30.9.72 Official Journal of the European Communities No L 224/71

REGULATION (EEC) No 2100/72 OF THE COMMISSION

of 29 September 1972

amending Regulation (EEC) No 1570/70 of the Commission of 3 August 1970 establishing a system of standard average values for citrus fruits

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community;

Having regard to Council Regulation (EEC) No 803/68[1] of 27 June 1968 on the valuation of goods for customs purposes, and in particular Article 13 thereof;

Whereas Commission Regulation (EEC) No 1570/70[2] of 3 August 1970, as last amended by Regulation (EEC) No 1659/71[3] of 28 July 1971, established a system of standard average values for citrus fruits; whereas certain alterations have been shown to be necessary in the light of experience gained since that time;

Whereas the classification which appears in the Annex to Regulation (EEC) No 1659/71 distinguishes nearly all the species of citrus fruits to which the system of standard average values applies by reference to their origin, and in several cases, by variety;

Whereas the species of groups: (4) Clementines; (5) Mandarins including Wilkings and (6) Monreales and Satsumas are distinguished respectively according to their origin: (1) Spain, (2) Tunisia, Morocco, Algeria and (3) Other countries; whereas, however, the importing seasons 1970/71 and 1971/72 have shown that the differences recorded between the standard average values on the basis of the origins listed above for each of the species in question do not justify the continuation of such a differentiation; whereas, moreover, the abolition of the differentiation by reference to origin would be likely to eliminate certain inequalities in application especially at the beginning of the importing season; whereas therefore the differentiation by reference to origin for the species in question may be abolished; whereas it would be useful to publish by way of Annex to this Regulation the new classification of citrus fruits for the establishment of standard average values;

Whereas the provisions of this Regulation are in accordance with the Opinion of the Customs Valuation Committee;

HAS ADOPTED THIS REGULATION:

Article 1

The classification which appears in the Annex to this Regulation shall be substituted for the classification of citrus fruits in the Annex to Commission Regulation (EEC) No 1570/70 of 3 August 1970, as last amended by Regulation (EEC) No 1659/71 of 28 July 1971.

Article 2

This Regulation shall enter into force on 1 October 1972.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 29 September 1972.

For the Commission
The President
S. L. MANSHOLT
