25.10.72 Official Journal of the European Communities No L 242/1

REGULATION (EEC) No 2244/72 OF THE COMMISSION

of 23 October 1972

on a third amendment to Regulation (EEC) No 2005/70 on the classification of vine varieties

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community,

Having regard to Council Regulation (EEC) No 816/70[1] of 28 April 1970 laying down additional provisions for the common organization of the market in wine, as last amended by Regulation (EEC) No 1651/72,[2] and in particular the second subparagraph of Article 16 (1) thereof;

Whereas the classification of vine varieties was adopted by Regulation (EEC) No 2005/70,[3] as last amended by Regulation (EEC) No 1985/71[4];

Whereas, since then, comparative trials of certain new varieties obtained by crossings between varieties of the *vitis vinifera* species have shown the suitability of those varieties for cultivation; whereas their inclusion in the classification is therefore justified;

Whereas Article 2 (2) (b) of Council Regulation (EEC) No 1388/70[5] of 13 July 1970 on general rules for the classification of vine varieties, as amended by Regulation (EEC) No 608/71,[6] defines table grapes for classification purposes as vine varieties which come within the common quality standards for table grapes adopted under Regulation No 23, normally cultivated for the production of grapes for consumption when fresh; whereas the list of varieties covered by those standards was recently amended by Regulation (EEC) No 534/72[7]; whereas the classification of table grape varieties should therefore be altered;

Whereas the classification of root stock varieties calls for certain alterations in view of the cultivation suitability established for the varieties 'Sorisil' and 'Riparia x Rupestris 3309 C' in Germany;

Whereas the measures provided for in this Regulation are in accordance with the Opinion of the Management Committee for Wine,

HAS ADOPTED THIS REGULATION:

Article 1
