DECISIONS

COUNCIL DECISION (EU) 2016/1336

of 18 July 2016

on the position to be adopted on behalf of the European Union within the EU-Central America Association Council as regards the replacement of Appendix 2 to Annex II to the Agreement establishing an Association between the European Union and its Member States, on the one hand, and Central America on the other

THE COUNCIL OF THE EUROPEAN UNION,

Having regard to the Treaty on the Functioning of the European Union, and in particular the first subparagraph of Article 207(4), in conjunction with Article 218(9) thereof,

Having regard to the proposal from the European Commission,

Whereas:

(1) The Agreement establishing an Association between the European Union and its Member States, on the one hand, and Central America on the other [1] (the 'Agreement'), was initialled on 22 March 2011 and signed on 29 June 2012. Pursuant to Article 353(4) of the Agreement, Part IV thereof has been applied provisionally since 1 August 2013 between the Union, Nicaragua, Honduras and Panama, since 1 October 2013 between those parties and El Salvador and Costa Rica, and since 1 December 2013 between the Union, Nicaragua, Honduras, Panama, El Salvador and Costa Rica on the one side and Guatemala on the other.

(2) In accordance with Article 36 of Annex II to the Agreement, the EU-Central America Association Council (the 'Association Council') may decide to modify the provisions of the Appendixes to Annex II.

(3) Appendix 2 to Annex II to the Agreement is based on the Harmonised Commodity Description and Coding System ('HS') 2007.

(4) The HS is updated every five years, the last update being in 2012. Since the product specific rules in the Agreement are based on an outdated version of the HS, namely the HS 2007, they should be updated to reflect the HS 2012.

(5) The Sub-Committee on Customs, Trade Facilitation and Rules of Origin, referred to in Article 123 of the Agreement, has agreed the amendments to Appendix 2 to Annex II to the Agreement, setting out the list of working or processing required to be carried out on non-originating materials in order that the product manufactured can obtain originating status (the 'product specific rules'), in order to bring that Appendix into line with the latest version of the HS.

(6) The product specific rules should remain unchanged for those products that have been reclassified within the HS 2012. In cases where products are moved to a different Chapter or heading, the product specific rules should be added to the list rules in the new Chapter or heading where the list rules in the new Chapter or heading are different from those laid down in the old Chapter or heading.

(7) The changes to the product specific rules in headings 2852 and 9619 resulting from the HS 2012 would become complicated to apply because of the large number of products moving to these headings each with a different rule for determining origin. The current rules could be kept unchanged because the effects of not applying the changes would not substantially alter the determination of the origin of the products.

[1] OJ L 346, 15.12.2012, p. 3.

(8) In the case of the majority of products moving to heading 9619, they have an alternative rule providing that the value of all non-originating materials used does not exceed a certain percentage of the ex-work price of the product. This alternative rule should be added with the value of non-originating materials set at a maximum of 50 %.

(9) The opportunity should be taken to correct a mistake in the product specific rules for the footnote in heading 3920 in the Spanish version only.

(10) Corrections to the list rules are needed for Chapter 84 and heading 8522. The opportunity should be taken to correct these by including the changes in the new appendix.

(11) For reasons of clarity, taking into account the number of amendments that need to be made in Appendix 2 to Annex II to the Agreement, that Appendix should be replaced in its entirety.

(12) The position to be adopted on the Union's behalf within the Association Council should therefore be based on the attached draft decision,

HAS ADOPTED THIS DECISION:

DRAFT

DECISION No …/2016 OF THE EU-CENTRAL AMERICA ASSOCIATION COUNCIL

of …

modifying Appendix 2 (List of working or processing required to be carried out on non-originating materials in order that the product manufactured can obtain originating status) to Annex II (Concerning definition of the concept of 'originating products' and methods of administrative cooperation)

THE EU-CENTRAL AMERICA ASSOCIATION COUNCIL,

Having regard to the Agreement establishing an Association between the European Union and its Member States, on the one hand, and Central America on the other, and in particular Article 36 of Annex II thereof and point (iv) of paragraph 2(a) of Article 345 thereof,

Whereas:

(1) Article 36 of Annex II and point (iv) of paragraph 2(a) of Article 345 of the Agreement establishing an Association between the European Union and its Member States, on the one hand, and Central America on the other (the 'Agreement') provide that the Association Council may modify Appendix 2 to Annex II to the Agreement.

(2) Amendments were introduced on 1 January 2012 into the Nomenclature governed by the Convention on the Harmonised Commodity Description and Coding System ('HS').

(3) The Parties to the Agreement have agreed upon updating the product specific rules to reflect the HS 2012.

(4) The changes to the product specific rules in headings 2852 and 9619 resulting from the HS 2012 would become complicated to apply because of the large number of products moving to these headings each with a different rule for determining origin. The current rules should be kept unchanged because the effects of not applying the changes would not substantially alter the determination of the origin of the products.

(5) In the case of the majority of products moving to heading 9619, they have an alternative rule that the value of all the non-originating materials used does not exceed a certain percentage of the ex-work price of the product. This alternative rule should be added with the value of non-originating materials set at a maximum of 50 %.

(6) Corrections to the list rules are needed for Chapter 84 and heading 8522. The opportunity should be taken to correct these by including the changes in the new appendix.

(7) Footnote 88 regarding the rules of origin in Appendix 2 for products under heading 3920 should be amended in order to align the Spanish language version to other language versions.

(8) Appendix 2 to Annex II to the Agreement should therefore be modified. Those modifications do not make substantive changes to the negotiated rules of origin,

HAS ADOPTED THIS DECISION:

Article 1

Appendix 2 to Annex II to the Agreement containing the list of working or processing required to be carried out on non-originating materials in order that the product manufactured can obtain originating status is hereby replaced by the Appendix set out in the Annex to this Decision.

Article 2

This Decision shall enter into force 120 days after the date of its adoption.
