COMMISSION

COMMISSION DECISION
of 21 December 1992
on codification for the message 'Animo'

(93/70/EEC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to Council Directive 90/425/EEC of 26 June 1990 concerning the veterinary and zootechnical checks applicable in intra-Community trade in certain live animals and products with a view to the completion of the internal market (1), as last amended by Directive 92/65/EEC (2), and in particular Article 20 (3) thereof,

Whereas in order to ensure functioning of the network on 3 December 1991 the Commission adopted Decision 91/637/EEC establishing the model for the message to be transmitted by means of the computerized network 'Animo' (3);

Whereas it is necessary to ensure the rapid understanding of 'Animo' message and effectively protect animal health, to define the code to be used for merchandise referred to in point 4 of the Annex to the Decision 91/637/EEC;

Whereas the presence of certain types of live animals and products in the codification foreseen by this decision does not imply as such that a message must be sent by means of the 'Animo' computerized network;

Whereas the measures provided for in this Decision are in accordance with the opinion of the Standing Veterinary Committee,

HAS ADOPTED THIS DECISION:

Article 1

The codes to be used for merchandise referred to in point 4 first indent of the Annex to the Decision 91/637/EEC, are defined by the Annex to this Decision.

Article 2

This Decision is addressed to the Member States.

Done at Brussels, 21 December 1992.
