30. 12. 72 Official Journal of the European Communities No L 296/15

REGULATION (EEC) No 2762/72 OF THE COUNCIL

of 19 December 1972

establishing preferential tariffs in respect of certain products originating in developing countries

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community;

Having regard to the proposal from the Commission;

Whereas, within the context of UNCTAD, the European Economic Community offered to grant tariff preferences on finished and semi-finished products coming from developing countries; whereas the preferential treatment proposed in that offer covers, generally speaking, all finished and semi-finished industrial products covered by Chapters 25 to 99 of the Brussels Nomenclature which originate in developing countries; whereas the preference consists in the granting of exemption from customs duties; whereas preferential imports are effected up to the level of ceilings calculated by value in respect of each product on the basis of factors which are uniform for all the products; whereas in order that the preferences granted to the most competitive developing country or countries should be restricted and that a substantial quota share should be reserved for the least competitive, preferential imports from any one developing country in respect of a given product should not, as a general rule, exceed 50% of the ceiling fixed for that product;

Whereas, in the offer made by the Community, the annual ceilings should ordinarily be calculated on the basis of the total value for 1968 of c.i.f. imports from the countries benefiting from this scheme, excluding those already enjoying various preferential tariff arrangements granted by the Community, increased by 5% of the value of c.i.f. imports from the other countries and from the countries already enjoying such arrangements; whereas such further amount is variable and is calculated each year on the basis of the latest figures available, provided that this entails no reduction in the ceilings;

Whereas the offer made by the Community includes a clause stipulating that the Community drew up the offer on the assumption that all the main industrialized countries which are members of the OECD would participate in granting preferences and would make similar efforts in this direction; whereas, moreover, it is evident from the conclusions worked out in UNCTAD that this offer, while being of a temporary nature, does not constitute a binding commitment and, in particular, may be withdrawn wholly or in part at a later date; whereas this possibility may be adopted *inter alia* with a view to remedying any unfavourable situations which might arise in the associated countries following the implementation of the generalized preference scheme;

Whereas tariff preferences have been applied as from the second half of 1971 under the conditions set out above and whereas these preferences should continue to be applied, throughout 1973; whereas, with regard to the terms of the offer concerned, the abovementioned additional sum of 5% may refer to 1970;

Whereas it is expedient, therefore, in respect of the products referred to in Annex A which originate in the countries and territories listed in Annex B, that the Community should allow, for each category of these products and throughout 1973, duty-free imports within the limits of the Community ceilings calculated in the manner set out above; whereas the benefit of such tariff exemption should be reserved for products originating in the countries and territories under consideration, the concept of 'originating products' being determined in accordance with the procedure laid down in Article 14 of Council Regulation (EEC) No 802/68 [1] of 27 June 1968 on the common definition of the concept of the origin of goods; whereas charges against each of these ceilings must, as a general rule, come within a maximum Community amount of 50% in respect of the products originating in any of the abovementioned countries;

Whereas, under these circumstances, these objectives may be reached by applying a method of administration based on the charging, at Community level, against the abovementioned ceilings and maximum amounts, of imports of the products concerned as and when

[1] OJ No L 148, 28.6.1968, p. 1.

these products are presented for customs clearance under cover of declarations that they have been made available for consumption and accompanied by a certificate of origin; whereas this method of administration must make provision for the reintroduction of Common Customs Tariff duties as soon as the said ceilings or maximum amounts are reached at Community level;

Whereas such method of administration calls for very close and particularly rapid cooperation between Member States and the Commission, which must, in particular, be able to observe the extent to which charges are made against the ceilings and maximum amounts and inform Member States thereof; whereas such cooperation should be particularly close in view of the need for the Commission to be able to take appropriate measures to reintroduce Common Customs Tariff duties either generally or individually when any of the ceilings or maximum amounts are reached;

Whereas, since the ceilings concerned are valid until 30 September 1973, the system established could be amended to take into account the accession of new Member States;

HAS ADOPTED THIS REGULATION:

Article 1

1. From 1 January to 30 September 1973, the Common Customs Tariff duties on the products listed in Annex A shall be totally suspended, subject to the provisions of Article 2 and Article 4 (2) of this Regulation.

2. This suspension shall be enjoyed solely by products originating in the countries and territories listed in Annex B. However, imports already enjoying exemption from customs duties under other preferential tariff arrangements shall not be charged against the ceilings specified in paragraph 3. For the purposes of the application of this Regulation, the concept of originating products shall be determined in accordance with the procedure laid down in Article 14 of Regulation (EEC) No 802/68.

3. Subject to the provisions of Article 2 and Article 4 (2) this suspension shall be granted, in respect of each category of products within a Community ceiling which shall be expressed in units of account and which shall be obtained by adding together the value of c.i.f. imports in 1968 of the products concerned, to the Community from the countries and territories enjoying these arrangements, excluding those already enjoying various preferential tariff arrangements granted by the Community, and 5% of the value of c.i.f. imports in 1970 from other countries and from countries and territories already enjoying such arrangements.

4. Subject to the provisions of Article 2 and Article 4 (2), within each ceiling thus calculated, charges of products originating in any one of the countries listed in Annex B should not exceed a Community maximum amount equivalent to 50% of this ceiling with the exception of certain products for which the maximum amount shall be reduced to the percentage shown in Annex A.

5. Any amendment to Annex B, in particular by the addition of new countries enjoying tariff preferences, may entail a corresponding adjustment to the Community ceilings and the maximum amounts referred to in paragraphs 3 and 4.

Article 2

1. As soon as the ceilings calculated in accordance with the provisions of Article 1 (3), which are laid down for Community imports of products originating in all of the countries referred to in Article 1 (2), are reached at Community level, the levying of Common Customs Tariff duties on imports of the products in question from all the countries concerned may at any time be reintroduced until the end of the period referred to in Article 1 (1).

2. As soon as the maximum amounts calculated in accordance with the provisions of Article 1 (4), which are laid down for Community imports of products originating in each of the countries referred to in Article 1 (2), are reached for any one of these countries at Community level, the levying of the Common Customs Tariff duties on imports of the products in question from the country concerned may at any time be reintroduced until the end of the period referred to in Article 1 (1).

Article 3

1. Imports of the products in question shall be actually charged against the Community ceilings and maximum amounts as and when the products are presented for customs clearance under cover of declarations that they have been made available for consumption, and provided that they are accompanied by a certificate of origin pursuant to the rules laid down in Article (1 (2).

2. An item of goods may be charged against a ceiling or maximum amount only if the certificate of origin referred to in paragraph 1 is submitted before the date on which the levying of duties is reintroduced.

3. The extent to which the ceilings and maximum amounts have been actually used up shall be recorded at Community level on the basis of the imports charged in the conditions laid down in paragraphs 1 and 2.

Article 4

1. The Commission, in close cooperation with the Member States, shall take all necessary measures to ensure that the above provisions are applied.

2. The Commission shall reintroduce the levying of Common Customs Tariff duties in respect of all the countries referred to in Article 1 (2) or in respect of any one of them by means of a regulation in the conditions laid down in Article 2 (1) and (2).

Article 5

Member States shall inform the Commission at regular intervals of imports of the products in question actually charged against the Community ceilings and maximum amounts laid down in Article 1 (2) and (4).

Article 6

The above provisions may be amended to take account of the stiuation resulting from the accession of new Member States.

Article 7

This Regulation shall enter into force on 1 January 1973.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 19 December 1972.

The President
