REGULATION (EEC) No 1502/73 OF THE COMMISSION
of 6 June 1973
re-establishing Common Customs Tariff duties on wrought bars, rods, angles, shapes and sections of aluminium, as well as aluminium wire, falling within sub-heading No 76.02, originating in Yugoslavia, to which the preferential tariff arrangements set out in Council Regulation (EEC) No 2762/72 of 19 December 1972 apply

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community;

Having regard to Council Regulation (EEC) No 2762/72 [1] of 19 December 1972 establishing tariffs in respect of certain products originating in developing countries, and in particular Article 4 (2) thereof;

Whereas Article 1 (3) and (4) of that Regulation provides that the Common Customs Tariff duties may, for each category of products, be suspended up to a Community ceiling, expressed in units of account, which will usually be equal to the sum arrived at by adding together the value of the products in question imported cif into the Community in 1968 and coming from countries and territories covered by those arrangements, but not including products coming from countries and territories already covered by various preferential tariff arrangements established by the Community, and 5 % of the value of 1970 cif imports coming from other countries and from countries and territories already covered by such arrangements;

Whereas, having regard to that ceiling, the amounts for products originating in any one of the countries or territories listed in Annex B to that Regulation should be within a maximum Community amount representing 50 % of that ceiling, with the exception of certain products for which the maximum amount is to be reduced to the percentage indicated in Annex A to that Regulation; whereas, for those products, this reduced percentage will be 30 %;

Whereas Article 2 (2) of that Regulation provides that the Common Customs Tariff duties may be re-established at any time in respect of imports of the products in question originating in any of the said countries or territories once the relevant Community maximum amount has been reached;

Whereas, in respect of wrought bars, rods, angles, shapes and sections of aluminium, as well as aluminium wire, the ceiling, calculated as indicated above, should be 1 183 000 units of account, and therefore the maximum amount 354 900 units of account; whereas on 30 April 1973 the amounts of imports into the Community of wrought bars, rods, angles, shapes and sections of aluminium, as well as aluminium wire, originating in Yugoslavia, a country covered by preferential tariff arrangements, reached that maximum amount; whereas, bearing in mind the objectives of Regulation (EEC) No 2762/72, which provides that maximum amounts should not be exceeded, Common Customs Tariff duties should be re-established in respect of the products in question in relation to Yugoslavia;

HAS ADOPTED THIS REGULATION:
