THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the proposal from the Commission;

Whereas in accordance with Article 3 (2) of Regulation (EEC) No 729/70 the general rules for Community financing of interventions should be laid down;

Whereas to this end a list of measures which are interventions intended to stabilise the markets should be drawn up;

Whereas the general rule should be that expenditure resulting from intervention measures for which a sum per unit has been determined within the framework of the common organisations of markets shall be met entirely from Community funds;

Whereas general rules for the financing of intervention measures for which a sum per unit has not been determined within the framework of the common organisations of markets should be drawn up; whereas, however, due to the complexity of these measures, an additional period of one year is necessary for the implementation of these general rules; whereas, consequently, the present rules on the financing of such interventions should be maintained provisionally;
