DECISIONS

COMMISSION

COMMISSION DECISION

of 29 August 2007

amending Annex IV to Council Directive 90/539/EEC as regards model veterinary certificates for intra-Community trade in poultry and hatching eggs to take account of certain public health requirements

(notified under document number C(2007) 3999)

(Text with EEA relevance)

(2007/594/EC)

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Community,

Having regard to Council Directive 90/539/EEC of 15 October 1990 on animal health conditions governing intra-Community trade in, and imports from third countries of, poultry and hatching eggs [1], and in particular Article 34 thereof,

Having regard at Regulation (EC) No 882/2004 of the European Parliament and of the Council of 29 April 2004 on official controls performed to ensure the verification of compliance with feed and food law, animal health and animal welfare rules [2], and in particular Article 30(1)(b) thereof,

Whereas:

(1) Directive 90/539/EEC lays down animal health conditions governing intra-Community trade in, and imports from third countries of, poultry and hatching eggs, including the condition that poultry and hatching eggs during transportation to the place of destination are to be accompanied by a veterinary certificate which conforms with the appropriate model certificates in Annex IV to that Directive.

(2) Those veterinary certificates provide for guarantees with regard to certain animal diseases. However, they do not contain any information with regard to public health, such as information on testing for certain zoonoses and zoonotic agents.

(3) Regulation (EC) No 2160/2003 of the European Parliament and of the Council of 17 November 2003 on the control of salmonella and other specified food-borne zoonotic agents [3] provides that the flocks of origin of poultry covered by that Regulation are to be tested for certain specified zoonoses and zoonotic agents prior to any dispatch from the food business of origin of live animals or hatching eggs. The date and the results of testing are to be included in the relevant veterinary certificates, provided for in Community legislation, from the dates indicated in Annex I to that Regulation. Those requirements apply to live breeding animals and hatching eggs from 1 January 2007 and are to apply to laying hens from 1 February 2008 and to broilers from 1 January 2009.

[1] OJ L 303, 31.10.1990, p. 6. Directive as last amended by Directive 2006/104/EC (OJ L 363, 20.12.2006, p. 352).

[2] OJ L 165, 30.4.2004, p. 1, corrected by OJ L 191, 28.5.2004, p. 1. Regulation as last amended by Council Regulation (EC) No 1791/2006 (OJ L 363, 20.12.2006, p. 1).

[3] OJ L 325, 12.12.2003, p. 1. Regulation as last amended by Regulation (EC) No 1791/2006.

(4) Regulation (EC) No 882/2004 lays down requirement for the adoption of model health certificates to verify compliance with Community rules aiming at the prevention, elimination, or reduction to acceptable levels of risks to human and animal health. In the interests of coherence and simplicity of Community legislation, a single model certificate should, where appropriate, combine requirements concerning official certification of feed and food and other relevant requirements.

(5) Taking account of the testing requirements for public health reasons pursuant to Regulation (EC) No 2160/2003, the animal health requirements of Directive 90/539/EEC, and the appropriateness to combine all certifications into a single model certificate, new model certificates for poultry and hatching eggs should be introduced in Community legislation and should replace the model certificates in Directive 90/539/EEC.

(6) In October 2004 Denmark introduced the systematic prophylactic vaccination of poultry against Newcastle disease. Denmark should therefore no longer be listed as a country having an EC-approved non-vaccinating status for Newcastle disease in the model health certificates set out in Directive 90/539/EEC.

(7) Commission Decision 2006/415/EC of 14 June 2006 concerning certain protection measures in relation to highly pathogenic avian influenza of the subtype H5N1 in poultry in the Community and repealing Decision 2006/135/EC ([1]), Commission Decision 2006/563/EC of 11 August 2006 concerning certain protection measures in relation to highly pathogenic avian influenza of subtype H5N1 in wild birds in the Community and repealing Decision 2006/115/EC ([2]) and Commission Decision 2006/605/EC of 6 September 2006 on certain protection measures in relation to intra-Community trade in poultry intended for restocking of wild game supplies ([3]) lay down certain provisions concerning authorisations for movements of live poultry and hatching eggs from areas subject to certain restrictions.

(8) In addition, Council Directive 2005/94/EC of 20 December 2005 on Community measures for the control of avian influenza and repealing Directive 92/40/EEC ([4]) provides for the approval of vaccination plans against avian influenza in certain Member States.

(9) Taking account of those provisions of Decisions 2006/415/EC, 2006/563/EC, 2006/605/EC and Directive 2005/94/EC, certain amendments should be made to the current model veterinary certificates set out in Directive 90/539/EEC.

(10) It is appropriate for the certificates to be presented in accordance with the standardised layout of veterinary certificates as set out in Commission Decision 2004/292/EC of 30 March 2004 on the introduction of the Traces system and amending Decision 92/486/EEC ([5]).

(11) Commission Regulation (EC) No 599/2004 of 30 March 2004 concerning the adoption of a harmonised model certificate and inspection report linked to intra-Community trade in animals and products of animal origin ([6]) provides that the various veterinary certificates required in the context of intra-Community are to be presented on the basis of the harmonised model certificates annexed to that Regulation. Accordingly, it is necessary to harmonise the model veterinary certificates set out in Directive 90/539/EEC.

(12) Directive 90/539/EEC should therefore be amended accordingly.

(13) The measures provided for in this Decision are in accordance with the opinion of the Standing Committee on the Food Chain and Animal Health,

HAS ADOPTED THIS DECISION:

Article 1

Annex IV to Directive 90/539/EEC is replaced by the text in the Annex to this Decision.

Article 2

This Decision shall apply from 1 September 2007.

([1]) OJ L 164, 16.6.2006, p. 51. Decision as last amended by Decision 2007/556/EC (OJ L 212, 14.8.2007, p. 10).
([2]) OJ L 222, 15.8.2006, p. 11. Decision as last amended by Decision 2007/119/EC (OJ L 51, 20.2.2007, p. 22).
([3]) OJ L 246, 8.9.2006, p. 12.
([4]) OJ L 10, 14.1.2006, p. 16.
([5]) OJ L 94, 31.3.2004, p. 63. Decision as amended by Decision 2005/515/EC (OJ L 187, 19.7.2005, p. 29).
([6]) OJ L 94, 31.3.2004, p. 44.

However, the following provisions of the Models set out in Annex IV to Directive 90/539/EEC, as amended by this Decision, shall apply from the following dates:

(a) point II.2(a) of the veterinary certificate in Model 2 for day-old chicks, shall apply from:

(i) 1 February 2008 where those chicks are solely intended for the production of eggs other than hatching eggs; or

(ii) 1 January 2009 where those chicks are solely intended for meat production.

(b) point II.2(a) of the veterinary certificate in Model 3 for breeding and productive poultry, shall apply from:

(i) 1 February 2008 where those poultry are solely intended for the production of eggs other than hatching eggs; or

(ii) 1 January 2009 where those poultry are solely intended for meat production.

(c) point II.2(a) of the veterinary certificate in Model 4 for poultry, day-old chicks and hatching eggs, shall apply from:

(i) 1 February 2008 where those poultry or chicks are solely intended for the production of eggs other than hatching eggs; or

(ii) 1 January 2009 where those poultry or chicks are solely intended for meat production.

(d) point II.2(a) of the veterinary certificate in Model 5 for slaughter poultry, shall apply from:

(i) 1 February 2008 where those poultry are solely intended for the production of eggs other than hatching eggs; or

(ii) 1 January 2009 where those poultry are solely intended for meat production.

Article 3

This Decision is addressed to the Member States.

Done at Brussels, 29 August 2007.

For the Commission

Markos KYPRIANOU

Member of the Commission

EUROPEAN COMMUNITY **Hatching eggs**

Part II: Certification

II.1. **Animal health attestation**	II.a. Certificate reference number	II.b. Local reference number

I, the undersigned official veterinarian, certify that the hatching eggs described above:

(a) comply with

([1]) either [the provisions of Articles 6, 7 and 15 of Council Directive 90/539/EEC]

([1]) ([2]) or [the provisions of Articles 6 (1) (a), (b) and (2), 7 and 15 of Council Directive 90/539/EEC];

([3]) (b) comply with the provisions of Article 12 (1) (a) of Council Directive 90/539/EEC.

([4]) (c) comply with the provisions of Commission Decision(s): ...../..... /EC concerning additional guarantees with regard to ..... (indicate disease(s)) and in accordance with Article 13 or Article 14 of Council Directive 90/539/EEC.

(d) come from poultry which:

([1]) either [have not been vaccinated against Newcastle disease;]

([1]) or [have been vaccinated against Newcastle disease using:

.....

(name and type (live or inactivated) of Newcastle disease virus strain used in vaccine(s))

On ..... (date) at the age of ..... weeks].

II.2. **Public health attestation**

I, the undersigned official veterinarian, certify that the hatching eggs described above:

([5]) (a) come from a flock which has been tested for *Salmonella* serotypes with public health significance in accordance with Regulation (EC) No 2160/2003.

Date of last sampling of the flock from which the testing result is known: .....

Result of all testing in the flock:

([1]) ([6]) *either* [positive;]

([1]) ([6]) *or* [*negative*]

([5]) (b) and, neither *Salmonella* Enteritidis nor *Salmonella* Typhimurium were detected within the control programme referred to in point II.2(a).

II.3. **Additional health information**

([1]) ([7]) II.3.1. The consignment consists of live poultry/day-old chicks/hatching eggs originating from holdings where no vaccination against avian influenza has been carried out.

([1]) II.3.2. This consignment complies with the animal health conditions laid down in Commission Decision 2006/415/EC.

([1]) II.3.3. This consignment complies with the animal health conditions laid down in Commission Decision 2006/563/EC.

Notes

Part I:

— **Box reference I.16:** Registration number (railway wagons or container and lorries), flight number (aircraft) or name (ship).

— **Box reference I.31:** Category: select one of the following: pure line/grandparents/parents/laying pullets/fattening/others.

Identification: indicate the identification details of parent flock and brand name.

Age: provide the date of collection.

Part II:

([1]) Keep as appropriate.
([2]) Only applicable if II.3.2. or II.3.3. are complied with.
([3]) To certify in case of dispatch to a Member State, which has an EC-approved non-vaccinating status for Newcastle disease currently: Finland and Sweden otherwise delete reference.
([4]) Complete if appropriate.
([5]) The certification under points II.2 only applies if the poultry belongs to the species *Gallus gallus*.
([6]) If any of the results were positive for *Salmonella* Infantis, *Salmonella* Virchow or *Salmonella* Hadar during the life of the flock, indicate as positive.
([7]) Only applicable for Member States which carry out vaccination against avian influenza according to EC approved vaccination plan.
— The colour of the stamp and signature must be different from that of the other particulars in the certificate.

EUROPEAN COMMUNITY **Day-old chicks**

II.a. Certificate reference number	II.b. Local reference number

Part II: Certification

II.1. **Animal health attestation**

I, the undersigned official veterinarian, hereby certify that the day-old chicks described above:

(a) comply with:

([1]) either (i)[the provisions of Articles 6, 8 and 15 of Council Directive 90/539/EEC]

([1]) ([2]) ([3]) or [the provisions of Articles 6 (1) (a), (b) and (2), 8 and 15 of Council Directive 90/539/EEC];

([1]) or (ii) [if derived from hatching eggs imported according to the requirements of Model HEP of Commission Decision 2006/696/EC, with the provision of Article 6 (1) and Article 8 (b) and (c) of Council Directive 90/539/EEC].

([1]) ([2]) ([3]) or [if derived from hatching eggs imported according to the requirements of Model HEP of Commission Decision 2006/696/EC, with the provision of Article 6 (1) (a), (b) and Article 8 (b) and (c) of Council Directive 90/539/EEC].

([4]) (b) comply with Article 12 (1)(b) of Council Directive 90/539/EEC.

([5]) (c) comply with the provisions of Commission Decision(s): ...../...../EC concerning additional guarantees with regard to ..... (indicate disease(s)) in accordance with Article 13 or 14 of Council Directive 90/539/EEC.

([1]) (d) either [have not been vaccinated against Newcastle disease;]

([1]) or [have been vaccinated against Newcastle disease using:

.....

(name and type (live or inactivated) of Newcastle disease virus strain used in vaccine(s))

on ..... (date)].

(e) come from poultry which:

([1]) either [have not been vaccinated against Newcastle disease;]

([1]) or [have been vaccinated against Newcastle disease using:

.....

(name and type (live or inactivated) of Newcastle disease virus strain used in vaccine(s))

on ..... (date)].

([1]) (f) that the day-old chicks for introduction into flocks of breeding poultry or flocks of productive poultry come from flocks which have been tested with negative results according to the rules laid down in Commission Decision 2003/644/EC of 8 September 2003 establishing additional guarantees regarding salmonella for consignments to Finland and Sweden of breeding poultry and day-old chicks for introduction into flocks of breeding poultry or flocks of productive poultry.

II.2. **Public health attestation**

I, the undersigned official veterinarian, hereby certify that the day-old chicks described above:

([6]) (a) come from a flock which has been tested for *Salmonella* serotypes with public health significance in accordance with Regulation (EC) No 2160/2003.

Date of last sampling of the flock from which the testing result is known: .....

Result of all testing in the flock:

([1]) ([7]) *either* [positive;]

([1]) ([7]) *or [negative]*

([6]) (b) and, if intended for breeding, neither *Salmonella* Enteritidis nor *Salmonella* Typhimurium were detected within the control programme referred to in point II.2(a).

II.3. **Additional health information**

([1]) ([8]) II.3.1. The consignment consists of live poultry/day-old chicks/hatching eggs originating from holdings where no vaccination against avian influenza has been carried out.

([1]) II.3.2. This consignment complies with the animal health conditions laid down in Commission Decision 2006/415/EC.

Notes

Part I:

— **Box reference I.6:** No(s) of accompanying animal health certificates.

— **Box reference I.16:** Registration number (railway wagons or container and lorries), flight number (aircraft) or name (ship).

— **Box reference I.19:** use the appropriate HS codes: 01.05, 01.06.39.

— **Box reference I.31:** Category: select one of the following: pure line/grandparents/parents/laying pullets/fattening/others.
Age: provide date hatched.
Number of packages: provide the number of crates or cages.

Part II:

([1]) Keep as appropriate.

([2]) Only applicable if II.3.2. is complied with.

([3]) In those cases where day-old chicks come from eggs imported from a third country the period of isolation on the holding of destination has to be respected as foreseen in Article 10 of Commission Decision 2006/696/EC. The competent authority of the final destination of the day-old chicks has to be informed through the TRACES system about this requirement.

([4]) To certify in case of dispatch to a Member State, which has an EC-approved non-vaccinating status for Newcastle disease currently: Finland and Sweden otherwise delete reference.

([5]) Complete if appropriate.

([6]) The guarantees given under points II.2 only apply if the day-old chicks belong to the species *Gallus gallus* and,
— They apply from 1 February 2008, if the day-old chicks are intended solely for production of eggs, other than hatching eggs.
— They apply from 1 January 2009, if the day-old chicks are intended solely for meat production.

([7]) If any of the results were positive for the serotypes below during the life of the flock, indicate as positive.
Flocks of breeding poultry: *Salmonella* Hadar, *Salmonella* Virchow and *Salmonella* Infantis.
Flocks of productive poultry: *Salmonella* Enteritidis and *Salmonella* Typhimurium.

([8]) Only applicable for Member States which carry out vaccination against avian influenza according to EC approved vaccination plan.
— The colour of the stamp and signature must be different from that of the other particulars in the certificate.

EUROPEAN COMMUNITY **Breeding and productive poultry**

II.a. Certificate reference number	II.b. Local reference number

Part II: Certification

II.1. **Animal health attestation**

I, the undersigned official veterinarian, certify that the poultry described above:

(a) comply with the provisions of Articles 6, 9 and 15 of Council Directive 90/539/EEC.

([1]) (b) comply with Article 12(1)(c) Council Directive 90/539/EEC.

([2]) (c) comply with the provisions of Commission Decision(s): ...../..... /EC concerning additional guarantees with regard to ..... (indicate disease(s)) in accordance with Article 13 or 14 of Council Directive 90/539/EEC.

([3]) (d) either [have not been vaccinated against Newcastle disease;]

([3]) or [have been vaccinated against Newcastle disease using:

.....

(name and type (live or inactivated) of Newcastle disease virus strain used in vaccine(s))

on ..... (date) at the age of ..... weeks].

([3]) (e) that the breeding poultry has been tested with negative results according to the rules laid down in Commission Decision 2003/644/EC of 8 September 2003 establishing additional guarantees regarding salmonella for consignments to Finland and Sweden of breeding poultry and day-old chicks for introduction into flocks of breeding poultry or flocks of productive poultry.

([3]) (f) that the laying hens (productive poultry reared with a view to producing eggs for consumption) have been tested with negative results according to the rules laid down in Commission Decision 2004/235/EC of 9 March 2004 establishing additional guarantees regarding salmonella for consignments to Finland and Sweden of laying hens (productive poultry reared with a view to producing eggs for consumption).

II.2. **Public health attestation**

I, the undersigned official veterinarian, certify that the poultry described above:

([4]) (a) come from a flock which has been tested for *Salmonella* serotypes with public health significance in accordance with Regulation (EC) No 2160/2003.

Date of last sampling of the flock from which the result is known: .....

Result of all testing in the flock:

([3]) ([5]) *either* [positive;]

([3]) ([5]) *or* [negative];

([4]) (b) and, if breeding poultry, neither *Salmonella* Enteritidis nor *Salmonella* Typhimurium were detected within the control programme referred to in point II.2(a).

II.3. **Additional health information**

([3]) ([6]) II.3.1. The consignment consists of live poultry/day-old chicks/hatching eggs originating from holdings where no vaccination against avian influenza has been carried out.

Notes

Part I:

— **Box reference I.16:** Registration number (railway wagons or container and lorries), flight number (aircraft) or name (ship).

— **Box reference I.19:** use the appropriate HS codes: 01.05, 01.06.39.

— **Box reference I.31:** Category: select one of the following: pure line/grandparents/parents/laying pullets/fattening/others.
Identification: indicate the identification details of flock of origin and brand name.

Part II:

([1]) To certify in case of dispatch to a Member State, which has an EC-approved non-vaccinating status for Newcastle disease currently: Finland and Sweden otherwise delete reference.

([2]) Complete if appropriate.

([3]) Keep as appropriate

([4]) The guarantees given under points II.2 apply only if the poultry belongs to the species *Gallus gallus*, and

— They apply from 1 February 2008, if the poultry is intended solely for the production of eggs, other than hatching eggs.

— They apply from 1 January 2009, if the poultry is reared solely for meat production.

([5]) If any of the results were positive for the serotypes below during the life of the flock, indicate as positive.

— Flocks of breeding poultry: *Salmonella* Hadar, *Salmonella* Virchow and *Salmonella* Infantis.

— Flocks of productive poultry: *Salmonella* Enteritidis and *Salmonella* Typhimurium.

([6]) Only applicable for Member States which carry out vaccination against avian influenza according to EC approved vaccination plan.

— The colour of the stamp and signature must be different from that of the other particulars in the certificate.

(a) (1) either [the poultry, day-old chicks or hatching eggs described above comply with the provisions of Article 11 of Council Directive 90/539/EEC.]

(1) (2) or [the poultry, day-old chicks or hatching eggs described above comply with the provisions of Article 11(1) and (2) first to fourth indent of Council Directive 90/539/EEC.]

(3) (b) the poultry, day-old chicks or hatching eggs described above comply with Article 12 (1) of Council Directive 90/539/EEC.

(1) (c) either (i) [the poultry;]

(1) or (ii) [day-old chicks;]

(1) or (iii) [hatching eggs;]

(4) comply with the provisions of Commission Decision(s): ...../...../EC concerning additional guarantees with regard to ..... (indicate disease(s)) in accordance with Article 13 or 14 of Council Directive 90/539/EEC.

(d) the poultry:

(1) either [have not been vaccinated against Newcastle disease;]

(1) or [have been vaccinated against Newcastle disease using:

.....

(name and type (live or inactivated) of Newcastle disease virus strain used in vaccine(s))

on ..... (date) at the age of ..... weeks].

(e) the day old chicks:

(1) either [have not been vaccinated against Newcastle disease;]

(1) or [have been vaccinated against Newcastle disease using:

.....

(name and type (live or inactivated) of Newcastle disease virus strain used in vaccine(s))

on ..... (date)].

(f) the poultry from which the day-old chicks come:

(1) either [have not been vaccinated against Newcastle disease;]

(1) or [have been vaccinated against Newcastle disease using:

.....

(name and type (live or inactivated) of Newcastle disease virus strain used in vaccine(s))

on ..... (date) at the age of ..... weeks].

(g) the poultry from which hatching eggs come:

(1) either [have not been vaccinated against Newcastle disease;]

(1) or [have been vaccinated against Newcastle disease using:

.....

(name and type (live or inactivated) of Newcastle disease virus strain used in vaccine(s))

on ..... (date) at the age of ..... weeks].

II.2. **Public health attestation**

I, the undersigned official veterinarian, certify that:

([5]) (a) the poultry, the day-old chicks or the hatching eggs come from a flock which has been tested for *Salmonella* serotypes with public health significance in accordance with Regulation (EC) No 2160/2003.

Date of last sampling of the flock from which the result is known: .....

Result of all testing in the flock:

([1]) ([6]) *either* [positive;]

([1]) ([6]) *or* [negative];

([5]) (b) and, if breeding poultry, hatching eggs or day-old chicks intended for breeding, neither *Salmonella* Enteritidis nor *Salmonella* Typhimurium were detected within the control programme referred to in point II.2(a).

II.3. **Additional health information**

([1]) ([7]) II.3.1. The consignment consists of live poultry/day-old chicks/hatching eggs originating from holdings where no vaccination against avian influenza has been carried out.

([1]) II.3.2. This consignment complies with the animal health conditions laid down in Commission Decision 2006/415/EC.

([1]) II.3.3. This consignment complies with the animal health conditions laid down in Commission Decision 2006/563/EC.

Notes

Part I:

— **Box reference I.16:** Registration number (railway wagons or container and lorries), flight number (aircraft) or name (ship).

— **Box reference I.19:** use the appropriate HS codes: 01.05, 01.06.39, 04.07.

— **Box reference I.31:** Category: select one of the following: pure line/grandparents/parents/laying pullets/fattening/others.
Identification: indicate the identification details of flocks of origin.
Age: provide the date of collection (in case of eggs) or the approximate age (in case of poultry).

Part II:

([1]) Keep as appropriate

([2]) Only applicable if II.3.2. or II.3.3. is complied with.

([3]) To certify in case of dispatch to a Member State, which has an EC-approved non-vaccinating status for Newcastle disease currently: Finland and Sweden otherwise delete reference.

([4]) Complete if appropriate.

([5]) The guarantees given under points II.2 apply only if the poultry, day-old chicks or hatching eggs belong to the species *Gallus gallus*, and
— They apply from 1 February 2008, if the poultry or day-old chicks is intended solely for production of eggs, other than hatching eggs.
— They apply from 1 January 2009, if the poultry or day-old chicks is reared solely for meat production.

([6]) If any of the results were positive for the serotypes below during the life of the flock, indicate as positive.
— Flocks of breeding poultry: *Salmonella* Hadar, *Salmonella* Virchow and *Salmonella* Infantis.
— Flocks of productive poultry: *Salmonella* Enteritidis and *Salmonella* Typhimurium.

([7]) Only applicable for Member States which carry out vaccination against avian influenza according to EC approved vaccination plan.
— The colour of the stamp and signature must be different from that of the other particulars in the certificate.
