No L 181/6 Official Journal of the European Communities 27.7.68

REGULATION (EEC) No 1080/68 OF THE COMMISSION

of 26 July 1968

on the procedure for calculating the levy on products processed from cereals and from rice and for the advance fixing of the levy for some of these products

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community;

Having regard to Council Regulation No 120/67/EEC[1] of 13 June 1967 on the common organisation of the market in cereals, and in particular Articles 15 (3) and 24 thereof;

Having regard to Council Regulation No 359/67/EEC[2] of 25 July 1967 on the common organisation of the market in rice, and in particular Articles 13 (3) and 25 thereof;

Having regard to Council Regulation (EEC) No 1052/68[3] of 23 July 1968 on the import an export system for products processed from cereals and from rice, and in particular Articles 2 (2) and 5 thereof;

Whereas the variable component of the levy on the processed products covered by Regulation (EEC) No 1052/68 is normally fixed for a month and altered in the intervening period in line with variations of the levy on the basic product; whereas these variations do not always have an immediate effect on the price of imported processed products; whereas, moreover, the above-mentioned Regulation provided that the variable component should not be altered during the month unless the variation in the levy on basic products reaches a certain limit to be fixed;

Whereas, with a view to the implementation of Article 5 of Regulation (EEC) No 1052/68, the variable component of the levy on processed products qualifying for a production refund granted on basic products used in their manufacture should be reduced by the amount of such refund on the quantities of such products used for calculating the variable component;

Whereas, in accordance with Article 15 (3) of Regulation No 120/67/EEC, the provisions for the advance fixing of the levy may be extended in whole or in part to processed products; whereas use should be made of these provisions in respect of malt, brans and residues, certain roots and root flours and denatured tubers, in view of market conditions and the requirements of international trade, in particular the practice of entering into long-dated contracts;

Whereas, owing to the conditions in and the sensitivity of the malt trade, provision should be made, where a levy is fixed in advance, for the charging of a premium so that malt imported under this system reaches the Community under conditions that cannot upset the market;

Whereas the measures provided for in this Regulation are in accordance with the Opinion of the Management Committee for Cereals;

HAS ADOPTED THIS REGULATION:

TITLE I

Alteration of the levy

Article 1

1. Where, during the month of importation of products covered by Regulation (EEC) No 1052/68, the levy in force for 100 kg of the basic product exceeds by 0·25 units of account the average levy, adjusted in accordance with the second subparagraph of Article 2 (1) of that Regulation, on the same quantity during the first twenty-five days of the preceding month, the variable component of the levy on the processed product shall be increased by an amount equal to the ascertained excess, rounded to 0·25 units of account or to the nearest multiple of

[1] OJ NO 117, 19.6.1967, p. 2269/67.
[2] OJ No 174, 31.7.1967, p. 1.
[3] OJ No L 179, 25.7.1968, p. 8.

0·25 units of account, the amount of such excess then being multiplied by the coefficient shown in column 4 of the Annex to Regulation (EEC) No 1052/68.

This increase shall apply on the day following ascertainment of the excess.

Where, subsequently during the same month, the levy in force differs by not less than 0·25 units of account per 100 kg of basic product from the variable component increased as specified above (prior to multiplication by the above-mentioned), that variable component shall be increased or reduced by an amount equal to the ascertained difference, rounded to 0·25 units of account or to the nearest multiple of 0·25 units of account, the rounded differences being then multiplied by the above-mentioned coefficient.

However, the amount of the levy may in no case be reduced below the level fixed on the first day of the month.

2. For the application of paragraph 1 to products falling within tariff sub-heading No 23.02 A, the levy on 100 kg of 'basic product' shall be calculated by adding together the levies on 100 kg of common wheat, 100 kg of barley and 100 kg of maize and dividing the total by 3.

TITLE II

Levy on products qualifying for a production refund

Article 2

The variable component of the levy calculated in accordance with Article 2 of Regulation (EEC) No 1052/68 applicable to 100 kg of processed products listed in Article 5 of that Regulation shall be reduced by an amount equal to the production refund granted on the date of importation for:

(a) 180 kg of maize for processing, in respect of maize groats and meal for the brewing industry;

(b) 161 kg of maize for starch processing, in respect of flours and meals of sago, manioc, arrowroot, salep and other roots and tubers falling within heading No 07.06 of the Common Customs Tariff;

(c) 220 kg of common wheat for starch processing, in respect of wheat starch;

(d) 152 kg of broken rice for starch processing, in respect of rice starch;

(e) 161 kg of maize for starch processing, in respect of starches other than those of wheat or rice;

(f) 400 kg of common wheat for starch processing, in respect of wheat gluten;

(g) 200 kg of maize for starch processing, in respect of other glutens;

(h) 210 kg of maize for starch processing, in respect of glucose with or without added flavouring or colouring matter in the form of white crystalline powder, whether or not agglomerated;

(i) 161 kg of maize for starch processing, in respect of any other glucose, and glucose syrup, with or without added flavouring or colouring.

TITLE III

Advance fixing of the levy

Article 3

1. The levy on products falling within tariff headings and sub-headings Nos 07.06 B, 11.06 A, 11.07 and 23.02 A listed in the Annex to Regulation (EEC) No 1052/68 shall be fixed in advance in respect of an import to be effected during the period of validity of the licence if the applicant so requests when applying for the licence.

In that case the amount of the levy shall be equal to that applicable on the day on which the import licence is applied for, adjusted if necessary in relation to the threshold price in force during the month of importation for the basic products or products taken as a basis for the calculation of the variable component of the levy, without prejudice to the possible application of the second subparagraph of Article 15 (3) of Regulation No 120/67/EEC.

This adjustment shall be made by increasing or reducing the levy by the difference between the threshold price in force in the month of the application for 100 kg of the basic product and that in force in the month of importation, that difference being adjusted by the coefficient shown in column 4 of the Annex to Regulation (EEC) No 1052/68.

2. With regard to products falling within tariff heading No 11.07 a premium shall be added to the levy fixed in advance. This premium shall, per 100 kg of processed product, be equal to the premium applicable under Article 15 of Regulation No 120/67/

EEC and under Regulation No 140/67/EEC[1] and in accordance with the scale in force on the day on which the licence was applied for, to the quantity of the basic product taken as a basis for the calculation of the variable component of the levy.

Without prejudice to the possible application of Article 9 (b) of Regulation No 140/67/EEC, the premium shall be determined in relation to the month of actual importation of the processed product, the premium applicable to an importation effected during the last month of validity of the import licence being equal to that applicable to an importation effected during the preceding month.

Article 4

For each of the products covered by this Title, the period for which it is possible to obtain advance fixing of the levy may be reduced in accordance with the procedure laid down in Article 26 of Regulation No 120/67/EEC.

TITLE IV

General provisions

Article 5

Member States shall communicate to the Commission on the 15th of each month in respect of the preceding month:

(a) the total quantities of processed products for which import licences have been issued;

(b) the quantities for which import licences have been issued with advance fixing of the levy.

These particulars shall be broken down by specific rates of levy on the products.

Article 6

Commission Regulation No 475/67/EEC[2] on the procedure for calculating the levy on products processed from cereals and rice and for the advance fixing of the levy for some of these products is hereby repealed.

This Regulation shall enter into force on 29 July 1968.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 26 July 1968.

For the Commission

The President

Jean REY
