COMMISSION DECISION

of 18 April 1994

concerning veterinary certification for placing on the market in the United Kingdom and Ireland of dogs and cats not originating in those countries

(94/273/EC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Directive 92/65/EEC of 13 July 1992 concerning laying down animal health requirements governing trade in and imports into the Community of animals, semen, ova and embryos not subject to animal health requirements laid down in specific Community rules referred to in Annex A (I) to Directive 90/425/EEC [1], and in particular Article 10 (3) (a) (vii) thereof,

Whereas it is necessary to establish a veterinary certificate for dogs and cats that are placed on the market in the United Kingdom and Ireland and not originating in those countries;

Whereas the animals concerned must fulfil the relevant necessary health conditions, as reflected in the certificate and duly attested to by an authorized veterinarian;

Whereas conforming to Article 10 (3) (a) (vii) dogs and cats must be accompanied by an individual vaccination record;

Whereas the measures provided for in this Decision are in accordance with the opinion of the Standing Veterinary Committee,

HAS ADOPTED THIS DECISION:

Article 1

The model of the certificate provided for in Article 10 (3) (a) (vii) of Directive 92/65/EEC is established in the Annex.

Article 2

This Decision is addressed to the Member States.

V. **Health information**

I, the undersigned, certify that the animals described above meet the following requirements:

a) they have been examined today and show no clinical sign of disease:

b) they have been vaccinated against rabies for at least six months and, additionally, in the case of dogs, against canine distemper;

c) they have undergone, between the first and third month after a primary vaccination or a revaccination against rabies, a serological test showing a protective antibody titre of at least 0,5 international units. This serological test was carried out in accordance with the World Health Organisation specifications;

d) the owner or person responsible for the registered holding has provided me with a signed statement to the effect that:

'the animal/s (2) was/were (2) born on the registered holding and has/have (2) remained there since birth, with no contact with any wild animals susceptible to rabies.';

e) at the time of inspection they were fit to be transported on the intended journey in accordance with the provisions of Directive 91/628/EEC (5).

VI. **This certificate is valid for 10 days from the date of examination.**

Done at ....., on .....
(date of examination)

Stamp

.....
(Signature of official veterinarian or veterinarian responsible for the holding of origin and empowered for this purpose by the competent authority)

(5) This statement does not exempt transporters from their obligations in accordance with Community provisions in force in particular regarding the fitness of animals to be transported.
