# COMMISSION DECISION

## of 13 June 1997

## on marking and use of pigmeat in application of Article 9 of Council Directive 80/217/EEC concerning Belgium and repealing Decision 97/294/EC

**(Text with EEA relevance)**

(97/381/EC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Directive 80/217/EEC of 22 January 1980 introducing Community measures for the control of classical swine fever [1], as last amended by Decision 93/384/EEC [2], and in particular Article 9 (6) (g) thereof,

Whereas in February 1997 outbreaks of classical swine fever in the Netherlands were declared by the Dutch Veterinary Authorities;

Whereas in accordance with Article 9 (1) of Directive 80/217/EEC a surveillance zone was immediately established around outbreak sites;

Whereas the surveillance zone for an outbreak confirmed in Gastel in May was established in collaboration with the Belgian Veterinary Authorities as the zone included part of the territory of Belgium;

Whereas all pig holdings in the part of the surveillance zone covering a part of the territory of Belgium have been subject to a weekly inspection by a veterinarian. During this inspection samples for laboratory examination are collected if deemed necessary. No evidence of classical swine fever in the zone has been detected;

Whereas the provisions for the use of a health mark on fresh meat are given in Council Directive 64/433/EEC on health conditions for the production and marketing of fresh meat [3] as last amended by Directive 95/23/EC [4];

Whereas Belgium has submitted a request for the adoption of a specific solution concerning marking and use of pigmeat coming from pigs kept on holdings situated in an established surveillance zone and slaughtered subject to a specific authorization issued by the competent authority;

Whereas it is necessary to repeal Commission Decision 97/294/EC of 7 May 1997 on marking and use of pigmeat in application of Article 9 of Council Directive 80/217/EEC concerning Belgium [5];

Whereas the measures provided for in this Decision are in accordance with the opinion of the Standing Veterinary Committee,

HAS ADOPTED THIS DECISION:

*Article 1*

1. Without prejudice to the provisions of Council Directive 80/217/EEC, in particular Article 9 (6), Belgium is authorized to apply the mark described in Article 3 (1) (A) (e) of Directive 64/433/EEC to pigmeat obtained from pigs originating from holdings situated in a surveillance zone in Belgium established in accordance with the provisions of Article 9 (1) of Directive 80/217/EEC on the condition that the pigs in question:

(a) originate from a holding to which, following the epidemiological inquiry, no contact has been established with an infected holding;

(b) originate from a holding which for a period of at least three weeks has been subject to a weekly inspection by a veterinarian. The inspection has included all pigs kept on the holding;

(c) have been subject to protection measures established in accordance with Article 9 (6) (f) and (g) of Directive 80/217/EEC;

(d) have been included in a programme for monitoring body temperature and clinical examination. The programme shall be carried out as given at Annex I;

(e) have been slaughtered within 12 hours of arrival at the slaughterhouse.

2. Belgium shall ensure that a certificate as given at Annex II is issued in respect of meat referred to in paragraph 1.

*Article 2*

Pigmeat which complies with the conditions of Article 1 (1) and enters into intra-Community trade must be accompanied by the certificate referred to in Article 1 (2).

[2] OJ No L 166, 8. 7. 1993, p. 34.
[3] OJ No 121, 29. 7. 1964, p. 2012/64.
[4] OJ No L 243, 11. 10. 1995, p. 7.
[5] OJ No L 121, 13. 5. 1997, p. 24.

*Article 3*

Belgium shall ensure that abattoirs designated to receive the pigs referred to in Article 1 (1) do not on the same day accept pigs for slaughter other than the pigs in question.

*Article 4*

Belgium shall provide Member States and the Commission with:

(a) the name and location of slaughterhouses designated to receive pigs for slaughter referred to in Article 1 (1);

(b) a monthly report which contains information on:

— the area to which the provisions of Article 1 apply,

— number of pigs slaughtered at the designated slaughterhouses,

— identification system and movement controls applied to slaughter pigs, as required in accordance with Article 9 (6) (f) (i) of Directive 80/217/EEC,

— instructions issued concerning the application of the programme for monitoring body temperature referred to in Annex I.

*Article 5*

Decision 97/294/EC is hereby repealed.

*Article 6*

This Decision is applicable until 1 August 1997.

*Article 7*

This Decision is addressed to the Member States.

Done at Brussels, 13 June 1997.

*ANNEX I*

## MONITORING OF BODY TEMPERATURE

The programme for monitoring body temperature and clinical examination referred to in Article 1 (1) (d) shall include the following:

1. Within the 24-hour period before loading a consignment of pigs intended for slaughter, the official veterinary authority shall ensure that the body temperature of a number of pigs of the said consignment is monitored by inserting a thermometer into the rectum. The number of pigs to be monitored for temperature shall be as given below:

| No of pigs in consignment | No of pigs to be monitored |
|---|---|
| 0 - 25 | all |
| 26 - 30 | 26 |
| 31 - 40 | 31 |
| 41 - 50 | 35 |
| 51 - 100 | 45 |
| 101 - 200 | 51 |
| 200 + | 60 |

At the time of examination, the following information shall be recorded for each pig on a table issued by the competent veterinary authorities: number of eartags, time of examination and temperature.

In cases where the examination shows a temperature of 40 °C or above, the official veterinarian shall immediately be informed. He shall initiate a disease investigation and take into account the provisions of Article 4 of Council Directive 80/217/EEC introducing Community measures for the control of classical swine fever.

2. Shortly (0 to 3 hours) before loading of the consignment examined as described in point 1, a clinical examination shall be carried out by an official veterinarian designated by the competent veterinary authorities.

3. At the time of loading of the consignment of pigs examined as described in points 1 and 2, the official veterinarian shall issue a health document, which shall accompany the consignment to the designated slaughterhouse.

4. At the slaughterhouse of designation the results of the temperature monitoring shall be made available to the official veterinarian who performs the ante-mortem examination.

*ANNEX II*

**CERTIFICATE**

**for fresh meat referred to in Article 1 (1) of Commission Decision 97/381/EC**

No (1) .....

Place of loading: .....

Ministry: .....

Department: .....

I. **Identification of meat**

Meat of pigs

Nature of cuts: .....

Number of cuts or packages: .....

Net weight: .....

II. **Origin of meat**

Address and veterinary approval number of the approved slaughterhouse:

.....

.....

III. **Destination of meat**

The meat will be sent

from: .....

(place of loading)

to: .....

(place of destination)

by the following means of transport (2) .....

Name and address of consignee: .....

.....

.....

(1) Serial number issued by the official veterinarian.

(2) In the case of rail trucks and lorries, state the registration number and in the case of boats, name and, where necessary, the number of the container.

IV. **Health attestation**

I, the undersigned official veterinarian, certify that the meat described above was obtained under the conditions governing production and control laid down in Directive 64/433/EEC and is in conformity with the provisions of Decision 97/381/EC on marking and use of pigmeat in application of Article 9 of Directive 80/217/EEC.
