme must be determined accordingly;

Whereas the measures provided for in this Decision are in accordance with the opinion of the Management Committee for Hops,

HAS ADOPTED THIS DECISION:

Article 1

The amendment to the varietal conversion programme for hops, submitted pursuant to Regulation (EEC) No 2997/87 by the Kingdom of Spain on 18 December 1991, is hereby approved. The main aspects of the programme as amended are given in the Annex hereto.

Article 2

The Kingdom of Spain shall inform the Commission every six months of progress in the programme.

Article 3

This Decision is addressed to the Kingdom of Spain.

Done at Brussels, 21 February 1992.

ANNEX

1. *List of producer groups covered by the programme:*

   — Grupo de cultivadores de liupulo de Garrizo de la Ribera, Asociacion de Productores Agrarios, APA n° 1,

   — Agrupacion Comercial de Campesinos Leoneses 'ACCAL' de Astorga, Asociacion de Productores Agrarios, APA n° 2.

2. *Duration of programme*

   From 1988 to 1994. The last plantings must be carried out before 31 December 1994.

3. *Areas covered by the programme*

   617 hectares

4. *Varieties to be planted and areas concerned*

   Aromatic varieties

Spalt Hersbrucker Fino Alsacia Hallertau	maximum of 5 % of areas converted (at most 30,85 hectares)

   Super-alpha varieties(1)

Specific clones of the variety H 3	minimum of 95 % of areas converted (at least 586,15 hectares)

(1) Within the meaning of Article 2 of Regulation (EEC) No 2997/87 and Article 1 (3) of Regulation 3889/87.
