26.1.70 Official Journal of the European Communities No L 19/1

REGULATION (EEC) No 109/70 OF THE COUNCIL

of 19 December 1969

establishing common rules for imports from state-trading countries

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community, and in particular Article 113 thereof;

Having regard to the instruments establishing common organisation of agricultural markets, and to the instruments concerning processed agricultural products adopted in pursuance of Article 235 of the Treaty, in particular the provisions of those instruments which allow for derogation from the general principle that quantitative restrictions or measures having equivalent effect may be replaced solely by the measures provided for in those same instruments;

Having regard to the proposal from the Commission;

Whereas, after the transitional period has ended, the common commercial policy must be based on uniform principles;

Whereas common rules should therefore be established for the importation of products from state-trading countries;

Whereas, provided such products are listed in the Annex to this Regulation, they may be imported into any part of the Community without quantitative restriction;

Whereas, however, by reason of the economic structure of state-trading countries it is necessary that Member States should notify the Commission when import trends appear to call for protective measures, and that they should in particular advise it of any application for documents for the importation of a product in notably increased quantities or on exceptional terms or conditions, and that they should do this before such documents are issued;

Whereas it is essential that examination should take place at Community level, in particular on the basis of any such information and within an advisory committee, of the terms and conditions of importation, of import trends, of the various aspects of the economic and commercial situation, and of the measures, if any, to be taken;

Whereas it may become apparent from this examiniation that the Community should exercise surveillance over certain imports, or that interim protective measures should be introduced; whereas the need for rapid and effective action makes it justifiable for the Commission to be empowered, without prejudice to the subsequent position of the Council, to decide upon such measures under an emergency procedure;

Whereas any policy designed to protect Community interests must be adopted with due regard for existing international obligations;

Whereas it is desirable that Member States be empowered, in certain circumstances and provided that their actions are on an interim basis only, to take protective measures individually;

Whereas it is desirable that while such protective measures are in operation there should be an opportunity for consultation for the purpose of examining the effects of the measures and of ascertaining whether the conditions for their application are still satisfied;

Whereas this Regulation is to apply to all products, whether industrial or agricultural; whereas its operation should be complementary to that of the instruments establishing common organisation of agricultural markets, and to that of the special instruments adopted under Article 235 of the Treaty for processed agricultural products; whereas any overlap between the provisions of this Regulation and the provisions of those instruments, particularly the protective clauses thereof, must however be avoided;

HAS ADOPTED THIS REGULATION:

TITLE I

General principles

Article 1

Subject to the provisions of Articles 7, 8 and 9, imports into the Community covered by the Annex to this Regulation shall not be subject to any quantitative restriction.

Article 2

The Council may, acting by a qualified majority on a proposal from the Commission, resolve that the Annex to this Regulation be extended to include other products, provided that such action is not liable to create a situation where the application of protective measures within the meaning of Title IV would be justified.

TITLE II

Community information and consultation procedure

Article 3

1. Member States shall notify the Commission:

(a) where trends in imports appear to call for protective measures;

(b) where, following their usual administrative procedures and in the light of experience, they find that the granting of an import authorisation applied for might prejudice the success of any subsequent application of protective measures within the meaning of Title IV; notification must be given in all cases where applications are made for documents for the importation of a product in unusually increased quantities or on exceptional terms or conditions.

2. The Commission shall inform the other Member States forthwith.

Article 4

1. Consultations may be held at any time, either at the request of a Member State or on the initiative of the Commission. Such consultations shall in any event take place before the introduction of any measure pursuant to Articles 6, 7 or 8.

2. In the case referred to in Article 3 (1) (a), consultations shall take place within eight working days following receipt by the Commission of the notification provided for in that Article.

3. In the case of notifications to be made under Article 3 (1) (b) concerning import authorisations, if within four working days following receipt by the Commission of notification of the application made to a Member State no consultation has been initiated, the authorisation applied for may be granted. If, however, consultations are held, a further period of four working days from the expiry of the above period must be allowed to elapse, unless neither any Member State nor the Commission raised any objection at the time of the consultations to the authorisation being granted sooner.

Article 5

1. Consultation shall take place within an advisory committee (hereinafter called the 'Committee'), which shall consist of representatives of each Member State with a representative of the Commission as chairman.

2. The Committee shall meet when convened by its chairman. He shall provide the Member States, as promptly as possible, with all relevant information.

3. Consultation shall in particular cover:

(a) terms and conditions of importation, import trends, and the various aspects of the economic and commercial situation as regards the product in question;

(b) the measures, if any, to be adopted.

TITLE III

Surveillance

Article 6

1. Where Community interests so require, the Commission, at the request of a Member State or on its own initiative, may:

(a) decide that retrospective surveillance should be exercised over certain imports, such surveillance to be conducted in accordance with a procedure to be laid down by the Commission;

(b) decide that, in order to keep a check on trends in certain imports, such imports should be made subject to the production of an import document, which, subject to provision to the contrary, must give:

— the name and address of the importer;

— a description of the product with the following particulars:

— commercial description;

— tariff heading, or reference number, of the product in the goods nomenclature used for foreign trade purposes by the country concerned;

— country of origin;

— exporting country;

— the c.i.f. price, both per unit and total, free-at-frontier, and the quantity of the product in units customarily used in the trade in question;

— the expected date of importation.

This document shall be issued or endorsed by Member States.

(c) in cases where the situation referred to in Article 7 (1) is likely to arise:

— limit the period of validity of any import documents required under external trade regulations;

— make the granting of such documents subject to certain conditions and, as an exceptional measure, make the granting of import authorisations subject to the insertion of a revocation clause or to the prior notification and prior consultation procedure provided for in Article 4 (3). The period during which such notification and consultation are to be required and the intervals at which they are to take place shall be fixed by the Commission.

2. Within the first ten days of each month, Member States shall communicate to the Commission:

(a) details of the sums of money (calculated on the basis of c.i.f. prices) and quantities of products in respect of which import documents within the meaning of paragraph 1 (b) were issued during the preceding month;

(b) where paragraph 1 (a) or (b) has been applied, details of imports during the month preceding the month referred to in subparagraph (a) of this paragraph.

The information supplied by Member States shall be broken down by product and by exporting country. The Commission shall inform the other Member States forthwith.

TITLE IV

Protective measures

Article 7

1. Where a product is imported into the Community in such greatly increased quantities or on such terms or conditions as to cause, or threaten to cause, substantial injury to Community producers of like or competing products, and where the interests of the Community require immediate intervention, the Commission may, acting at the request of a Member State or on its own initiative, alter the import rules for that product by providing that it may be put into free circulation only on production of an import authorisation, the granting of which shall be governed by such provisions and subject to such limits as the Commission shall lay down pending subsequent action by the Council under Article 8.

2. The Council and the Member States shall be notified forthwith of the measures taken. Such measures shall take effect immediately.

3. The measures may be limited to imports intended for certain regions of the Community. They shall not affect products already on their way to the Community, provided that the destination of such products cannot be changed and that those products the importation of which is subject under Article 6 (1) (b) to the production of an import document are accompanied by such document.

4. Where intervention by the Commission has been requested by a Member State, the Commission shall take a Decision within a maximum of five working days of receipt of such request.

5. Any Decision taken by the Commission under this Article shall be communicated to the Council and to the Member States. Any Member State may, within ten working days following the day of communication, refer such Decision to the Council. The Council may, acting by a qualified majority, decide differently.

6. Within ten working days of the entry into force of any measure taken under paragraph 1, the Commission shall make a proposal to the Council on appropriate measures as provided for in Article 8. If, after the expiry of six weeks following the entry into force of any measure taken by the Commission, the Council has not taken a decision on that proposal, the measure in question shall be deemed revoked.

Article 8

1. The Council may, in particular in the situation referred to in Article 7 (1), adopt appropriate measures. It shall act by a qualified majority on a proposal from the Commission.

2. Such measures may be limited to imports intended for certain regions of the Community. They shall not affect products already on their way to the Community, provided that the destination of such products cannot be changed and that those products the importation of which is subject under Article 6 (1) (b) to the production of an import document are accompanied by such document.

Article 9

1. In the following cases a Member State may, as an interim protective measure, alter the import rules for a particular product by providing that it may be put into free circulation only on production of an import authorisation, the granting of which shall be governed by such provisions and subject to such limits as that Member State shall lay down:

(a) where the Member State considers that there exists in its territory a situation such as that defined as regards the Community in Article 7 (1);

(b) where such measure is justified by a protective clause contained in a bilateral agreement between the Member State and a third country.

2. The Member State shall take the measure after hearing the opinions expressed in the Committee or, where urgency precludes such a procedure, after notifying the Commission. The latter shall advise the other Member States.

3. The Commission shall be notified by telex of the measure immediately following its adoption.

4. Where the measure has been taken to prevent a situation such as that defined as regards the Community in Article 7 (1) from arising in the territory of a Member State, or in order to remedy such a situation, notification of that measure shall be equivalent to a request within the meaning of Article 7 (4). The measure shall operate only until the coming into operation of the Decision taken by the Commission. But where the Commission decides not to introduce any measure under Article 7, its decision shall apply as from the sixth day following its entry into force, unless the Member State which has taken the measure refers the decision to the Council; in that case, the national measure shall continue to operate until the entry into force of the Decision taken by the Council, but in no case beyond the expiry of a period of one month following referral of the matter to the latter. The Council shall take a Decision before the expiry of that period.

5. Where the measure has been taken for other reasons and in particular for the reason referred to in paragraph 1 (b), the Commission may propose to the Council the measures which should be taken. The national measure shall continue to operate until the entry into force of the Decision taken by the Council but in no case beyond the expiry of a period of two months following referral of the matter to the latter, unless the Council, acting on a proposal from the Commission, resolves otherwise in order, in particular, to take account of interests at stake in Community negotiations. The Council shall take a Decision within two months following referral of the matter to it.

6. The provisions of paragraphs 1 to 4 shall apply until 31 December 1972. Before that date, the Council shall, acting by a qualified majority on a proposal from the Commission, decide on the adjustments to be made thereto.

Article 10

1. While any measure referred to in Articles 6 to 9 is in operation, consultations within the Committee shall be held, either at the request of a Member State or on the initiative of the Commission. The purpose of such consultations shall be:

(a) to examine the effects of the measure;

(b) to ascertain whether the conditions for its application are still satisfied.

2. Where the Commission considers that the measure should be revoked or amended, it shall proceed as follows:

(a) where the Council has taken no Decision on a measure taken by the Commission, the latter shall amend or revoke such measure forthwith and shall immediately deliver a report to the Council;

(b) in all other cases, the Commission shall propose to the Council that the measures adopted by the Council be revoked or amended. The Council shall act by a qualified majority.

TITLE V

Transitional and final provisions

Article 11

1. By 31 December 1971 at the latest, the Council shall, acting by a qualified majority on a proposal from the Commission, decide on the adjustments to be made to this Regulation for the purpose in particular of introducing a Community import document valid throughout the Community.

2. Until such time:

— any Member State may refuse to issue or endorse import documents within the meaning of Article 6 (1) (b) in respect of persons not established in its territory. This provision shall be without prejudice to obligations arising under Directives concerning freedom of establishment and freedom to provide services;

— import documents within the meaning of Article 6 (1) (b) shall be valid only in the Member State which issued or endorsed them.

Article 12

Without prejudice to other Community provisions, this Regulation shall not preclude the adoption or application by a Member State of prohibitions or quantitative restrictions on imports on grounds of public morality, public policy or public security; the protection of health and life of humans, animals or plants; the protection of national treasures possessing artistic, historic or archaeological value, or the protection of industrial and commercial property.

Article 13

1. This Regulation shall be without prejudice to the operation of the instruments establishing common organisation of agricultural markets, or of the special instruments adopted under Article 235 of the Treaty for processed agricultural products; it shall operate by way of complement to those instruments.

2. However, in the case of products covered by such instruments, the provisions of Articles 3 (1) (b), 4 (3) and 6 shall not apply to those in respect of which the Community rules on trade with third countries require the production of a licence or other import document; and the provisions of Articles 7 and 9 shall not apply to those in respect of which such rules make provision for the application of quantitative import restrictions.

Article 14

This Regulation shall enter into force on 1 February 1970.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 19 December 1969.

For the Council

The President

H. J. DE KOSTER
