REGULATION (EEC) No 1242/73 OF THE COMMISSION

of 14 May 1973

authorizing the French intervention agency to restrict to specific uses the invitation to tender in respect of a further 50 700 tons of common wheat

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community;

Having regard to Council Regulation No 120/67/EEC (1) of 13 June 1967 on the common organization of the market in cereals, as last amended by the Act (2) annexed to the Treaty (3) concerning the Accession of new Member States to the European Economic Community and the European Atomic Energy Community, signed at Brussels on 22 January 1972, and in particular Article 7 (5) thereof;

Whereas in accordance with Article 3 (4) of Commission Regulation (EEC) No 376/70 (4) of 27 February 1970 laying down the procedures and conditions for the disposal of cereals held by intervention agencies, as last amended by Regulation (EEC) No 129/73 (5), the invitation to tender may in exceptional cases, at the request of a Member State, be restricted to specific uses;

Whereas due to bad weather during the 1972 harvest, the common wheat harvested in certain parts of France is of two low a quality for the production of flour suitable for breadmaking; whereas it is therefore necessary to turn this common wheat harvested in those parts into wheat suitable for flour milling by mixing it with common wheat of high breadmaking quality available from the stocks of the intervention agency;

Whereas, to avoid speculative purchases by the trade, the French Republic has consequently requested that the French intervention agency be authorized to restrict to specific uses the invitation to tender in respect of a maximum quantity of 50 700 tons of common wheat of high breadmaking quality;

Whereas the measures provided for in this Regulation are in accordance with the Opinion of the Management Committee for Cereals;
