REGULATION (EEC) No 3594/73 OF THE COUNCIL

of 28 December 1973

on the opening, allocation and administration of a Community tariff quota for hand woven fabrics of silk, waste silk other than noil, and cotton, falling within subheadings Nos ex 50.09 and ex 55.09 of the Common Customs Tariff

THE COUNCIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community, and in particular Article 113 thereof;

Having regard to the proposal from the Commission;

Whereas, as regards hand woven fabrics of silk, waste silk other than noil and cotton, falling within tariff subheadings Nos ex 50.09 and ex 55.09, the European Economic Community has declared its readiness to open annual duty-free Community tariff quotas up to the value (customs value) of one million units of account (u.a.) for each; whereas in the context of putting into effect the Declaration of Intent concerning commercial relations with certain Asiatic countries, it is necessary to take the quota amount relating to each of these fabrics to a level of two million units of account; whereas products may be admitted under the Community tariff quota only on production of a certificate of manufacture recognised by the competent authorities of the European Economic Community stamped in a manner approved by such authorities at the beginning and end of each item and carried direct from the country of manufacture to the Community;

Whereas, under Article 39 of the Act of Accession, the new Member States must on 1 January 1974 make the first move towards alignment of their national tariffs on the Common Customs Tariff as regards the said goods; whereas, therefore, the needs of those Member States for imports from third countries should from that date onwards be covered by the tariff quotas in question during the period thereof; whereas the duties to be applied by those Member States under the said quotas must be in conformity with the relevant provisions of the Act of Accession;

Whereas equal and continuous access to the quotas should be ensured for all Community importers and the rate of levy for the quotas should be applied consistently to all imports until the quotas are used up; whereas, in the light of the principles outlined above, a Community tariff quota arrangement based on an allocation between the Member States would seem to preserve the Community nature of the said quotas; whereas to represent as closely as possible the actual development of the market in the said goods the allocation should follow proportionately the requirements of the Member States calculated both from statistics of imports from third countries during a representative reference period and from the economic outlook for the tariff year in question;

Whereas, however, there is no specific classification of hand woven fabrics of silk, waste silk other than noil, and cotton in the statistical nomenclatures; whereas it has thus been impossible to collect sufficiently precise and representative statistics; whereas the quantities charged against the shares allocated to the Member States of the Community as originally constituted for the Community tariff quotas for 1970, 1971 and 1972 were as follows:

1. *Woven fabrics of silk or of waste silk other than noil*

	1970		1971		1972	
	in u.a.	%	in u.a.	%	in u.a.	%
Germany	611 632	62	557 900	56·93	787 681	85·01
Benelux	102 492·62	10	60 746	6·20	25 457·9	2·75
France	163 680	17	220 000	22·45	82 743	8·93
Italy	113 012·73	11	141 230	14·42	30 715·37	3·31

2. *Woven fabrics of cotton*

	1970		1971		1972	
	in u.a.	%	in u.a.	%	in u.a.	%
Germany	31 273	10	91 366·83	15·55	172 650	19·94
Benelux	43 177·36	13	58 429	9·94	6 928·14	0·79
France	238 499	74	430 340	73·23	631 288	72·93
Italy	9 229·09	3	7 535·48	1·28	54 812·16	6·34

Whereas, in view of the variations in these figures, the latter cannot lead to a firm conclusion on the real requirements of each Member State referred to above for the tariff period under consideration; whereas, moreover, provision should be made for the new Member States to be included in the allocation of the tariff quotas in question; whereas, so that the Community tariff quotas in question may be allocated fairly among the Member States, these factors make it possible to express the initial percentage shares in the quota volume roughly as follows:

	Silk fabrics	Cotton fabrics
Benelux	7	5
Denmark	7	7
Germany	24·5	14
France	20	42
Ireland	7	7
Italy	10	10
United Kingdom	24·5	15

Whereas, to take account of future import trends for the fabrics under consideration, each quota volume should be divided into two tranches, the first being allocated amongst the Member States and the second held as a reserve to cover at a later date the requirements of Member States who have used up their initial shares; whereas to give importers some certainty the first tranche of each Community tariff quota could be fixed at about 70 % of the quota volumes opened up to the values specified above;

Whereas the initial shares may be used up fairly quickly; whereas, therefore, to avoid disruption of supplies any Member State which has almost used up one of its initial shares should draw a supplementary share from the corresponding reserve; whereas this must be done by each Member State as each one of its supplementary shares is almost used up, and as many times as the reserve allows; whereas each initial and supplementary share must be valid until the end of the quota period; whereas this form of administration requires close collaboration between the Member States and the Commission, and the Commission must be in a position to follow the extent to which the tariff quotas have been used up and inform the Member States thereof;

Whereas if, at a given date in the quota period, a Member State has a considerable quantity of one of its initial shares left over, it is essential that it should return a significant proportion thereof to the reserve, to prevent a part of one or other Community quota from remaining unused in one Member State while it could be used in others;

Whereas since the Kingdom of Belgium, the Kingdom of the Netherlands and the Grand Duchy of Luxembourg are jointly represented by the Benelux Economic Union any measure concerning the administration of the shares allocated to that economic union may be carried out by one of its members,

HAS ADOPTED THIS REGULATION:

Article 1

1. During the period from 1 January to 31 December 1974 Community tariff quotas each of a volume corresponding to a customs value of 2 000 000 units of account shall be opened in the Community for:

— hand woven fabrics of silk of waste silk other than noil (subheading No ex 50.09 of the Common Customs Tariff);

— hand woven fabrics of cotton (subheading No ex 55.09 of the Common Customs Tariff).

2. Within these tariff quotas the Common Customs Tariff duties shall be totally suspended.

3. Within this tariff quota the new Member States shall apply duties calculated in accordance with the relevant provisions of the Act of Accession.

4. For the purposes of this Regulation,

(a) hand woven fabrics mean fabrics woven on looms moved exclusively by hand or foot;

(b) customs value means the value resulting from Council Regulation (EEC) No 803/68 [1] of 27 June 1968 on the value of goods for customs purposes.

5. Admission under these quotas shall, however, be granted only for fabrics:

(a) accompanied by a certificate of manufacture recognized by the competent authorities of the European Economic Community and conforming to one of the examples in the Annexes, endorsed by a recognized authority in the country of origin;

(b) bearing, at the beginning and end of each item, a stamp approved by the said authorities [2];

(c) carried direct from the country of manufacture to the European Economic Community.

6. In this respect, the following shall be considered to have been carried direct:

(a) goods which, in carriage, do not cross the territory of a non-member country of the European Communities. Goods temporarily held in power of non-member countries shall not be excluded from the definition of direct carriage provided that they are not transhipped there;

(b) goods which, in carriage, cross the territory of one or more non-member countries of the European Communities or are transhipped in such a country, provided that they cross such territory while covered by a single transport document drawn up in the country of origin.

Article 2

1. The first tranche, of a value corresponding to 1 400 000 units of account for each of the Community tariff quotas shall be allocated among the Member States; the respective shares of the Member States, which, subject to Article 5, shall be valid from 1 January to 31 December 1974, shall correspond to the following values:

(a) for hand-woven fabrics of silk or of waste silk other than noil:

	u.a.
Benelux	98 000
Denmark	98 000
Germany	343 000
France	280 000
Ireland	98 000
Italy	140 000
United Kingdom	343 000

(b) for hand woven fabrics of cotton:

	u.a.
Benelux	70 000
Denmark	98 000
Germany	196 000
France	588 000
Ireland	98 000
Italy	140 000
United Kingdom	210 000

2. The second tranche, amounting for each of the Community quotas to a volume corresponding to a value of 600 000 units of account, shall be held as a reserve.

Article 3

1. If 90 % or more of one of a Member State's initial shares as specified in Article 2 (1), or of that share minus the portion returned to the reserve where Article 5 is applied, has been used up, that Member

(1) OJ No L 148, 28. 6. 1968, p. 1.

(2) It is agreed that this subparagraph shall be without prejudice to a lead seal approved by the authorities constituting performance of the terms of this subparagraph.

State shall without delay, by notifying the Commission, draw a second share equal to 15 % of its initial share, rounded up where necessary to the next unit, to the extent permitted by the amount of the reserve.

2. If, after one or other of its initial shares has been used up, 90 % or more of the second share drawn by a Member State has been used up, that Member State shall, in accordance with the conditions imposed by paragraph 1, draw a third share, equal to 7·5 % of its initial share, rounded up where necessary to the next unit.

3. If, after one or other of its second shares has been used up, 90 % or more of the third share drawn by a Member State has been used up, that Member State shall, in accordance with the same conditions, draw a fourth share equal to the third.

This process shall continue to apply until the reserve is used up.

4. By way of derogation from paragraphs 1 to 3, a Member State may draw shares lower than those fixed in those paragraphs if there are grounds for believing that those fixed may not be used up. It shall inform the Commission of its reasons for applying this paragraph.

Article 4

Supplementary shares drawn pursuant to Article 3 shall be valid until 31 December 1974.

Article 5

A Member State which on 15 September 1974 has not used up one or other of its initial shares shall return to the reserve not later than 10 October 1974 the unused portion exceeding 20 % of the initial amount. It may return a greater portion if there are grounds for believing that it may not be used up.

Member States shall, not later than 10 October 1974, notify the Commission of the total quantities of the said goods imported up to and including 15 September 1974 and charged against the appropriate Community tariff quota and any quantities of the initial shares returned to the corresponding reserves.

Article 6

The Commission shall keep an account of the shares opened by the Member States pursuant to Articles 2 and 3 and shall, as soon as it has been notified, inform each State of the extent to which the reserves have been used up.

It shall inform the Member States not later than 15 October 1974, of the amounts still in reserve after amounts have been returned thereto pursuant to Article 5.

It shall ensure that the drawing which uses up a reserve is limited to the balance available and to this end shall specify the amount thereof to the Member State making the last drawing.

Article 7

1. Member States shall take all measures necessary to ensure that supplementary shares drawn pursuant to Article 3 are opened in such a way that imports may be charged without interruption against their accumulated shares in the Community tariff quotas.

2. Member States shall ensure that importers of the said goods established in their territory have free access to the shares allocated to them.

3. Member States shall charge imports of the said goods against their shares as and when such goods are entered for home use.

4. The extent to which a Member State has used up its share shall be determined on the basis of imports charged in accordance with paragraph 3.

Article 8

Member States shall inform the Commission at regular intervals of imports actually charged against their shares.

Article 9

Member States and the Commission shall cooperate closely in order to ensure that this Regulation is observed.

Article 10

This Regulation shall enter into force on 1 January 1974.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 28 December 1973.

For the Council

The President

Ove GULDBERG
