COMMISSION DECISION

of 28 July 1997

amending Decision 93/70/EEC on codification for the message 'Animo'

(Text with EEA relevance)

(97/628/EC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Directive 90/425/EEC of 26 June 1990 concerning the veterinary and zootechnical checks applicable to intra-Community trade in certain live animals and products with a view to the completion of the internal market[1], as last amended by Directive 92/118/EEC[2], and in particular Article 20 (3) thereof,

Whereas, in order to ensure that the Animo message is quickly understood, the Commission, by Decision 93/70/EEC[3], as amended by Decision 94/295/EC[4], has stipulated the codes to be used for animals and animal products;

Whereas, in the light of the experience gained, substantial changes have been made to the data file relating to the codes for the animals products to improve its use;

Whereas the Annex to Decision 93/70/EEC should be amended to adjust it to the corresponding data file in the new software;

Whwereas the fact that certain live animals and products are included in the codification does not mean that a message has to be sent by means of the computerized Animo network;

Whereas the codification of live animals and of products will be re-examined when the decisions needed to introduce the Shift project are being adopted;

Whereas the measures laid down in this Decision are in accordance with the opinion of the Standing Veterinary Committee,
