COMMISSION

COMMISSION DECISION

of 6 November 1992

on applications for part-financing of national aid schemes in the form of reimbursements and advances pursuant to Council Regulation (EEC) No 2328/91

(92/522/EEC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to Council Regulation (EEC) No 2328/91 of 15 July 1991 on improving the efficiency of agricultural structures [1], and in particular Articles 33 (3) and 36 thereof,

Having regard to Council Regulation (EEC) No 4253/88 of 19 December 1988 laying down provisions for implementing Regulation (EEC) No 2052/88 as regards coordination of the activities of the different Structural Funds between themselves and with the operations of the European Investment Bank and the other existing financial instruments [2], and in particular Article 21 (6) thereof,

Whereas Regulation (EEC) No 2328/91 has replaced Council Regulation (EEC) No 797/85 [3];

Whereas this replacement necessitates numerous amendments to Commission Decision 91/264/EEC of 17 April 1991 on applications for part-financing of national aid schemes in the form of reimbursements and advances pursuant to Council Regulation (EEC) No 797/85 [4]; so it is appropriate in the interest of clarity to replace that Decision;

Whereas, in order to standardize payment applications, provision should be made for making a computerized system available to the competent authorities;

Whereas the measures provided for in this Decision are in accordance with the opinion of the Committee on Agricultural Structures and Rural Development,

HAS ADOPTED THIS DECISION:

Article 1

1. The applications for reimbursement as referred to in Article 33 (1) of Regulation (EEC) No 2328/91 must conform to the tables set out in Annexes 1 to 14.

2. The applications for advances referred to in Article 21 (6) of Regulation (EEC) No 4253/88 and relating to the measures intended to support farm incomes pursuant to Regulation (EEC) No 2328/91 shall conform to the table set out in Annex 15.1.

3. Member States shall forward to the Commission, together with their first application for reimbursement, the text of the national rules of application and administrative instructions as well as the forms and all other documents relating to the administrative implementation of the measure. National reports concerning checks carried out under Article 36 of Regulation (EEC) No 2328/91 shall be sent to the Commission on request or, where appropriate, submitted at the time of on-the-spot checks by Commission representatives.

Article 2

1. On the basis of the information contained in the applications for reimbursement, the Commission shall

[1] OJ No L 218, 6. 8. 1991, p. 1.
[2] OJ No L 374, 31. 12. 1988, p. 1.
[3] OJ No L 93, 30. 3. 1985, p. 1.
[4] OJ No L 131, 27. 5. 1991, p. 1.

decide to repay aid up to the amount claimed provided that the application is complete and submitted in due form within the time limit prescribed. Advances shall be paid as quickly as possible under conditions the same as those governing applications for reimbursement.

However, the amount claimed may be paid only if the application raises no immediate objections as to the accuracy of the information which it contains and the conformity of the expenditure made or planned with the provisions in force. If this condition is not fulfilled, the amount which may be paid shall be reduced accordingly pursuant to Article 24 of Regulation (EEC) No 4253/88.

2. Where a thorough examination of the application for reimbursement reveals that the amount paid in accordance with paragraph 1 is not that actually due, regularization shall take place as soon as possible, that is to say, normally under the next reimbursement procedure. Where the amount to be paid under the next reimbursement procedure is less than that part of the previous reimbursement which was paid in excess or where the Member State concerned submits no applications for reimbursement in respect of the financial year concerned, it shall repay the amount due within a period to be fixed by the Commission.

Article 3

Decision 91/264/EEC is hereby repealed.

Article 4

A computerized system should generally be used to send the information referred to in the Annexes. The Commission may decide upon the software required and make it available to the competent authorities. The Commission may also take responsibility for providing the equipment and for training a certain number of people who are to work with this equipment.

Article 5

This Decision is addressed to the Member States.

ANNEX

APPLICATIONS FOR PAYMENT

PRELIMINARY REMARKS

1. **Provisions relating to the submission of applications for payment (including applications for advances).**

1.1. Applications for payment shall clearly show the aid granted and payments applied for with regard to measures applied in the following three areas:

— Objective 1 areas as defined in Article 1 of Regulation (EEC) No 2052/88,

— Objective 5 (b) areas defined in Article 1 of Regulation (EEC) No 2052/88,

— other areas.

1.2. The information required in the Annexes must be supplied for each:

— province in Belgium and the Netherlands,

— 'Regierungsbezirk' in Germany (1),

— department in France,

— regional, county and area office in the United Kingdom,

— county in Ireland,

— 'amt' in Denmark,

— region and autonomous province in Italy,

— 'nomos' in Greece,

— autonomous community in Spain,

— region and autonomous region in Portugal.

1.3. When advances are made for measures intended to support farm incomes, the total advances received and the balance to be paid or total advances unused to be carried over to the following year must be indicated when the application for reimbursement is submitted.

1.4. As regards the use of the ecu as provided for in Article 22 of Regulation (EEC) No 4253/88, Commission Regulation (EEC) No 1866/90 of 2 July 1990 on arrangements for using the ecu for the purposes of the budgetary management of the Structural Funds (OJ No L 170, 3. 7. 1990, p. 36) should be applied.

1.5. Applications for payment and all additional information must be submitted in triplicate to:

COMMISSION OF THE EUROPEAN COMMUNITIES,
Directorate-General for Agriculture,
EAGGF, Guidance Section (VI-G-5),
200 Rue de la Loi,
B-1049 Brussels.

2. **Individual information sheets for the beneficiaries of an aid measure in respect of which reimbursement is applied for.**

2.1. The individual information sheets attached to applications for reimbursement do not have to be systematically addressed to the Commission departments.

2.2. Member States which use or introduce a data processing system shall ensure that the program decided upon makes it possible to provide the Commission departments with the particulars contained in the individual information sheets in respect of each beneficiary.

2.3. Member States which do not use a data processing system shall also provide the Commission departments with the particulars contained in the individual information sheets in respect of each beneficiary.

2.4. Information provided on the individual sheets shall be sent to the Commission at its request or, where appropriate, shall be made available to it during on-the-spot inspections.

DECLARATION TO BE SUBMITTED WITH THE APPLICATION FOR REIMBURSEMENT OF EXPENDITURE MADE IN ACCORDANCE WITH REGULATION (EEC) No 2328/91

IT IS HEREBY CONFIRMED THAT:

(a) eligible expenditure claimed relates to aids, the dates of approval by decision of which is later than the date of entry into force of the Regulation, or, where appropriate, of the amendment;

(b) the Member State has proper facilities enabling it to carry out effective verification of the data on which calculation of aid eligible for reimbursement from the fund is based;

(c) the aid intended to encourage less intensive production of products which are in surplus complies with the provisions of Title 2 of Regulation (EEC) No 2328/91 and Regulation (EEC) No 4115/88;

(d) the aid for investments in agricultural holdings complies with the requirements of Articles 5, 6, 7, 8 and 9 of the Regulation;

(e) the special aid for young farmers complies with the requirements of Article 10 and 11 of the Regulation;

(f) the aid for the introduction of accounting on agricultural holdings complies with the provisions of Article 13 of the Regulation;

(g) the launching aid granted to producers' groups having as their object mutual aid between holdings satisfies the provisions of Article 14 of the Regulation;

(h) the launching aid granted for agricultural associations having as their object the provision of farm-relief services complies with the provisions of Article 15 of the Regulation;

(i) the launching aid granted to agricultural associations having as their object the provision of farm-management services complies with the provisions of Article 16 of the Regulation;

(j) the compensatory allowances granted to offset permanent natural handicaps comply with the provisions of Articles 17, 18 and 19 of the Regulation;

(k) the aid granted for joint and individual investment schemes complies with the provisions of Article 20 of the Regulation;

(l) the aid granted for the protection of sensitive areas complies with the provisions of Articles 21, 22, 23 and 24 of the Regulation;

(m) the aid granted for forestry measures on agricultural holdings complies with the provisions of Article 25 and 26 of the Regulation;

(n) the aid granted for vocational instruction or training courses complies with the provisions of Article 28 of the Regulation;

(o) the aid referred to in points (c) to (n) above and paid by the Member State in national currency continues to observe the limits set by Community legislation, having regard to the variation in the rate for the ecu applicable in the context of the policy on agricultural structure;

(p) the Member State has satisfied itself that the measures which it has implemented take into account the need to protect the environment and natural resources;

(q) where the reimbursement application is submitted in ecus, the expenditure incurred in national currency is converted into ecus at the rate for the month in which it was entered in the accounts of the bodies responsible for financial management in connection with the implementation of the measures provided for in Regulation (EEC) No 2328/91.

(b) Where the UAA changes from one year to the next, state reasons (e. g. set-aside aided under Regulation (EEC) No 2328/91, final cessation premium for vineyards, etc.): .....

.....

(c) In the case of livestock production, state:

— whether the aid is based on LU actually reduced: ..... (yes/no)

— whether the aid is based on LU present before the commitment: ..... (yes/no)

indicating calculation method used: .....

— For milk production, indicate:

Milk output	Year	Reference quantity accorded under Reg. 804/68 as amended	Reference quantity under suspension	Amount of compensation paid pursuant to Regulation (EEC) No 775/87
Annual average during reference period	19. . to 19. . incl.			
1st year	19. .			
2nd year	19. .			
...	...			

3.2. **'Production methods' method**

(i) Use the tables at 2 and 3.1 to enter the data available in connection with the 'production methods' method.

(ii) Indicate the 'production methods' used.

(iii) Show that the adoption of these production methods reduces output by at least 20 %.

4. — Total aid granted (in respect of all production types in receipt of aid for extensification)

Year when extensification started	Date of decision granting the aid	Eligible part of the aid granted	Amount of reimbursement requested	Reference year for the reimbursement requested
19. .				
19. .

— Has the beneficiary already received aid for: * setting aside arable land ..... (yes/no)

If yes, did the set-aside aid relate to land now under extensification? ..... (yes/no)

* conversion of production ..... (yes/no)

If yes, did the conversion aid relate to land now under extensification? ..... (yes/no)

(1) Show:

— in the table headings, the type of products produced on the farm and the units of measurement used (as given in the example);

— on the first line of the table, the annual average for each type of production on the farm (in hectares, tonnes, livestock units, etc.) during the reference period preceding the first year of application of the extensification measures (total areas or total productions recorded in each reference year, divided by the number of years included in the reference period);

— on the second line of the table, the areas or quantities recorded for each type of production during the first year of implementation of the extensification measures.

(2) Complete a separate table for each type of production (cereals, wine, beef and veal, etc.), and, where necessary, complete the table to enable justification of the specific national aid scheme, showing how the aid is calculated on the basis of the undertaking made by the beneficiary, losses of income, location in an area where production and production systems are already extensive, the factors mentioned in Article 12 of Regulation (EEC) No 4115/88 or on the basis of other national criteria.

(3) For each type of production show the unit of measurement (hectares, hectolitres, number of livestock units for beef and veal, etc.) and the respective total quantities. For beef and veal production, show the destination of the animals withdrawn (slaughter, final export to a third county, etc.).

(4) For each type of production, show the agricultural area devoted to it: hectares of cereals, hectares under fodder for the feeding of beef cattle, etc.

(5) For each type of production, show the yield per unit of production (indicating the units of measurement used): quintals per hectare, hectolitres per hectare, etc.

For beef and veal, it should be shown that production is not intensified with regard to the remaining herd and that the production capacity freed through extensification is not used by anyone to increase production of the products referred to in Annex I to Regulation (EEC) No 4115/88 or for pig or poultry production.

(6) Show the variation in annual production (percentage reduction) in relation to the average during the reference period with regard to both total production (on the basis of the total quantities shown in columns 3 and 4) and to production per unit (on the basis of the yield per unit shown in column 6). The reduction in milk production is to be calculated on the basis of the reference quantity allocated pursuant to Regulation (EEC) No 804/68 as amended.

(7) Show the amount of aid eligible under the EAGGF granted for each type of production on the farm. With regard to milk production, show the amount of aid eligible under the EAGGF less the compensation paid pursuant to Regulation (EEC) No 775/87 as provided for in the second subparagraph of Article 3 (4) of Regulation (EEC) No 2328/91.

2.3. Total expenditure eligible for EAGGF funding

		A	B	C
		Areas with particularly serious handicaps (allowances increased)	Other less-favoured areas	All areas
1	Number of units qualifying for premium	(A1)	(B1)	(C1)
2	Amount of allowances paid	(A2)	(B2)	(C2)
3	Amount of allowances eligible	(A3)	(B3)	(C3) (*)

— Total reimbursement claimed from the EAGGF: .....

3. Is agriculture the farmer's main occupation? .....

Has the farmer undertaken to go on farming for at least five years? .....

Main enterprises on holding: .....

.....

Code of holding (Commission Decision 85/377/EEC): .....

Does the farmer draw a retirement pension? .....

Does the farmer draw any other old-age-related benefit? .....

In the affirmative, how much? .....

(*) *Explanatory note*

The amount eligible per holding is to be calculated as follows:

1. For holdings with more than 120 units, the amount eligible is the smaller of the following two amounts:
   — C2,
   — $(60 \times M) + (60 \times M/2) = 90\ M$,
2. For holdings with C1 units, with $60 < C1 < 120$, the amount eligible is the smaller of the following two amounts:
   — C2,
   — $(60 \times M) + [(C1 - 60) \times M/2] = (C1 + 60) \times (M/2)$.

The parameter M represents the maximum unit amount fixed in Article 19 (1) of the Regulation; where the natural handicaps are particularly serious, it is the increased amount. Where a holding has units which qualify for the premium in both areas with particularly serious handicaps and other areas, all the units in areas with serious handicaps should be taken into account first.
