The President

A. LAVENS

[1] OJ No L 300, 31. 12. 1972, p. 2.

ANNEX

1. The goods must be:

   — either wholly produced in the Community, ie they must conform with the definition of goods considered to be 'wholly produced', which appears in Protocol 3 to the Agreement between the Community and Austria;

   — or manufactured wholly from goods wholly produced in the Community and from goods originating in the other Contracting Party to the Agreement.

2. If they are wholly or partly manufactured from materials or components imported into the Community and not originating in the other Contracting Party, or from components of indeterminate origin, such materials or components must have undergone substantial processing in the Community, such as to make them different products. Generally, processing must be such as to result in the exported goods being classified under a different heading of the Brussels Tariff Nomenclature from that under which such materials or components would be classified. Furthermore, special rules and secondary provisions are laid down for various categories of goods in Lists A and B contained in Protocol 3 to the Agreement between the Community and Austria. Such rules and provisions must be carefully studied before a request for a certificate is made out.
