20.5.72 Official Journal of the European Communities No L 118/33

REGULATION (EEC) No 1045/72 OF THE COMMISSION

of 18 May 1972

on detailed rules for aid in respect of silkworms

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community;

Having regard to Council Regulation (EEC) No 845/72[1] of 24 April 1972 laying down special measures to encourage silkworm rearing, and in particular Article 2 (5) thereof;

Whereas Council Regulation (EEC) No 922/72[2] of 2 May 1972 laid down the general rules for the granting of aid in respect of silkworms; whereas it is the responsibility of the Commission to adopt the relevant detailed rules of application;

Whereas, pursuant to Article 2 (2) of Regulation (EEC) No 845/72 and Article 2 (3) of Regulation (EEC) No 922/72 aid is granted solely for boxes which contain a minimum quantity of eggs and which have given a minimum production of cocoons; whereas these minimum quantities should be determined in the light of the normal conditions of production in the Community;

Whereas Article 3 of Regulation (EEC) No 922/72 states that Member States are to introduce a control ensuring that the product for which aid is requested meets the requirements for the granting thereof; whereas, consequently, applications for aid submitted by rearers must include the minimum of information necessary for this control;

Whereas Member States are authorized to grant aid solely to rearers who have obtained their boxes of eggs from an approved body and who have delivered to an approved body the cocoons produced; whereas for the purposes of the proper application of the system of aid, the conditions for the approval of such bodies should be defined;

Whereas, in this particular case, in order to ensure the effectiveness of the control system referred to above, applications for aid should be accompanied by attestations issued by those bodies and should be checked by Member States;

Whereas the measures provided for in this Regulation are in accordance with the Opinion of the Management Committee for Flax and Hemp;
