(94/838/EC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Regulation (EEC) No 866/90 of 29 March 1990 on improving the processing and marketing conditions for agricultural products [1], as last amended by Regulation (EC) No 2843/94 [2], and in particular Article 10 (a) thereof,

Whereas Council Regulation (EEC) No 867/90 [3], extends the common measures to forestry products;

Whereas on 28 April 1994 the Spanish Government submitted to the Commission the Single Programming Document referred to in Article 10 (a) of Regulation (EEC) No 866/90, supplemented by additional information sent on 31 May, 27 July, 5 August and 28 October 1994; whereas that document contains the plans designated to improve the structures relating to the various product sectors referred to in Article 2 (1) of Regulation (EEC) No 866/90 and the aid applications referred to in Article 10 (a) of that Regulation;

Whereas the Single Programming Document meets the conditions of and contains the information required in Article 1 (3) of Commission Regulation (EC) No 860/94 of 18 April 1994 on plans and applications, in the form of operational programmes, for aid from the Guidance Section of the EAGGF for investments for improving the processing and marketing conditions for agricultural and forestry products [4];

Whereas the Single Programming Document was drawn up in agreement with the Member State concerned under the partnership as defined in Article 4 of Council Regulation (EEC) No 2052/88 of 24 June 1988 on the tasks of the Structural Funds and their effectiveness and on coordination of activities between themselves and with the operations of the European Investment Bank and the other existing financial instruments [5], as amended by Regulation (EEC) No 2081/93 [6];

Whereas the second indent of Article 2 of Commission Regulation (EEC) No 1866/90 of 2 July 1990 on arrangements for using the ecu for the purposes of the budgetary management of the Structural Funds [7], as amended by Regulation (EC) No 402/94 [8], provides that in Commission decisions approving Single Programming Documents, the Community assistance decided upon for the entire period and the annual breakdown thereof are to be set out in ecus, at prices for the year in which the decision is taken, and are to be subject to indexation; whereas the annual breakdown must be compatible with the progressive increase in commitment appropriations as set out in Annex II to Regulation (EEC) No 2052/88 as amended; whereas the indexation is to be based on a single rate per year corresponding to the rates applied annually to the Community budget on the basis of the mechanisms for technical adjustment of the financial perspectives;

Whereas Article 1 of the Financial Regulation of 21 December 1977 applicable to the general budget of the European Communities [9], as last amended by Regulation (ECSC, EC, Euratom) No 2730/94 [10], provides that the legal commitments entered into for measures extending over more than one financial year are to contain a time limit for implementation which must be specified to the recipient in due form when the aid is granted;

Whereas, during the implementation of the Single Programming Document, the Member State will ensure that the individual projects included therein will confirm with the selection criteria for investments for improving the processing and marketing conditions for agricultural products currently in force, in application of Article 8 (1) of Regulation (EEC) No 866/90;
