2840/67 OFFICIAL JOURNAL OF THE EUROPEAN COMMUNITIES 30.6.67

REGULATION NO 204/67/EEC OF THE COMMISSION

of 28 June 1967

fixing coefficients for calculating levies on pigmeat products other than pig carcases

THE COMMISSION OF THE EUROPEAN ECONOMIC COMMUNITY,

Having regard to the Treaty establishing the European Economic Community:

Having regard to Council Regulation No 121/67/EEC[1] of 13 June 1967 on the common organisation of the market in pigmeat, and in particular Article 10 (4) thereof;

Whereas as regards the products listed in Article 1 (a) and (b) of Regulation No 121/67/EEC other than pig carcases, the levy must be derived from the levy on pig carcases on the basis of a coefficient expressing the ratio in the Community between the prices for such products and the price for pig carcases;

Whereas as regards the products listed in Article 1 (c) of Regulation No 121/67/EEC the levy is made up of two components, one of which is to be derived from the levy on pig carcases on the basis of a coefficient expressing the ratio in the Community between the prices for such products and the price of pig carcases;

Whereas as regards live swine the ratio applied at present in the Community between the prices for such products and the price for pig carcases should be used and, subject to review of the price situation on the Community market, may remain unchanged; whereas the same consideration applies to live sows marketed at prices on average 15% lower than the prices ruling for other live swine; whereas, therefore, the present ratio should be used in calculating the levy;

Whereas as regards offcuts and edible offals, for the ratio in the Community between the prices for such products and the price of pig carcases, the average of the price ratios mentioned in Article 4 (1) of Regulation No 20[2] should be used and, subject to review of the present price situation on the Community market, should *remain valid;* whereas, however, as regards dried or smoked meat it is difficult to find sufficiently representative prices within the Community; whereas, in the calculation of the ratios for these products account should therefore be taken of the ratio used for fresh offcuts and of the weight loss and of the costs of drying, smoking and larding; whereas it is necessary, subject to a review of the price situation on the Community market, to increase the coefficient at present in force for lard;

Whereas as regards the products listed in Article 1 (c) of Regulation No 121/67/EEC, the ratio in the Community between the prices for such products and the price for pig carcases may be fixed with reference to market prices available in the course of a given year, differences in quality and the representative nature of the prices in question;

Whereas the measures laid down in this Regulation are in accordance with the Opinion of the Committee for Pigmeat;

HAS ADOPTED THIS REGULATION:

Article 1
