REGULATION (EEC) No 1363/74 OF THE COMMISSION

of 31 May 1974

fixing the reference prices for table grapes for the 1974 marketing year

THE COMMISSION OF THE EUROPEAN COMMUNITIES,

Having regard to the Treaty establishing the European Economic Community;

Having regard to Council Regulation (EEC) No 1035/72 [1] of 18 May 1972 on the common organization of the market in fruit and vegetables, as last amended by Regulation (EEC) No 2745/72 [2], and in particular Article 27 (1) thereof;

Whereas, under Article 23 (1) of Regulation (EEC) No 1035/72, reference prices valid for the whole Community are to be fixed each year, before the beginning of the marketing year;

Whereas table grapes are produced in such quantities in the Community that a reference price should be fixed for them;

Whereas table grapes harvested during a given crop year are marketed from May to April of the next year; whereas the quantities harvested in May and June, during the first 10 days of July, the last 10 days of November and also December to April of the next year are so small that there is no need to fix reference prices for that period; whereas reference prices should be fixed only for the period from 11 July to 20 November;

Whereas, pursuant to Article 23 (2) of Regulation (EEC) No 1035/72, reference prices are to be equal to the arithmetic mean of producer prices in each Member State plus an amount representing the costs of transporting Community products from the production areas to Community marketing centres; whereas the trend of average basic prices and buying-in prices should also be taken into account;

Whereas to take seasonal variations into account, the marketing year should be divided into several periods and a reference price fixed for each of those periods;

Whereas the producer prices are to correspond to the averages of the prices recorded during the three years prior to the date of fixing of the reference price for a home-grown product with defined commercial characteristics on the representative market or markets situated in the production areas where prices are lowest, for the products or varieties which represent a considerable proportion of production marketed throughout the year or during part of it, and which satisfy specified requirements as regards market preparation; whereas, when the average of prices recorded on each representative market is being calculated, prices which could be considered excessively high or excessively low in relation to normal price fluctuations on the market should be disregarded;

Whereas the measures provided for in this Regulation are in accordance with the Opinion of the Management Committee for Fruit and Vegetables,

HAS ADOPTED THIS REGULATION:

Article 1
