No L 150/4 Official Journal of the European Communities 4.7.72

REGULATION (EEC) No 1406/72 OF THE COUNCIL

of 27 June 1972

determining for the 1972/73 marketing year the principal marketing centres for cereals and the derived intervention prices applicable at those centres and the single intervention price for maize and the single intervention price for durum wheat

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community;

Having regard to Council Regulation No 120/67/EEC[1] of 13 June 1967 on the common organization of the market in cereals, as last amended by Regulation (EEC) No 796/72,[2] and in particular Article 4 (4) thereof;

Having regard to the proposal from the Commission;

Whereas, pursuant to Council Regulation No 131/67/EEC[3] of 13 June 1967 laying down rules for deriving intervention prices and for determining certain marketing centres for cereals, as last amended by Regulation (EEC) No 1205/69,[4] derived intervention prices for marketing centres of appreciable importance on the regional level must be fixed in line with the basic intervention price, taking into account natural price formation on the market and transport costs;

Whereas, experience in the last marketing year has shown that there is no need to change the procedure for deriving intervention prices; whereas, consequently, it is not necessary to alter the principal marketing centres determined for the 1971/72 marketing year in Annexes A and B to Regulation (EEC) No 1530/71[5]; whereas, however, the intervention prices applicable at those centres should be altered, in particular in view of the increase in basic intervention prices fixed for the 1972/73 marketing year by Regulation (EEC) No 797/72[6] and of the trend of transport costs;

Whereas, since the condition provided for in Article 4 (2) of Regulation No 120/67/EEC is fulfilled, a single intervention price only should be fixed for durum wheat and for maize; whereas these prices will be valid for all the marketing centres which are subsequently determined for each of these cereals;

HAS ADOPTED THIS REGULATION:

Article 1

For the 1972/73 marketing year for cereals:

— the marketing centre having the lowest derived intervention price for each Member State, and the price in question, are determined in Annex A;

— the principal marketing centres and derived intervention prices for these centres are determined in Annex B;

— the single intervention price for durum wheat shall be 116·93 units of account per 1000 kilogrammes;

— the single intervention price for maize shall be 83·25 units of account per 1000 kilogrammes.

Article 2

This Regulation shall enter into force on the third day following its publication in the *Official Journal of the European Communities*.
