COMMISSION DECISION

of 22 May 1992

approving measures to set up pilot projects for the control of rabies with a view to its eradication or prevention presented by Luxembourg

(Only the French text is authentic)

(92/302/EEC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to Council Decision 89/455/EEC of 24 July 1989 introducing Community measures to set up pilot projects for the control of rabies with a view to its eradication or prevention [1], and in particular Article 4 thereof,

Whereas, conforming to Article 1 of Decision 89/455/EEC Luxembourg shall set up large-scale pilot projects in accordance with Article 3 for the eradication or prevention of rabies in the wild life of the Community using vaccines for the oral immunization of foxes;

Whereas the pilot projects as presented by Luxembourg include the adjacent border areas of Belgium, France and Germany;

Whereas the pilot project is part of a cross border cooperation with Belgium, France and Germany;

Whereas by letter dated 26 February 1992, Luxembourg notified the Commission of pilot projects for the control of rabies with a view to its eradication or prevention;

Whereas, after examination the pilot project was found to comply with Decision 89/455/EEC; whereas the conditions for financial participation by the Community are therefore met;

Whereas the measures provided for in this Decision are in accordance with the opinion of the Standing Veterinary Committee,

HAS ADOPTED THIS DECISION:

Article 1

The pilot projects for the eradication and prevention of rabies, presented in April and May 1992 by Luxembourg, are hereby approved.

Article 2

Luxembourg shall bring into force by 1 April 1992 the laws, regulations and administrative provisions for implementing the pilot projects referred to in Article 1.

Article 3

This Decision is addressed to the Grand Duchy of Luxembourg.

Done at Brussels, 22 May 1992.

For the Commission

Ray MAC SHARRY

Member of the Commission
