THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Regulation (EEC) No 2455/92 of 23 July 1992 concerning the export and import of certain dangerous chemicals ([1]), as last amended by Regulation (EC) No 2247/98 ([2]), and in particular Article 5(2) thereof,

Whereas:

(1) Regulation (EEC) No 2455/92 provides that the Commission is to decide for each chemical subject to the Prior Informed Consent (PIC) procedure whether or not the Community consents, possibly subject to specified conditions, to its import.

(2) The United Nations Environment Programme (UNEP) and the Food and Agriculture Organisation (FAO) have been appointed to provide secretariat services for the operation of the interim PIC procedure established by the Final Act of the Conference of Plenipotentiaries on the Convention on the Prior Informed Consent (PIC) Procedure for Certain Hazardous Chemicals and Pesticides in International Trade, signed at Rotterdam on 10 September 1998, in particular the Resolution on interim arrangements thereof.

(3) Additional chemicals have been added to the interim PIC procedure, as pesticide or pesticide formulation, for which the Commission has received information from the interim Secretariat in the form of decision guidance documents.

(4) The Commission, acting as common designated authority, is required to forward decisions on chemicals to the Secretariat of the interim PIC procedure, on behalf of the Community and its Member States.

(5) The interim Secretariat has requested that the participants in the PIC procedure use the specific form for importing country response to report on their import decisions.

(6) The Commission is required, whenever practicable, to make use of existing Community procedures and to ensure that the responses do not conflict with existing Community legislation. However, the Commission also needs to take into consideration Member States' bans or severe restrictions, pending a Community decision.

(7) The substances binapacryl, captafol, hexachlorobenzene, pentachlorophenol and toxaphene are banned or severely restricted at Community level, in particular by Council Directive 79/117/EEC of 21 December 1978 prohibiting the placing on the market and use of plant protection products containing certain active substances ([3]), as last amended by Directive 91/188/EEC ([4]), or by Council Directive 76/769/EEC of 27 July 1976 on the approximation of the laws, regulations and administrative provisions of

the Member States relating to restrictions on the marketing and use of certain dangerous substances and preparations [1], as last amended by Directive 1999/77/EC [2]. Accordingly, a final decision on import should be taken for these substances.

(8) The substances 2,4,5-T, chlorobenzilate, lindane, methamidophos, methylparathion, monochrotophos, parathion and phosphamidon are subject to Community legislation, and in particular to Council Directive 91/414/EEC of 15 July 1991 concerning the placing of plant protection products on the market [3], as last amended by Directive 2000/50/EC [4], or Directive 98/8/EC of the European Parliament and of the Council of 16 February 1998 concerning the placing of biocidal products on the market [5], both providing for a transitional period during which the Member States are allowed to take national decisions on substances and products falling within their scopes, pending a Community decision. Accordingly, an interim decision on import should be taken for these substances.

(9) The measures provided for in this Decision are in accordance with the opinion of the Committee set up pursuant to Article 29 of Council Directive 67/548/EEC [6],

HAS DECIDED AS FOLLOWS:

Sole Article

The decisions on import concerning the chemical substances 2,4,5-T, binapacryl, captafol, chlorobenzilate, hexachlorobenzene, lindane, methamidophos, methylparathion, monochrotophos, parathion, pentachlorophenol, phosphamidon and toxaphene are hereby adopted as reported on the importing country response forms contained in the Annex.

X Final decision ***(Fill in section 5, page 2)*** **OR** ❑ **Interim response** ***(Fill in section 6, pages 3 and 4)***

SECTION 5. FINAL DECISION, PURSUANT TO NATIONAL LEGISLATIVE OR ADMINISTRATIVE MEASURES

5.1. **X No consent to import**

Is the import of the chemical from all sources simultaneously prohibited? **X** Yes ❑ No

Is domestic production of the chemical for domestic use simultaneously prohibited? **X** Yes ❑ No

5.2. ❑ **Consent to import**

5.3. ❑ **Consent to import only subject to specified conditions**

Are the conditions for import of the chemical the same for all sources of import? ❑ Yes ❑ No

Are the conditions for domestic production of the chemical for domestic use the same as for all imports? ❑ Yes ❑ No

5.4. **NATIONAL LEGISLATIVE OR ADMINISTRATIVE MEASURE UPON WHICH THE FINAL DECISION IS BASED**

Description of the national legislative or administrative measure:

It is prohibited to produce, place on the market or use hexachlorobenzene. The chemical, whether on its own, in preparations or as a constituent of articles was banned by Regulation (EC) No 850/2004 of the European Parliament and of the Council of 29 April 2004 on persistent organic pollutants and amending Directive 79/117/EEC (OJ L 229, 29.6.2004, p. 5).

The complete name and address of the institution/authority responsible for issuing this national legislative or administrative measure:

European Community and its Member States (see address in section 8).

SECTION 6. INTERIM RESPONSE

6.1. ❑ **No consent to import**

Is the import of the chemical from all sources simultaneously prohibited? ❑ Yes ❑ No

Is domestic production of the chemical for domestic use simultaneously prohibited? ❑ Yes ❑ No

6.2. ❑ **Consent to import**

6.3. X **Consent to import only subject to specified conditions**

The specified conditions are:

It is prohibited to use or place on the market pentachlorophenol except for certain specific exemptions. The chemical was excluded from Annex I to Council Directive 91/414/EEC of 15 July 1991 concerning the placing of plant protection products on the market (OJ L 230, 19.8.1991, p. 1) and authorisations for plant protection products thus had to be withdrawn by 25 July 2003 (Commission Regulation (EC) No 2076/2002 (OJ L 319, 23.11.2002, p. 3) extending the time period referred to in Article 8(2) of Directive 91/414/EEC and concerning the non-inclusion of certain active substances in Annex I to that Directive and the withdrawal of authorisations for plant protection products containing these substances). The chemical has however been identified, though not notified, under the Community review programme for evaluation of existing active substances under Directive 98/8/EC of the European Parliament and of the Council of 16 February 1998 concerning the placing of biocidal products on the market (OJ L 123, 24.4.1998, p. 1). Accordingly Member States may temporarily authorise such uses provided that these comply with Commission Directive 1999/51/EC of 26 May 1999 adapting to technical progress for the fifth time Annex I to Council Directive 76/769/EEC on the approximation of the laws, administrative provisions of the Member States relating to restrictions on the marketing and use of certain dangerous substances and preparations (tin, PCP and cadmium) (OJ L 142, 5.6.1999, p. 22).

In accordance with that Directive, pentachlorophenol, its salts and its esters shall not be used in a concentration equal to or greater than 0,1 % by mass in substances or preparations placed on the market.

By way of derogation, until 31 December 2008, France, Ireland, Portugal, Spain and the United Kingdom may choose not to apply this provision to substances and preparations intended for use in industrial installations not permitting the emission and/or discharge of pentachlorophenol (PCP) in quantities greater than those prescribed by existing legislation:

(a) in the treatment of wood. However, treated wood may not be used inside buildings or for the manufacture and re-treatment of: (i) containers intended for growing purposes; (ii) packaging that may come into contact with raw materials, intermediate or finished products destined for human and/or animal consumption; (iii) other materials that may contaminate the products mentioned in (i) and (ii);

(b) in the impregnation of fibres and heavy-duty textiles not intended in any case for clothing or for decorative furnishings;

(c) by way of special exception, Member States may, on a case-by-case basis, authorise on their territory specialised professionals to carry out *in situ* and for buildings of cultural, artistic and historical interest, or in emergencies, a remedial treatment of timber and masonry infected by dry rot fungus (*Serpula lacrymans*) and cubic rot fungi.

In any case pentachlorophenol used alone or as a component of preparations employed within the framework of the above exceptions must have a total hexachlorodibenzoparadioxin (HCDD) content of not more than 2 ppm; may not be placed on the market except in packages of 20 litres or more; and may not be sold to the general public.

Without prejudice to other packaging and labelling requirements, the packaging of such preparations should be marked clearly and indelibly: 'Reserved for industrial and professional use'.
