COMMISSION

COMMISSION DECISION

of 10 January 1992

recognizing Belgium as an officially swine fever free Member State within the context of eradication, and amending for the sixth time Decision 81/400/EEC establishing the status of Member States as regards classical swine fever with a view to its eradication

(92/47/EEC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to Council Directive 80/1095/EEC of 11 November 1980 laying down conditions designed to render and keep the territory of the Community free from classical swine fever [1], as last amended by Directive 87/487/EEC [2], and in particular Articles 2 (2), 3 (2) and 7 (1) thereof,

Whereas by Decision 88/529/EEC [3], as amended by Decision 91/413/EEC [4], the Commission has approved the plan for the accelerated eradication of classical swine fever presented by Belgium;

Whereas Belgium at this moment complies with the criteria laid down in Articles 7 (1) and 2 point 2 of Directive 80/1095/EEC for being recognized as an officially swine fever free Member State within the context of eradication; in fact, no swine fever has been detected and vaccination against swine fever has been stopped for more than 12 months on the territory of Belgium and the holdings on the territory of Belgium contain no pigs which have been vaccinated against swine fever in the preceeding 12 months;

Whereas taking into account this new situation it is necessary to modify Commission Decision 81/400/EEC of 15 May 1981, establishing the status of Member States as regards classical swine fever with a view to its eradication [5] as last amended by Decision 91/378/EEC [6];

Whereas the measures provided for in this Decision are in accordance with the opinion of the Standing Veterinary Committee,

HAS ADOPTED THIS DECISION:
