REGULATION (EEC) No 1922/73 OF THE COMMISSION

of 16 July 1973

fixing for the end of the 1973 marketing year the reference prices for cucumbers

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community;

Having regard to Council Regulation (EEC) No 1035/72 [1] of 18 May 1972 on the common organization of the market in fruit and vegetables, as last amended by Regulation (EEC) No 2745/72 [2], and in particular Article 27 (1) thereof;

Whereas, under Article 23 (1) of Regulation (EEC) No 1035/72, reference prices valid for the whole Community are to be fixed at the beginning of the marketing year in respect of the whole marketing year;

Whereas cucumbers are produced in such quantities in the Community that reference prices should be fixed for them;

Whereas cucumbers harvested during a given production campaign are marketed from January to December; whereas for the present campaign the reference prices have already been fixed for the period from February till the month of June by Regulation (EEC) No 537/73 [3] of 20 February 1973; whereas the information currently available allows these prices to be fixed until the end of the campaign; whereas since the quantities marketed in December represent only a small portion of the tonnage marketed over the year as a whole, this month should not be taken into account;

Whereas pursuant to Article 23 (2) of Regulation (EEC) No 1035/72 the reference prices are to be equal to the arithmetic mean of producer prices in each Member State plus an amount representing the costs of transporting Community products from production areas to Community marketing centres; whereas the trend of average basic prices and buying-in prices should also be taken into account;

Whereas, to take seasonal variations into account, the year should be divided into several periods and a reference price fixed for each of those periods;

Whereas the producer prices are to correspond to the average of the prices recorded during the three years prior to the date for fixing the reference price for a home-grown product with defined commercial characteristics, on the representative market or markets situated in the production areas where prices are lowest, for the products or varieties which represent a considerable proportion of production marketed throughout the whole year which satisfy specified requirements as regards quality and market preparation; whereas, when the average of prices recorded on each representative market is being calculated, prices which could be considered excessively high or excessively low in relation to normal price fluctuations on that market are to be disregarded;

Whereas, during the second part of the campaign an important part of the Community-produced cucumbers will still be grown under glass; whereas the reference price for the first part of the year must therefore be fixed for a product of that type; whereas cucumbers imported from certain third countries during the same period will be obtained from end-of-year open crops; whereas, although these cucumbers may be classed in Class I, their quality and price are not comparable with those of products grown under glass; whereas the prices for cucumbers not grown under glass should therefore be adjusted by a conversion factor;

Whereas the measures provided for in this Regulation are in accordance with the Opinion of the Management Committee for Fruit and Vegetables;

HAS ADOPTED THIS REGULATION:
