(2005/59/EC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Directive 2001/89/EC of 23 October 2001 on Community measures for the control of classical swine fever [1], and in particular the second subparagraph of Article 16(1) and Article 20(2) thereof,

Whereas:

(1) In 2004 classical swine fever was present in the feral pig population in certain areas of Slovakia. In response to the outbreaks of classical swine fever the Commission has adopted Decisions 2004/375/EC [2], 2004/625/EC [3] and 2004/831/EC [4] amending Commission Decision 2003/526/EC of 18 July 2003 concerning protection measures relating to classical swine fever in certain Member States [5] which established certain additional disease control measures.

(2) Slovakia put in place an intensive programme to survey classical swine fever in feral pigs in the whole country and especially in the infected area. That programme is still ongoing.

(3) Accordingly, Slovakia has now submitted for approval a plan for the eradication of classical swine fever in feral pigs in the District Veterinary and Food Administrations (DVFA) of Trnava (comprising Piešťany, Hlohovec and Trnava districts), Levice (comprising Levice district), Nitra (comprising Nitra and Zlaté Moravce districts), Topoľčany (comprising Topoľčany district), Nové Mesto nad Váhom (comprising Nové Mesto nad Váhom district), Trenčín (comprising Trenčín and Bánovce nad Bebravou districts) Prievidza (comprising Prievidza and Partizánske districts), Púchov (comprising Púchov and Ilava districts), Žiar nad Hronom (comprising Žiar nad Hronom, Žarnovica and Banská Štiavnica districts), Zvolen (comprising Zvolen and Detva districts), Banská Bystrica (comprising Banská Bystrica and Brezno districts), Lučenec (comprising Lučenec and Poltár districts), Krupina and Veľký Krtíš.

(4) In addition, as Slovakia intends to introduce vaccination of feral pigs in the districts of Trenčín, Bánovce nad Bebravou, Prievidza, Partizánske, Zvolen, Krupina, Detva, Veľký Krtíš, Lučenec and Poltár it has also submitted a plan of emergency vaccination for approval.

(5) The Slovakian authorities have authorised the use of a live attenuated vaccine against classical swine fever (C strain) to be used for the immunisation of feral pigs by means of oral bait.

▼B

(6) The plans for the eradication of classical swine fever in feral pigs and the emergency vaccination of such pigs in the designated areas, as submitted by Slovakia, have been examined and found to comply with Directive 2001/89/EC.

(7) For the sake of transparency it is appropriate to set out in this Decision the geographical areas where the eradication and emergency vaccination plans are to be implemented.

(8) The measures provided for in this Decision are in accordance with the opinion of the Standing Committee on the Food Chain and Animal Health,

HAS ADOPTED THIS DECISION:

Article 1

The plan submitted by Slovakia for the eradication of classical swine fever in feral pigs in the area, as set out in point 1 of the Annex, is approved.

Article 2

The plan submitted by Slovakia for the emergency vaccination of feral pigs in the area, as set out in point 2 of the Annex, is approved.

Article 3

Slovakia shall immediately take the necessary measures to comply with this Decision and publish those measures. They shall immediately inform the Commission thereof.

Article 4

This Decision is addressed to the Slovak Republic.

▼M3

ANNEX

1. **Areas where the plan for the eradication of classical swine fever in feral pigs is to be implemented:**

   The territory of the District Veterinary and Food Administrations (DVFA) of Žiar nad Hronom (comprising the Žiar nad Hronom, Žarnovica and Banská Štiavnica districts), Zvolen (comprising the Zvolen, Krupina and Detva districts), Lučenec (comprising the Lučenec and Poltár districts), Veľký Krtíš (comprising the Veľký Krtíš district), Komárno (comprising the territory located east of the highway 64, north of the border with Hungary and west of the district Nové Zámky), Nové Zámky (comprising the territory located east of the district Komárno and east of the highway 64, south of highway 75 and north of the border with Hungary) and Levice (comprising the territory located east of the district Nové Zámky and east of the highway 66 (E77), south of highway 75, north of the border with Hungary and west of district Veľký Krtíš).

2. **Areas where the plan for the emergency vaccination against classical swine fever of feral pigs is to be implemented:**

   The territory of the District Veterinary and Food Administrations (DVFA) of Žiar nad Hronom (comprising the Žiar nad Hronom, Žarnovica and Banská Štiavnica districts), Zvolen (comprising the Zvolen, Detva and Krupina districts), Lučenec (comprising the Lučenec and Poltár districts) and Veľký Krtíš (comprising the Veľký Krtíš district).
