REGULATION (EEC) No 1128/74 OF THE COUNCIL

of 29 April 1974

determining, for the 1974/75 marketing year the single intervention prices for barley, rye, durum wheat and maize and the principal marketing centres for common wheat and the derived intervention prices applicable at those centres

HE COUN CIL OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community;

Having regard to the Treaty [1] concerning the Accession of new Member States to the European Economic Community and the European Atomic Energy Community, and in particular the first subparagraph of Article 52 (3) of the Act annexed thereto;

Having regard to Council Regulation No 120/67/EEC [2] of 13 June 1967 on the common organization of the market in cereals, as last amended by Regulation (EEC) No 1125/74 [3], an in particular Article 4 (4) thereof;

Having regard to the proposal from the Commission;

Whereas, pursuant to Article 4 (2) of Regulation No 120/67/EEC, a single intervention price shall be fixed respectively for barley, rye, durum wheat and maize; whereas these prices shall apply to all marketing centres subsequently determined for each of these cereals;

Whereas, pursuant to Council Regulation No 131/67/EEC [4] of 13 June 1967 laying down rules for deriving intervention prices and for determining certain marketing centres for cereals, as last amended by Regulation (EEC) No 1205/69 [5], derived intervention prices for marketing centres of appreciable importance on the regional level must be fixed in line with the basic intervention price, taking into account natural price formation on the market and transport costs;

Whereas the prices of cereals in the new Member States for the 1974/75 marketing year which were fixed in line with and at the same time as the common prices must, in accordance with Article 52 (2) (a) of the Act of Accession, be aligned with the common prices;

Whereas, experience in the last marketing year has shown that there is no need to change the procedure for deriving intervention prices; whereas, consequently, it is not necessary to alter the principal marketing centres determined for common wheat for the 1973/74 marketing year in Annexes A and B to Regulation (EEC) No 1927/73 [6], but it is nonetheless necessary to alter the intervention prices for these centres in the light of the price increases adopted,
